Re: RCSTP Upgrade and Expansion
Continued Construction Services
June 21, 2010 to Anticipated Substantial Completion and Project Close-Out

Dear Mr. Smith:

At the June 14, 2010 Board meeting the Authority requested that Pennoni prepare an estimated effort to complete engineering services for the RCSTP construction from our latest billing period end date (June 21, 2010) to the currently anticipated substantial completion date. As of the date of this letter, the Contractors are projecting completion on or about August 6, 2010. For the purpose of this estimate we have used a date of August 20, 2010 to allow some tolerance for schedule variation.

The Scope of Work over this period includes the following:

- Construction Observation and RFIs (8 weeks totaling 184 hours of effort)
- Participation in Construction Progress Meetings (total of 5 meetings totaling 40 hours of effort)
- Review of Operation & Maintenance Manuals (72 hours of effort)
- Centrifuge Start-Up Assistance (40 hours of effort)
- Complete Plant Start-Up Assistance (40 hours of effort)
- Punch List Preparation and Final Inspections (after Substantial Completion 40 hours of effort)
- Siemens Performance Test and follow-up (16 hours of effort)
- Project Close-Out Activities (after Substantial Completion 24 hours of effort)
- Preparation of As-Built Plans in AutoCAD from Contractor Red-Line Plans (after Substantial Completion – 80 hours of effort)

The estimated effort to complete the above items is \$42,100.00. This is an estimate and actual effort might vary depending on Contractor performance and other items beyond Pennoni's control. This estimated effort will not be exceeded without prior approval from the Authority.

Page 2

Should you have any questions or need additional information, please do not hesitate to call.

Very truly yours,

PENNONI ASSOCIATES INC.

Evan R. Andrews, P.E. Authority Engineer

Draft EAST GOSHEN TOWNHIP MUNICIPAL AUTHORITY MEETING MINUTES June 14, 2010

1 2

The East Goshen Township Municipal Authority held their regularly scheduled meeting on Monday June 14, 2010 at 7:00 p.m. at the East Goshen Township building. Members in attendance were: Fran Beck, Jack Yahraes, Joseph McCawley, and Michael Steinberger. Also in attendance were: Rick Smith, Township Manager; Dave Evans from Brickhouse Environmental; Evan Andrews, Authority Engineer; Bob Adams, Authority Solicitor; Carmen Battavio, Township Supervisor; and Megan Hedgecock, Planning Commission.

COMMON ACRONYMS:

MA- Municipal AuthorityI&I – Inflow & InfiltrationHC – Historical CommissionRCSTP – Ridley Creek Sewer Treatment PlantPC – Planning CommissionLCSTP – Lochwood Chase Sewer Treatment PlantCB – Conservancy BoardDEP – Department of Environmental ProtectionPR – Park & Recreation BoardEPA – Environmental protection AgencyBOS – Board of SupervisorsNPDES – National Pollutant Discharge Elimination SystemSSO – Sanitary System OverflowWAS – Waste Activated Sludge

1. CALL TO ORDER AND PLEDGE OF ALLEGIANCE

Chairman Jack Yahraes called the meeting to order at 7:00 p.m. and led those present in the Pledge of Allegiance. There was a moment of silence to remember our Armed Forces. Jack announced there would be an executive session after the regular meeting.

2. RCSTP REPORTS

a. Brickhouse Report - Dave reported that commencement of Phase II of Ridley Creek Sewage Treatment Plant (RCSTP) upgrade and expansion project progressed with the completion cleaning of the existing DAVCO treatment tanks. Aqua Wastewater Management, Inc. was contracted to remove and dispose of the sludge, grit and debris remaining in the treatment tanks after transfer of mixed liquor suspended solids (MLSS) to the new sequential batch reactors (SBRs). Demolition of existing main components included the removal of all lift station and forward flow EQ tank pumps, demolition of the previous influent lift stations, clarifier drive mechanisms and related equipment, aeration tank drop piping and diffusers and the up flow sand filters. Refurbishment of the existing DAVCO treatment tanks to serve as treated effluent flow equalization and sludge holding tanks was initiated. Progress during May and the first week of June included complete refurbishment of DAVCO treatment tank number one (1) and initiation of the sand blasting and painting. Substantial progress was completed towards the installation of the underground piping linking the SBR effluent piping to the existing DAVCO tanks. The new sludge dewatering building concrete floor was cast in place and the construction of the masonry walls commenced on June 10, 2010.

