

FREON RECOVERY INFORMATION

The Clean Air Act of 1990 requires recapture, recycling, and safe disposal of chlorofluorocarbons (CFCs) and hydro chlorofluorocarbons (HCFCs) used in air conditioners, refrigerators, and freezers as coolant. Under the Act, no one may accept an item containing CFCs and HCFCs for recycling or disposal unless the Freon contained within it is properly removed and the owner/hauler/appliance company can show proof of proper removal. It is also unlawful for any person to knowingly release or vent CFCs or HCFCs into the air. The EPA requires certification for all technicians removing Freon as of 11/14/94. For more information, call the EPA's Stratospheric Protection Hotline at 800-296-1996.

OPTIONS:

1. PECO Customers call 1-888-5 PECO-SAVE or pecosmartideas.com Ongoing program - Refrigerator must work
PP&L Customers call 1-877-270-3522 for pickup and information. Ongoing program - Refrigerator must work
2. Contact the company from whom you purchased the new appliance. Many will take back the old appliance and remove the Freon (fees may be charged).

Check with your hauler. Some haulers will take appliances containing Freon from their customers, remove the Freon and recycle the appliance for a lower fee than those charged by appliance centers. Others will only remove appliances with certification that the Freon has been removed. Call for more information.

Haulers removing appliances containing Freon:
AJ Blosenski Do-Away & Hauling – 610-942-2707
(Customers only)
