FALL 2015  
NEWSLETTER

## FROM THE CHAIRMAN...

As I sit here in the middle of August beginning to write this, it dawned on me that this may be the last newsletter you will receive before the end of the year. So, on behalf of our employees and Supervisors, let me be the first to wish you Happy Holidays and hope that 2016 is a wonderful year.

Sunoco's Land Agents continue to contact residents along Boot Road and North Chester Road to secure easements for the proposed Mariner 2 pipeline. Sunoco's goal is to obtain a 50 foot right-of-way along the entire pipeline. In some cases, they want an additional 25 feet for a temporary easement for construction. Sunoco has yet to decide the exact route for the pipeline. My guess is that this will happen before the end of the year so that construction can begin by next spring.

The Supervisors have approved an amendment to the Zoning Ordinance that will permit a **Dunkin Donuts** with a drive-through in the Goshen Village Shopping Center. The last step in the approval process is for the Supervisors to conduct a Conditional Use Hearing, which will happen in mid-September. In approving the project, the Supervisors may include reasonable conditions based on testimony by expert witnesses to mitigate any possible impacts that Dunkin Donuts may create.

Two representatives from the Pennsylvania Department of Environmental Protection (DEP) attended the August 4th Supervisors meeting to provide information and answer questions as to why it is necessary for the Township to fix or breach the **Hershey's Mill and Milltown Dams**. Both dams are required to handle a 100-year storm, which is defined as 7.5" of rain in a 24 hour period, without overtopping. Neither dam can presently do that. In addition to meeting that requirement, the dams must be constructed on the downstream side in such a way as to prevent the dams from failing when a rainstorm exceeds the 100-year storm threshold.

The Supervisors also awarded a contract to the engineering firm of **Gannett Fleming** to evaluate the Township's options with respect to Milltown Dam. The final report is expected to be completed early next year.

**The Township's first Recycling E-Waste Collection** was held on July 11th and was a great success. 33,900 lbs. of various items were collected. The majority of items collected were TV's and printer/scanners. The good news is that there were enough items collected so

### MEETINGS

East Goshen Township meetings are advertised in the Daily Local News. All Township meetings and workshops, with the exception of Board of Supervisors executive sessions, are open to the public

*Thank You To The  
Businesses*

The Board of Supervisors would like to thank the businesses that appear in this newsletter and to recognize them each as supporters and cornerstones of our community. For it is with their contributions that this newsletter has been produced at minimal charge to our residents.

## FROM THE CHAIRMAN . . . *continued from cover*

that there was no cost to the Township. In addition, another event is being planned for Saturday, November 21st.

After considerable discussion at the August 11th meeting, the Supervisors amended the **Township's Zoning Ordinance** by a vote of 3-2 to provide the rationale for permitting residents with less than three acres of property to have up to four dogs over three months of age and one additional dog for each acre above two acres. The four dog limit has been in the Zoning regulations since 1983. Based on case law, this new rationale is required in the Zoning Ordinance when a township limits the number of dogs permitted on a residential property.

The Township's **new Comprehensive Plan and Parks, Recreation and Open Space Plan** should be adopted by the Supervisors by the time you receive this newsletter. Many thanks to Supervisor Janet Emanuel, who chaired both Task Forces, as well as all the members of our Authorities, Boards and Commissions who participated in these efforts.

In September, the Supervisors will have selected a consultant to develop a **Master Plan for the Township Park**. The goal is to make the Park sustainable well into the future by preparing a plan for the operation, maintenance and future improvements, as well as to position the Township for future grant opportunities.

The Supervisors have approved a change in the Township's health care provider for our employees. The new provider will be the **Delaware Valley Health Trust (DVHT)**. It is anticipated that this change will initially reduce the Township's costs by 5-6% with no change in coverage for the employees. In the future, the Township may receive a credit based on the performance under the plan.

As mentioned in previous Newsletters, the Township has an e-mail communication called "Constant Contact". Residents are able to receive timely information on specific areas of interest. Residents can sign up by going to the Township's website at [www.eastgoshen.org](http://www.eastgoshen.org).

The Board welcomes feedback and suggestions from our residents. You may call the Township at 610-692-7171, respond through our website or contact me at [mshane@eastgoshen.org](mailto:mshane@eastgoshen.org).

*Marty Shane*

E. Martin (Marty) Shane, Chairman  
Board of Supervisors

## CONGRATULATIONS TERRY DARLINGTON

Please join us in congratulating Terry Darlington on his retirement from the Public Works Department on August 1st after a 26-year career with East Goshen. Terry's relentlessly positive attitude and sunny disposition will be missed!