Operation of the SBRs and related equipment continued during the month. The manufacturer, Siemens, continued to coordinate with the Plant Operator to implement adjustments to the treatment plant system program and programmable logic controller `(PLC). Regulatory compliance with the existing NPDES discharge permit for the month of

May is not expected as the result of slightly elevated ammonia as nitrogen concentrations in the effluent. Improvements towards nitrification and ammonia as N removal are anticipated as the treatment process and programmable set points are adjusted for actual site conditions.

Key administrative and contractual items completed during the month included the acceptance and approval of Worth & Company change orders 001, 002, and 003 by the Municipal Authority. Included as part of the change orders, the overall substantial completion date was extended from June 30, 2010 to July 13, 2010. The Authority received a response from Pennoni Associates, Inc. regarding the Clinger letters dated March 15, 2010 and April 30, 2010. A meeting with representatives from Clinger and Pennoni was scheduled for June 11, 2010 to develop a solution for presentation to the Authority.

b. Cost Summary – Rick reported that the grant money of \$464,195.00 was received today.

c. Tank Cleaning – Mark reported that Aqua did a great job. There was more gallonage and sludge than expected.

RCSTP CHANGE ORDERS

 A. Worth & Co., PCO24, \$5,932.27. Joe moved to approve payment. Fran seconded the motion. This is to add additional courses of block to the existing walls to match the new elevation. A conveyor is under the centrifuge and space is about 8" short. The old walls are only 15' high and need to be 16" high. The top will be made even. There was no further discussion or public comment. The motion passed unanimously.

3. RCSTP INVOICES

A. Hammond & McCloskey, #4513, 5/5/10, \$1,078.38. Joe moved to approve payment. Mike seconded the motion. There was no further discussion or public comment. The motion passed unanimously.

B. Hammond & McCloskey, #4523, 5/5/10, \$270.10. Joe moved to approve payment. Mike seconded the motion. There was no further discussion or public comment. The motion passed unanimously.

C. Pennoni, #440011, 5/25/10, \$19,287.50. Mike moved to approve payment. Fran seconded the motion. There was no further discussion or public comment. The motion passed unanimously.

D. Fisher Scientific, #3461600, 4/26/10, \$2,329.17 and #3781979, 5/12/10, \$1,485.63. Joe moved to approve payment of both invoices. Mike seconded the motion. There was no further discussion or public comment. The motion passed unanimously.

E. Aqua Wastewater Mgt., #161112, 5/15/10, \$39,937.70. Fran moved to approve payment. Joe seconded the motion. There was no further discussion or public comment. The motion passed unanimously.

F. USA BlueBook, #155755, 5/21/10, \$456.81. Fran moved to approve payment. Joe seconded the motion. There was no further discussion or public comment. The motion passed unanimously.
G. Gawthrop Greenwood, #79963, 5/31/10, \$665.00. Fran moved to approve payment. Joe seconded the motion. There was no further discussion or public comment. The motion passed unanimously.

- H. Gawthrop Greenwood, #79964, 5/31/10, \$1,862.00. After discussion of this invoice and 2 other invoices shown on the Agenda, the original amount of \$836.00 was amended to \$1,862.00. Fran moved to approve payment. Joe seconded the motion. There was no further discussion or public comment. The motion passed unanimously.
- I. Marco, #064873, 4/29/10, \$258.00. Fran moved to approve payment. Joe seconded the motion. There was no further discussion or public comment. The motion passed unanimously.
- J. Worth & Company, #P28001, 5/31/10, \$178.290.62. Joe moved to approve payment. Fran seconded the motion. There was no further discussion or public comment. The motion passed unanimously.

