Dear Mr. Adams;

Re: East Goshen Township  
Chester County, Pennsylvania  
Milltown Dam (DEP ID No. D15-146)  
2016 Annual Dam Inspection

On behalf of East Goshen Township (Township), we are pleased to submit herein the 2016 Annual Dam Inspection for Milltown Dam located in Chester County, Pennsylvania which is owned and operated by the Township as a recreational facility. The following information is attached:

- Two signed and sealed copies of the 2016 Annual Inspection Report for Milltown Dam (DEP ID No. D15-146).
- Two copies of the corresponding Dam Owners Notice Checklist which has been completed and signed by the Township. As indicated on the checklist, the Township mailed new notices to the posting locations on July 25, 2016. Copies of the actual mailings are available upon request.

Under DEP cover letter to the Township dated June 17, 2014, the Township was notified that Milltown Dam has inadequate spillway capacity to pass the Spillway Design Flood. In response to your letter, the Township has performed a detailed study which evaluated options for 1) increasing conveyance capacity, 2) decommissioning the dam and 3) reducing the hazard classification of the dam. As a result of this study, the Township decided during a public meeting held on June 28, 2016 to reduce the hazard classification of Milltown Dam. It is anticipated that permit documents for this activity will be submitted to your office in early/mid 2017. In light of this directive, Mr. Rick Smith of the Township has confirmed with Mr. Tom Bold of your office that an update of the Emergency Action Plan for Milltown Dam will not be required.

***Gannett Fleming***

Mr. Roger Adams, Chief  
PA DEP Division of Dam Safety