*Congratulations*

## COMMERCE COMMISSION'S SPOTLIGHT ON BUSINESS

IT IS A SPECIAL PLEASURE FOR US TO SHOWCASE ACERO PRECISION. IT IS ONE OF MANY DYNAMIC INDUSTRIAL CORPORATIONS OCCUPYING EAST GOSHEN'S BUSINESS PARKS, AND A DISTINCT ASSET TO THE TOWNSHIP, TO OUR COMMUNITY, AND SIGNIFICANTLY BEYOND. THE ENTREPRENEURIAL SPIRIT AND AMERICAN DREAM IS ALIVE IN OUR CORPORATE PARKS, AND COMMERCIAL DISTRICTS. ACERO PRECISION WAS BORN FROM THE DREAMS, IDEAS AND PLANS OF MICHAEL FITZGERALD, PRESIDENT & CEO. JOANNE, PARTNER AND WIFE, IS THE DIRECTOR OF HUMAN CAPITAL FOR BOTH ACERO, AND THEIR MEDICAL DEVICE COMPANY ALTUS SPINE. TOGETHER, THEY HAVE BEEN A DRIVING FORCE FOR 30 YEARS CULTIVATING AND GROWING THEIR CORPORATION TO WHAT IT IS TODAY. ENJOY THE Story of ACERO.

### ACERO - PRECISION PARTS FOR PRECISION MACHINES: RACING CARS, HUMANS, AND MORE!

As a child, Michael Fitzgerald watched the 1966 classic *Grand Prix* for the first time. The film inspired Fitzgerald with a love of cars and machinery and soon after, he began building and fixing cars during his free time. By the time Fitzgerald matriculated at Drexel University in the fall of 1979, it was only natural that he gravitated towards the Mechanical Engineering Program. Fitzgerald has noted that his time at Drexel and specifically his co-op opportunities introduced him

Michael Fitzgerald celebrates his 2nd place finish at the 2012 Historic Grand Prix in Monaco

to precision manufacturing, another natural fit, as that is where the best and brightest engineers innovated in fields such as Formula One. By 1984, Fitzgerald started Acero Precision, named Fitze Engineers at the time, in a rented warehouse not far from his college dorm room.

As Fitze Engineers began to take shape, he met his wife, Joanne. Soon after they met, she graduated from Saint Joseph's University and began working full-time in New Jersey. While beginning her career with a fulltime job, Joanne began working Friday evening through Sunday at Fitze Engineering. She ran machines, filled out paperwork, conducted quality processes and so much more. Together, they built a company purely out of passion and hard work.

Although Formula One first attracted Fitzgerald to precision manufacturing, he soon learned the space offered ample opportunity for innovation. Today, Acero Precision is a major supplier for the motor sport industry as well as the medical, analytical, and life science industries. Every day, when parts are produced at Acero, they are being used in a variety of roles. Acero is an ISO 13485 & 9001 certified company (a preferred international standard for medical device manufacturing) that relies on the latest technology, quality systems, but most importantly on its high caliber employees. The Fitzgeralds pride Acero specifically on its employees whose goals are aligned with what the Acero Precision name stands for: the utmost precision, accuracy, and quality. It is each employee's passion for manufacturing and their detailed and dedicated work ethic that truly sets Acero apart in the industry.

In 2015, as Acero Precision celebrates over 30 years, their love and dedication for the American Manufacturing Industry has remained constant and stronger than ever. In 2010, the Fitzgeralds rebranded Fitze Engineers as Acero Precision to reach broader markets to accommodate growth. Housed within their soon to be completed 100,000 square foot facility in the Goshen Corporate Park will be a classroom that will be used to train new and existing employees various skills. Acero actively encourages its employees to continue professional development so that both the current and emerging generations of manufacturing engineers can take full advantage of the rising American Manufacturing Industry. One such way is the construction of Acero University, an educational initiative that will allow employees not only to explore relevant skills but also learn about other types of work at Acero. As the United States is increasingly considered for manufacturing needs both domestically and abroad, many domestic opportunities in manufacturing are emerging.

In 2011, inspired by Acero's success in other industries, the Fitzgeralds created a medical device company, which is now Altus Spine. Acero and Altus have both invested in internship programs in order to prepare a new generation of manufacturing talent in the United States. Together, they recently concluded their Summer 2015 Internship Program in which there were ten Acero interns and three Altus interns. Both Acero and Altus called upon their strong relationships with high schools, technical colleges, and universities to provide them with skilled students to work and learn for twelve weeks at one of the companies. In the coming years, Acero and Altus hope to create a sustainable network of educational institutions that will allow them to host a larger number of interns during parts of the entire year. Acero and Altus also hope to transition most interns to full-time employees following their graduations.

As excellence has been a part of the Acero Precision and Altus Spine stories from the beginning, Acero and Altus recognize that they each need to continue to provide a variety of opportunities and experiences for the diverse number of fields that interact between a design company and a manufacturing company. As Acero Precision and Altus Spine continue to grow, the Fitzgeralds recognize the personal and professional growth of each employee and customer that they cross paths with is necessary for the success of each company.