4. CHAIRMAN'S REPORT

Α.

5. APPROVAL OF MINUTES

- A. Jack moved to approve the minutes of the May 10, 2010 regular meeting as corrected. Fran seconded the motion. The motion passed unanimously.
- B. Jack moved to approve the minutes of the May 20, 2010 special meeting. Joe seconded the motion. The motion passed unanimously.
- C. Fran moved to approve the minutes of the June 7, 2010 special meeting. Jack seconded the motion. The motion passed unanimously.

6. ENGINEER'S REPORT

Evan reported that Rick has the Lockwood and Hershey's Mill reports. Marydell needs to go through local planning process..

7. APPROVAL OF INVOICES

A. General Fund reimbursement, Staples, 5/20/10, \$142.47. Joe moved to approve payment. Fran seconded the motion. There was no further discussion or public comment. The motion passed unanimously

8. LIAISON REPORTS

A. Planning Commission – Megan reported that the Commission approved a sideyard set back for resident Muldry. The Commission recommended denial for Liberty requesting installation of 150' high communications tower behind the Wawa on Paoli Pike. The Commission reviewed a sketch plan from New Kent Apartments to remove the retail

buildings and construct two new apartment buildings with 12 apartments in each one. This was the last meeting for Senya as a Commission member, since he is now a Supervisor. The vacancy on the Commission will probably be filled by Jim McRee

9. FINANCIAL REPORTS

Since there was some concern about the comments used on the latest reports, Rick clarified the use of the comments. Mike asked Rick to be sure about the corrected entries on the latest report.

10. GOALS

Jack commented that the completed items should be shown in **BOLD** lettering. He pointed out several items on the list that are done.

11. OLD BUSINESS

A. Chester Creek Sewage Collection System Modeling – Joe feels this should wait until it is mandated. No further action was taken at this time.

12. NEW BUSINESS

- A. Mark reported that right now they use an old tank with a motor to process soda ash. The soda ash comes in once a day but gets clogged and requires additional work. Also, it creates a mess so it is a housekeeping problem. He asked permission to research the cost to purchase new equipment, possibly an Acrison Model W-105Z. The authority members approved his request.
- B. Mark wants to purchase a smaller air compressor. He requested permission to research the cost. The authority members approved his request.
- C. **Outstanding Issues Pennoni** At the May 10, 2010 meeting, the Authority authorized an additional \$22,000 for construction services. Rick clarified that the current date for substantial completion is August 6, 2010. They are requesting another \$22,000 to go through July. However, when the current invoice is paid, there will be a balance of \$10,500.00. Joe moved to authorize \$11,500.00 which, when added to the balance of \$10,500.00, will give the requested \$22,000. Mike seconded the motion. There was no further discussion. The motion passed unanimously.

Brickhouse – Joe moved to extend their contract 2 more months to October 8, 2010. Fran seconded the motion. Rick said there would be no change in cost. There was no further discussion. The motion passed unanimously.

13. CAPACITY REQUESTS

None

14. SEWER REPORTS

A. Mark Miller's written report follows:

Meter: Meters were read on a daily basis. We continue to read the portable meters.

C.C. Collection – To date we have repaired 14 INI problems. I have spoken with two plumbers that have stated they have repaired seven sewers where they have found clean out pipes have separated. We believe this was caused by the frost during the winter.