Michael Fitzgerald, *President & CEO* & Joanne Fitzgerald, *Director of Human Capital*

If you would like to apply to any of our open positions please feel free to contact [Recruiting@AceroPrecision.com](mailto:Recruiting@AceroPrecision.com) or [Recruiting@Altus-Spine.com](mailto:Recruiting@Altus-Spine.com), [www.AceroPrecision.com](http://www.AceroPrecision.com) and [www.Altus-Spine.com](http://www.Altus-Spine.com)

*The Commerce Commission hopes you enjoyed meeting ACERO PRECISION and the Fitzgeralds as much as we've enjoyed presenting them.*

*Albert Zuccarello, Commerce Commission*

# Celebration of Life

## Benson W. Rohrbeck

1933 - 2015

In 1964 Ben Rohrbeck and his young family came to live here in East Goshen. Right from the start he became an active member of our community and involved himself and his family

in a variety of activities. Always a person who could be counted on to help, Ben was an active member of the Boy Scouts, and served as a leader for a number of years. He was also a long-term member of the Advent Lutheran Church where he served as Treasurer.

He had a passion for train and trolley transportation, and was the author of multiple books on the topic. He built and maintained a model train exhibit in his home.

Ben grew up in the Gettysburg area and had a tremendous love of history. As his family grew and moved on Ben became involved with the Township's Historic Commission. He enjoyed researching the rich history of our area and we benefited from his vast knowledge. When the Township began the preparation to celebrate its Tri-centennial in 1982, one of the main projects was the restoration of the Blacksmith Shop. Ben was involved from the start and became our first modern Blacksmith. For over 30 years Ben represented our Township at Living History Days, Town Tours and Village Walks, Chester County Day and numerous visits from school groups. In the summers he could be found almost every weekend in the Blacksmith shop. His demonstrations and tours were enjoyed by all. He even grew the best beard to better look the part. He loved sharing his knowledge and children were his favorite audience. He was known all over the area and helped by volunteering at Colonial Plantation, Brandywine Battle Field, Paoli Battlefield, Historic Sugartown and many others.

Sadly we lost Ben in August but his spirit will remain with us. He often told the story of possible ghosts in the Blacksmith shop. Now we will know that he is there to oversee us. Thanks Ben!

## LATEST NEWS FROM THE PARK & RECREATION COMMISSION

As the newest member of the Park Commission, I am pleased to share the results of our summer events and excitedly look forward to a jam-packed slate of activities as cooler fall temperatures settle in. We once again had a tremendous summer camp season. Attendance jumped dramatically this summer in our day camp. Maybe it was the addition of new exciting field trips or possibly the growing popularity of the full-day camp program – whatever it was, it was great seeing so many East Goshen families taking part in the time-honored tradition of REC Camp. Our amphitheater events were well attended and we look forward to hosting a repeat of the “Ode to Ireland” and Shakespeare in

*East Goshen Pollinator Garden in full bloom*

*Winners of the HS Entrepreneurial Academy*

the Park events in 2016. Lastly, the Farmers Market has become a staple of East Goshen Park – every Thursday, area residents can count on fresh produce, sausage, baked goods and the best hot BBQ this side of the Mason-Dixon!

The Park Commission has been busy getting the fall activity lineup set, and we look forward to getting out into the park as the colors change. We’ll host the Pumpkin Festival on Saturday, October 17th in the park. This family-friendly event is complete with free pumpkins, the “hay pit”, petting zoo and last year’s hit activities—frozen turkey bowling and pumpkin pie eating contests! The new addition this year is an Adult Flag Football Tournament to benefit the PA Wounded Warriors. This action-packed event will crown one team as champions – with the ultimate champions being the PA Wounded Warriors. We’re only taking the first four teams this year so email Jason at [JLang@eastgoshen.org](mailto:JLang@eastgoshen.org) to sign up today!

*Silliness with Spiderman at REC Camp*

Our Holiday Tree Lighting Celebration is coming up as well on Friday, December 11 at 6pm. We’ll have carolers, hot cocoa, and of course, a tree lighting! Once again, we’ll have a “Stuff Jason’s Office” canned food drive in support of the West Chester Food Cupboard. Last year we donated over 600 pounds of much-needed food to over one thousand families. Please, donate and help area families this holiday season! And if you still need any convincing, there is another reason to donate as well – you may get to light the holiday tree! That’s right, the East Goshen resident who donates the most canned goods will get to do the honors! In the weeks leading up to the Holiday Celebration, we’ll also hold a House Decorating Contest! In last year’s hotly contested battle, 1405 Grand Oak Lane came out on top! Let’s see if they can make it two in a row!

Lastly, the Park Commission is busy ensuring East Goshen Park provides the best opportunities for Township residents. This fall, we will be working on a Master Plan that will guide park improvement decisions moving forward. As residents, it truly is your park, and we ask for your input in

shaping its future. The Master Plan meeting schedule will be posted online and we encourage all to participate in the process and attend the public meetings.

I hope everyone had a fantastic summer! It surely went by too fast, but East Goshen is a beautiful four-season township. Come on out to the park, enjoy the Pumpkin Festival, jump in a big pile of leaves, and have fun!

*Daria Chapman*  
Park Commission Member

# East Goshen Recreation

## FALL 2015

### EAST GOSHEN FARMERS MARKET

We are all set again for another fantastic fall in the park offering the finest and freshest food around! The East Goshen Farmers Market takes place on Thursdays, 3pm-7pm. Visit many of your favorite vendors from past summers and meet some of our new vendors!

*All-Comers Antique and Classic Car Cruise Night – October 15th, 5pm-7pm*

**DATE:** Thursdays, through October 15th, 3pm-7pm

**LOCATION:** East Goshen Township Park, near the Amphitheater

### FALL ROBOTIC LEGO MINI-CAMPS

**DATE:** NOVEMBER 23, 12PM-3PM

**LOCATION:** East Goshen Township Building

**AGES:** 6-12

**DESCRIPTION:** When schools are out – Robotic Lego's Mini-Camps will be open! These one or two day mini-camps will keep your kids excited and engaged and are for the **Beginner or Intermediate** level camper! No need for prior Robotic Lego's experience – this can be a great introductory program!

**FEE:** \$35

**MAX ENROLLMENT:** 10

### FALL ANIMATION DESIGN MINI-CAMP

**DATE:** NOVEMBER 24, 12PM – 3PM

**Location:** East Goshen Township Building

**Agess:** 9-13

**Description:** Come out for a crash course in fun, easy to understand animation design! Learn how to create stories and simple video games using the Scratch platform! No experience needed!

**Fee:** \$35 • **Max Enrollment:** 10

*For the following Fitness Classes – you can join after a session has started at a prorated fee!*

### ZUMBA TONING

**DATES:** SESSION 1: SEPT. 15, 22, 29, OCT. 6, 13, 20  
(6 CLASSES \$65)

**SESSION 2:** NOV. 10, 17, 24, DEC. 1, 8, 15 (6 CLASSES \$65)

**TIME:** Tuesdays, 6:30- 7:45pm

**LOCATION:** East Goshen Elementary Gym

Or sign up for both sessions and save \$10!!! \$120 for both sessions.

### ZUMBA GOLD TONING

**DATES:** FALL 1 SESSION: SEPT. 16, 23, 30, OCT. 7, 14, 21

**FALL 2 SESSION:** NOV. 4, 11, 18, 25, DEC. 2, 9

**TIME:** Wednesdays, 5:30-6:45pm

**FEE:** (6-week session) \$65 or \$12 single class or sign up for both sessions \$120 (save \$10!!!)

**DESCRIPTION:** No experience necessary for Zumba – just an interest in getting up and getting moving!

These classes are fun, energetic and never the same week to week! Inspired by latin dance moves, you will get fit and have fun in a stress-free environment. Pam Nelson leads Zumba Nation and is the inspiring teacher of this captivating class.

### PILATES

**DATE:** OCTOBER 21ST - DECEMBER 16TH, 2015

**TIME:** 10:30am-11:30am

**LOCATION:** East Goshen Township Building

**DESCRIPTION:** Pilates is a fantastic fitness class geared for those wanting to strengthen core muscles groups, improve posture, flexibility and balance. Instructor Ruby Telehorster has over 500 training hours and is adept at coaching novices all the way through “seasoned pros”! **Please bring a mat to class. NEW!!!** Want to try the class before locking in for the full session – drop in for \$13 (must pay by check and fill out Registration form)!

**FEE:** \$95

### YOGA

**DATE:** SEPTEMBER 8TH - DECEMBER 21ST, 2015

**TIME:** September 8th - December 21st, 2015

**LOCATION:** East Goshen Township Building

**DESCRIPTION:** Yoga is taught by the incomparable Charo. Let her guide you on a journey towards peace and serenity as you learn to breathe deeply and relax fully. She has been teaching for over 18 years and enlivens any room with her welcoming and engaging

smile. Please bring a yoga mat, small pillow and wear comfortable clothes. Don't worry if it's October! Sign up now at the pro-rated fee!

**• MONDAY, SEPT 14 - DEC 21**

Gentle Yoga 9 am - 10:15 am  
Meditation 10:30 am - 11:30 am

**• TUESDAY, SEPT 8 - DEC 15**

All Levels 5:30 - 6:45pm • Gentle Yoga 7:00 - 8:15pm

## COMMERCIAL VEHICLE TRAFFIC ENFORCEMENT

The Traffic Safety Unit of the Westtown-East Goshen Regional Police Department is comprised of Patrol Officers with advanced training and experience who are assigned to handle analysis and resolution of traffic complaints from the public; reconstruction for fatal and serious crashes that could potentially involve prosecution; and commercial vehicle enforcement. This article is intended to highlight the commercial vehicle enforcement duties of the Traffic Safety Unit and answer some of the more frequently asked questions about enforcement.

### WHY PERFORM COMMERCIAL VEHICLE ENFORCEMENT?

- According to the National Highway Traffic Safety Administration (NHTSA), approximately 25% of all commercial vehicles inspected in the U.S. are placed out-of-service due to either a vehicle or operator safety violations. Unfortunately, our department has found that our percentages are much higher. For example, in 2014 our officers placed approximately 40-45% of all inspected commercial vehicles and drivers out-of-service due to unsafe conditions.
- According to the U.S. Department of Transportation, there were 30,800 fatal crashes in the United States in 2012; 12% involved at least one large truck or bus. Additionally, there were approximately 5.5 million nonfatal crashes in 2012; 6.6% involved at least one large truck or bus.
- The amount of kinetic energy involved in a commercial vehicle crash is considerably higher than that of a passenger vehicle crash. As a result, the amount of injuries and deaths are higher when a commercial vehicle is involved in a crash. In order to keep our citizens safe, we place a heavy emphasis on commercial vehicle enforcement.