1 2	R.C. Collection – Two more repairs were made for INI.
3	Pumping Station: All pumping stations were cleaned. The stations were visited on a routine
4 5	basis. We did experience a problem with the transducer at the Barkway Pumping Station.
6	Lockwood Plant: The plant was visited by the Public Works Department on a daily basis.
7	The bar screen was cleaned. We did have a problem with one of the floating aerators.
8 9	Lenni Electric was used to trouble shoot the meter.
10	Ridley Creek Plant: Was visited on a daily basis. Township personnel assisted the plant
11	operator on an as-needed basis. We have had some minor problems with regards to
12	equipment. Vendors have been very responsive during the start up.
13	
14	Ridley Expansion: The wet well have been removed. The demolition of the sludge room
15	has been completed. Worth & Company has completed the demotion of equipment on the
16	two tanks. They are installing the new piping in the tanks. The new walls in the sludge
17	room are going up.
18	Township personnel removed the Roto mat and pumps from the wet well and Eq tank. I
19	have contacted several of our vendors to let them know this equipment is for sale.
20	The Transducers and mag meters were removed. These can be used at our pumping stations.
21	
22	PA One Calls: We received 74 PA One calls for the month of May.
23	Alarms -12 alarms for the month of May
24	
25	B. May 2010 Operations Reports from Artesian regarding Ridley Creek and Lochwood
26	Chase were received.
27	
28	15. ANY OTHER MATTER
29	None
30 31	16. CORRESPONDENCE
32	None
33	140116
34	17. PUBLIC COMMENT
35	None
36	TOTIC
37	19. ADJOURNMENT
38	There being no further business, Fran moved to adjourn the meeting. Mike seconded the
39	motion. There was no further discussion or public comment. The motion passed unanimously. The
40	public meeting was adjourned at 8:15 p.m. The Authority went into Executive Session.
41	provide the defendance of the providence of the

MEMORANDUM

TO: East Goshen Municipal Authority Board

Rick Smith, Township Manager

FROM: Evan R. Andrews, P.E.

Authority Engineer

DATE: July 7, 2010

SUBJECT: Engineer's Report

RCSTP Upgrade and Expansion

Construction phase services continue including: progress meetings with the Contractors
and Township every other Thursday; observation services continue including
coordination and communication with Brickhouse and the Township; receipt, review, and
return of Contractor submittals; negotiation, review, and approval of Payment Requests.

- A breakdown of effort expended over the past month by Pennoni is provided with the invoice detail.
- An estimate of Pennoni effort to observe the remaining construction, start-up activities, contract close-out, and as-built drawing preparation is being provided separately. The estimate is based on a substantial completion date of August 20, 2010.

RCSTP Soda Ash System

• Pennoni has been investigating the Acrison dry chemical feed system for possible application at the RCSTP. Cost data from the vendor arrived today (7/7/10) and is being reviewed for discussion at the Board meeting.

I/I Metering Project

• The Township continues to meter flows at selected locations. Metering data is being reviewed for the period of March through June and additional detail will be available at the Board meeting.

Ridley Creek Consent Order

• The third Semi-Annual Report was prepared and submitted to DEP on March 26, 2010 as required by the CO&A. The next report is due to DEP by September 30, 2010 and will address comments received from Mr. Goldberg on 6/8/2010.

EGMA 1000

LCSTP Elimination, Hershey Mill PS Diversion, Reserve PS Elimination Planning

• These documents were provided to the Township for submittal to DEP.

Marydell PS Elimination Planning

• The notification letters (Component 4) and associated documents are being prepared for distribution this month to planning and health department for their review and comment.

RE:

Act 537 Plan

Hershey's Mill and Reserve Pump Stations

East Goshen Township

Dear Kelly:

At their meeting on June 15, 2010, the Board of Supervisors adopted Resolution 10-105 concerning the Hershey Mill Pump Station and Resolution 10-108 concerning the Reserve Pump Station 10-108 approving the enclosed Act 537 Plan Revision.

Please give me a call at 610-692-7171 or e-mail me at <u>rsmith@eastgoshen.org</u> if you have any questions or need additional information.

Sincerely,

Louis F. Smith, Jr.