### HOW MUCH COMMERCIAL VEHICLE ENFORCEMENT DOES THE DEPARTMENT PERFORM?

- Commercial vehicle enforcement requires advanced training and certifications, which are difficult to acquire and therefore, only two members of the department currently have Motor Carrier Safety Assistance Program certification.
- In 2014, the police department conducted a total of 3,450 hours on traffic enforcement. Of that total, 805 hours involved commercial vehicles (23.3%).
- During the first five months of 2015, the Traffic Safety Unit completed 94 commercial vehicle inspections and issued 277 citations for violations.

### HOW DOES THE POLICE DEPARTMENT DETERMINE WHERE IT WILL CONDUCT COMMERCIAL VEHICLE ENFORCEMENT?

- The sites for our enforcement details are chosen based upon the volume of commercial vehicle traffic and the incidence of crashes.
- For example, Route 202 is frequently selected because it has an extremely high volume of commercial vehicle traffic. Approximately 50,000 – 60,000 vehicles travel on Route 202 in our jurisdiction on a daily basis; approximately 15-20% of those vehicles are commercial vehicles.
- The portion of Route 202 in our area also has a relatively high rate of serious commercial vehicle crashes. On April 9, 2015, a three axle truck loaded with sod rear-ended a vehicle that had stopped at a red light at the intersection of Route 202 and Green Tree Drive/Bridlewood Boulevard, pushing it through the intersection and into oncoming traffic. At the time of the crash, only 1 out of the 6 brake systems on the truck were operational. The driver of the truck, which was registered in New Jersey, indicated that he was aware that the vehicle was having brake problems but he chose to continue driving it. The female operator of the car that was struck suffered a concussion, a fracture of her orbital socket, and a severe facial laceration. This same intersection was the site of two fatal crashes involving commercial vehicles within the last 8 years. The last crash, which occurred in 2009, occurred when a 14,500 pound box truck failed to stop at the red light and struck a stopped car. The car was pushed into another stopped car, causing it to catch fire – killing the driver inside.
- The sites for our commercial vehicle enforcement are also selected to meet the safety guidelines established by federal and state protocol – giving officers enough space to conduct the enforcement safely and motorists enough advance visual notice of police activity. For example, the intersection of Route 202 and Skiles Boulevard has wide shoulders along the roadway and clear visibility in both directions.
- And lastly, the sites for commercial vehicle enforcement are selected in conjunction with overall traffic complaints. For example, our police department frequently receives complaints that motorists fail to stop at the red light at Route 202 & Skiles

Boulevard. This violation is extremely concerning to the citizens (many of whom are parents) because an elementary and a middle school are located at this intersection. By ensuring a highly visible police presence at that location, we have dramatically reduced red light violations.

#### WHAT IS THE FUTURE FOR COMMERCIAL VEHICLE ENFORCEMENT?

- In April of 2015, the Chester County Commercial Vehicle Task Force was formed.
- The purpose of the Task Force is to conduct commercial vehicle details throughout the County by uniting resources among all of the law enforcement agencies in Chester County and promoting coordination of commercial vehicle enforcement throughout the County.
- By uniting resources, the Task Force encourages every law enforcement agency in Chester County to conduct commercial vehicle enforcement in its area, regardless of its budget, its staffing, and the level of commercial vehicle training among its officers.
- By coordinating enforcement details, it creates the opportunity to provide and/or receive training and mentorship among agencies, thereby enhancing the performance of all departments and officers.
- The Task Force also creates the opportunity within Chester County to efficiently and effectively utilize State and Federal agencies with a vested interest in commercial vehicle enforcement such as the Department of Revenue, Department of Agriculture, Department of Weights & Measures, the Department of Homeland Security, and the U.S. Department of Transportation.
- The Westtown-East Goshen Regional Department hosted the Task Force's first coordinated detail on April 23, 2015, in Westtown Township. Officers from West Whiteland Police Department, the Easttown Township Police Department, and the Pennsylvania State Police participated in the detail. During the 5 hours of the detail, the following results were achieved:
  - 64 vehicles were screened
  - 10 Level 1 inspections were performed
  - 49 total violations were found
  - 5 vehicles placed out of service (50% of the vehicles inspected)
  - 1 citation was issued to an overweight vehicle
  - 2 citations were issued for permit violations
  - 14 citations were issued for vehicle equipment violations

# Recycling Day

## Anything with a Plug™

**Saturday, Nov. 21, 2015**  
**East Goshen Township Park**  
**1661 Paoli Pike**  
**West Chester, PA**  
**9:00 a.m. to 1:00 p.m.**

East Goshen Township  
 is proud to offer local residents the opportunity  
 to responsibly recycle obsolete electronics on  
 Saturday, November 21, 2015.

This service is available to all residents and  
 small businesses with fewer than 50 employees.

Electronics will be recycled by eForce Compliance,  
 Philadelphia's first Certified Responsible Recycler.

We will accept all electronic devices with a plug, NO  
 SMOKE DETECTORS OR LARGE APPLIANCES  
 will be accepted.

### ACCEPTED ITEMS INCLUDE:

Laptops	Dehumidifiers
Peripherals	Computers
Typewriters	Mice
Telephones	Small Appliances
Microwaves	Fax Machines
Cameras	Keyboards
Cell Phones	Printers
Calculators	Air Conditioners

**\$20 per TV or computer  
 monitor accepted**  
**\$50 per projection TV  
 accepted**

**All Data Media Will Be  
 Destroyed or Wiped!**

## TRASH/RECYCLING

## E-Waste Recycling Day!

### *Don't Dump what you can Recycle!*

Please come out to the Township's E-Waste Recycling Day on Saturday November 21 from 9am to 1pm at East Goshen Township Park. Our last event in July of 2015 was a huge success! The event did not cost the Township anything; due to prices being charged for larger objects (\$20.00 per TV or computer monitors and \$50.00 for every projection TV) enough funds were made to pay the entire invoice for the event! Prices for this event will be identical to the July 2015 event. (*Prices listed above*).

Total weight of recycled materials that was collected from the July 2015 event was 33,896 lbs!  
And consisted of the following items:

• Air Conditioners & Dehumidifiers	3,081 lbs
• Microwaves	916 lbs
• TV's	10,429 lbs
• Printers	2,505 lbs
• Electric Household waste items	2,777 lbs
• Printer/scanners/mixed electric	9,541 lbs
• PC Tower/Desktop	3,972 lbs
• Wire	675 lbs

Total Weight Collected = 33, 896 lbs

*Lets see if WE can top the last collection!!!*

This event is open to all Township Residents and small businesses with fewer than 50 employees. Electronics will be recycled by EForce Compliance, Philadelphia's first Certified Responsible Recycler. We will gladly accept ALL electronic devices with a plug, however we cannot take ANY SMOKE DETECTORS OR LARGE APPLIANCES.

ALL DATA MEDIA WILL BE DESTROYED AND WIPED!

Some Examples of Accepted Items Include:

- |                       |                                  |
|-----------------------|----------------------------------|
| • Laptops/Cell phones | • Air Conditioners/Dehumidifiers |
| • Peripherals         | • Computers                      |
| • Typewriters         | • Mice/Keyboards/Printers        |
| • Telephones          | • Cameras/Calculators            |
| • Microwaves          | • Fax Machines                   |

*\*\*E-Waste contains concentrations of metals (lead and copper) high enough to make them hazardous wastes when they are discarded. Unless you are sure they are not hazardous, you should presume these types of devices need to be recycled or disposed of as hazardous waste and that they should not be thrown in the trash.*

### 2015 BULK PICK-UP DATES:

October 15th and 16th  
November 12th and 13th  
December 17th and 18th

### HOLIDAYS FOR REFUSE:

Thanksgiving:  
Thursday November 26th  
Christmas: Friday December 25th

### 2015 YARD WASTE PICK UP:

- |                       |                                   |
|-----------------------|-----------------------------------|
| • September 30th      | • November 4th, 11th, 18th & 25th |
| • October 14th & 21st | • December 2nd, 16th & 30th       |

## MALVERN PUBLIC LIBRARY

*Fall 2015*

- A full schedule of storytimes for preschoolers is underway. Build your child's early literacy skills with stories and songs. We have Baby Storytime on Mondays at 11 am; Storytime for 2 year olds on Wednesday at 10 am and Thursday at 9:30 am; and Storytimes for 3 to 6 year olds on Wednesday and Thursday. You need to register for these sessions. Call the Library (610-644-7259) for specific times.
- Our Adult Book Club meets the 2nd Tuesday of the month at 10 am. We will be discussing *Ordinary Grace* on Oct. 13th. Stop in and join the discussion. We'll be handing out our 2015/16 calendar of book selections at that meeting.
- What a great summer we had at MPL!!! Every Hero Has a Story had 445 explorers/readers checking out books and hiking through the 13 Go WilMa sites. Each Explorer that visited all 13 sites logged over 12 miles to find the rubbing stations and earn their tickets. Science in the Summer had 64 students learning about simple machines. Thanks to all our enthusiastic participants.
- We still have a supply of Malvern Public Library tote bags that can be yours for a donation of \$10. These are a great way to be "green" and support your Library.

## ODDS & ENDS FROM RICK SMITH, TOWNSHIP MANAGER

### WHAT IS A "DRONE" ANYWAY?

The FAA Modernization and Reform Act of 2012 (Act) is the federal law that regulates what most people commonly refer to as "drones". However, you will not find the word "drone" in this Act. The Act does regulate "Model Aircraft" which are defined as "unmanned aircraft" that are: 1) capable of sustained flight in the atmosphere, 2) flown within visual line of sight of the person operating the aircraft; and 3) flown for hobby or recreational purposes. The Act defines an "unmanned aircraft" as "an aircraft that is operated without the possibility of direct human intervention from within or on the aircraft".

Ok, so now that I know that my drone is actually a Model Aircraft that I operate by remote control, what can I do with it?

The Act has very explicit rules about operating a "Model Aircraft". Specifically: 1) it must be flown for hobby or recreational use, 2) it must be operated in accordance with a community-based set of safety guidelines, 3) it cannot weigh more than 55 pounds, 4) it cannot interfere with, and must give way to, any manned aircraft, and 5) if flown within five miles of an airport the airport operator must be notified.

Number 5 has special significance to East Goshen Township residents since the entire Township is located within five miles of the Brandywine Airport. The phone number for the Airport is 610-692-6100.

On a local level, East Goshen has adopted an ordinance regulating "Model Aircraft". You can fly the Model Aircraft over your property, provided you operate it in accordance with the requirements set forth in the Act. It must be at a minimum elevation of 200 feet if you fly it over your neighbor's property and you cannot fly it over Township property or over a public street.

East Goshen's ordinance, which includes the applicable section of the FAA Modernization and Reform Act of 2012, is posted under the Township Code tab on the Township web site at [www.eastgoshen.org](http://www.eastgoshen.org).

## DARKNESS PLUS DEER EQUALS DANGER!

As the autumn days grow shorter and with the turning back of our clocks, commuters now find themselves once again driving to or from work in darkness. A new cohort of high school age drivers may be leaving early in the morning and staying until after dark for sports and activities. This combination of darkness plus deer equals danger for those driving in the early morning and evening hours.

Deer-car collisions have been thankfully few in East Goshen Township this past year, but there have been some to remind us that deer also live in our community. During the white tailed deer's fall mating season, they tend to move around more often than at other times of the year, crossing roads on the way. Deer are out there and they are moving around. Deer do not look both ways before stepping out into traffic, they just go. Drivers need to be always aware that deer can be on both sides of the roads, so please drive cautiously. Our deer are well fed and can be quite large. Suburban deer have more food available to them than deer living in remote areas and with no predators (other than perhaps automobiles) plenty of opportunity to eat and grow.

Autumn's changing colors of vegetation on the sides of our roads help deer blend in and decrease drivers' already short reaction times should a deer spring out in front of their car. Shrubbery is a tempting treat to deer so they will be travelling through wooded areas as well as neighborhoods. If you see one deer get safely across the road in front of you should heighten your awareness. Deer seldom travel alone and a second or third may hesitate before following the first across the road. Your approaching car can trigger a panic reaction and a deer might spring out in front of you.

Parents need to talk to teens and new drivers about the dangers of deer-car collisions. A new driver needs to understand that if the choice is between hitting the deer and swerving and hitting a tree, then hit the deer.

The best guidance for East Goshen drivers, young and old, to avoid deer-car collisions is as follows:

**UNDERSTAND** that we have deer in the township; they are out there and they are moving around, often at night.

**BE WATCHFUL** for deer at the side of the road, your car can frighten them into bolting, and they can bolt right into the road rather than away from it.

**SLOW DOWN** through areas of decreased visibility and around open-space and wooded areas where we know that deer live.

If you hit a deer, stop and pull safely to the side of the road...make sure that you and your passengers are all right. If the deer is still there, do not approach it. Call the police to report the accident and that the deer is injured on the side of the road.

Deer and other animal life are a part of suburban living. Responsible and careful driving will make this relationship less dangerous to both the human and wildlife residents of East Goshen Township. For more information about East Goshen Township's Deer program, visit [www.Eastgoshentownship.org](http://www.Eastgoshentownship.org).

## AGAINST THE WINTER

I've spent this chilly afternoon  
potting up houseplants for the fall:  
perlite, peat moss, potting soil.

I'd like to pot you up as well,  
place you on my windowsill.  
where smiles of yours would  
make me laugh, would  
turn the winter's bleakness  
into gold.

Virginia Strong Newlin  
*East Goshen Township Poet Laureate*

## EXCITING TIMES AT THE GOSHEN FIRE COMPANY

GFC Aerial Apparatus

The last few months have been eventful as the Goshen Fire Company continues to enhance its readiness to deliver high-quality emergency services to the residents of East Goshen Township. In accordance with our strategic plan, we have continued to ensure that your fire department has the necessary resources and preparedness to deliver fire, rescue, and emergency medical services effectively, efficiently, and safely.

Our recruitment efforts continue to add to our ranks in our three operating divisions: fire, emergency medical services, and fire police. Interested individuals are given a realistic preview of what membership involves and should they accept this challenge and commit to serving

their community in this important way, they are provided the necessary training and equipment to respond to emergency incidents. We are always looking for new members, and encourage residents to consider serving in one of our three operating divisions. There are also other ways that you can lend your talents and energy to serve your community with us.

We are also pleased to report that by the time you read this article, our two new aerial apparatus should be in service. The new Tower 54, a 100-foot aerial tower designed to support both firefighting and rescue operations, was placed in service early this summer. The replacement for Ladder 56 is once again a “quint” that incorporates the normal capabilities of both an engine and a ladder truck, resulting in extensive flexibility in conducting both firefighting and rescue operations. Together, these two new apparatus provide the combined capabilities to serve our community well. We invite you to stop by either of our two fire stations if you would like to see the apparatus and equipment that we use in protecting you.

We have also ordered two new ambulances to ensure that our four ambulance fleet continues to be capable of responding to medical emergencies in a manner that supports our commitment to excellent service in this crucial area of community life safety. Over the coming months we will also complete a program of replacing all ambulance stretchers with technology-enabled power lifts.

We trust that you were able to attend this year’s Goshen Country Fair. We thank you for your support and making this a successful year. We appreciate all that township residents and our elected officials do to support the financial needs of the Goshen Fire Company and count on your continuing support. If you were at this year’s fair, you likely noticed that we have constructed a new pole barn to support the operations of our fair, as well as other fire company operations and activities throughout the year.

We are pleased to report that once again we were successful in applying for and securing state grants for both our fire and emergency medical services divisions. The funds from these grants were used to purchase new emergency medical services equipment and new air bags for our rescue truck.

As always, we stand prepared to serve those who live in, work in, and travel to and through East Goshen Township. We encourage you to follow what we are up to on our newly designed website and to visit our Park Avenue station for our annual Fire Prevention Open House on Friday, October 9, 2015.

### STATE ROADS: Boot Road, Greenhill Road, N. Chester Road, Strasburg Road and West Chester Pike.

Any residents living on a state road that needs road repair, trees down, or pot holes may call Penn Dot: 484-340-3200

**CALL BEFORE YOU DIG:** If you have to excavate your property please remember to call before you dig. 1-800-242-1776 or 811 PA One Call

### CLOGGED OR LEAKING SANITARY SEWER LINES; SEWAGE SMELL IN THE CREEK:

Call East Goshen Township 610-692-7171 after 5:00pm or before 7:00am call 911.

### BROKEN WATER MAIN:

Call Aqua Pennsylvania: 610-525-1402 24 hours

### SPCA NEEDS YOUR HELP!

The SPCA cannot thank you enough for your past support!

- Rawhide Chews
- Peanut Butter
- Towels & Blankets

### U.S. FLAG DISPOSAL:

Any U.S. Flag that is torn or faded and needs to be disposed of properly can be dropped off at the Township for a proper retirement. A local VFW will conduct a proper flag retirement ceremony to dispose of it.

IF YOU HAVE ANY QUESTIONS, PLEASE VISIT OUR WEBSITE, [WWW.EASTGOSHEN.ORG](http://WWW.EASTGOSHEN.ORG)

## PLEASE DON'T FLUSH THE WIPES

In recent years, the use of products such as pre-moistened "flushable" wipes has been advertised as a way to feel "cleaner" and "fresher", but most people don't know they have caused damage to wastewater systems across the country. These products' labels indicate they are safe for sewers and septic systems. In addition to wipes, there are also other cleaning products that are labeled as "flushable" which may go down the toilet, but do not break down sufficiently enough. This has led to clogged pipes and jammed pumps in sewer systems across the country. This picture shows residue wipe material that had been removed from a sewer system.

These wipes do not disintegrate like toilet paper. A number of sewer authorities across the country have spent large amounts of money to address the problem. The Orange County (California) Sanitation District spent \$320,000 in one year on "de-ragging" maintenance calls to ten pump stations. The Washington Suburban Sanitary Commission has spent more than 1 million dollars on equipment to shred the wipe material. Officials from the District of Columbia's water and sewer agency also reported more than 500 labor-hours were used over the past 12 months to remove debris from clogged pipes (see photo below) and repair broken equipment, an estimated 35 percent increase over the past few years. New York City is currently considering a ban on packaging that indicates that the wipes are flushable unless the product has passed an approved third party test.

At the heart of the issue is the fact that utilities believe manufacturers of flushable products are not conducting disintegration tests for flushable wipes that mimic actual conditions in real-life sewer systems. Manufacturers don't agree with this claim and say their test results provide scientific evidence that wipes are safe for sewer and septic systems. Regardless, what is considered "flushable" and what specific testing should be conducted to determine whether a product breaks down adequately enough to be flushed or not will likely continue to garner increased interest. A short video produced by *Consumer Reports* is helpful in introducing the public to the potential danger of flushable wipes.

The East Goshen Municipal Authority protects its pumps by installing a grinder at the pump inlet. Although we have not experienced any breakdowns, the presence of these wipe materials has resulted in increased costs related to more frequent wetwell cleaning.

If you are concerned about whether flushable products are causing and/or have caused a problem to your system, stop flushing the items in question. Instead, bag them and place them in your garbage for collection. When in doubt, not flushing is a better choice.

East Goshen Municipal Authority