Township Manager

RESOLUTION FOR PLAN REVISION /0-/05

RESOLUTION OF THE SUPERVISORS OF EAST GOSHEN TOWNSHIP, CHESTER COUNTY, PENNSYLVANIA (hereinafter "the municipality").

WHEREAS, Section 5 of the Act of January 24, 1966, P.L. 1535, No. 537, known as the "Pennsylvania Sewage Facilities Act," as amended, and the Rules and Regulations of the Department of Environmental Protection (Department) adopted there under, Chapter 71 of Title 25 of the Pennsylvania Code, requires the municipality to adopt an Official Sewage Facilities Plan providing for sewage services adequate to prevent contamination of waters and/or environmental health hazards with sewage wastes, and to revise said plan whenever it is necessary to meet the sewage disposal needs of the municipality, and

WHEREAS, Pennoni Associates Inc. has prepared an Update Revision to the East Goshen Township Act 537 Plan which provides for sewage facilities to divert flow from the Hershey Mill and Reserve Pump Stations from the Township's Chester Creek sewage collection system to the Township's Ridley Creek sewage collection system, and

The alternative of choice to be implemented is diversion of the force main from the Hershey Mill Pump Station to the existing gravity sewer at Cornwallis Drive. The key implementation activities/dates include the following:

Milestone	Date
Submit Update Revision to PaDEP	June 2010
PaDEP Approval of Update Revision	November 2010
Design of the Diversion	May 2011
PaDEP Approval of WQM Part II	August 2011
Public Bidding and Construction Contract Award	October 2011
Start Construction	November 2011
Complete Construction	February 2012

WHEREAS, East Goshen Township finds that the Facility Plan described above conforms to applicable zoning, subdivision, other municipal ordinances and plans and to a comprehensive program of pollution control and water quality management.

NOW, THEREFORE, BE IT RESOLVED that the Supervisors of the Township of East Goshen hereby adopt and submit to the Department of Environmental Protection for its approval as a revision to the "Official Plan" of the municipality, the above referenced Facility Plan. The municipality hereby assures the Department of the complete and timely implementation of the said plan as required by law (Section 5, Pennsylvania Sewage Facilities Act as amended).

I, Louis F. Smith, Township Manager, East Goshen Township, hereby certify that the foregoing is a true copy of Resolution No. 10-105, adopted 6-15, 20/0

July 7, 2010

Mr. Mark Miller Director of Public Works East Goshen Township 1580 Paoli Pike West Chester, PA 19380

RE: Ridley Creek Wastewater Treatment Facility
June 2010 Operations Report

Dear Mr. Miller:

The following is the June 2010 monthly operations report for East Goshen Township's Ridley Creek Wastewater Treatment Facility.

Treatment plant operations were normal during the month of June with the new facility still experiencing some operational issues, which are expected during the startup phase. Routine inspections and equipment preventative maintenance were completed as required. The total amount of wastewater treated and discharge during the month was 7,432,000 gallons, which represents an average daily flow of 247,733 gallons per day.

The influent area operated normally during the month. The muffin monster and influent screen were in service continuously and no problems were experienced with the units or their controls. Debris generated by the screens was disposed of via trash bags into the dumpster. Soda ash continued to be added on a daily basis to adjust and control pH and alkalinity values. The three (3) raw lift pumps and associated controls experienced no operational problems. The grit accumulation problem occurring in the influent channel prior to the muffin monster continued to be an issue during the month of June. The plant operator manually hosed and flushed the build-up through the area.

The Sequential Batch Reactors (SBRs) were on line and being adjusted as part of startup procedures during the month. Units #1, #3, and #4 were in service treating waste. Water white unit #2 was off line and being used as a temporary sludge holding tank until Phase 2 work is completed. The SBR units in service are working and producing a good quality effluent, although problems with maintaining adequate dissolved oxygen levels in the aerated fill and react cycles continues. The plant operator is working with the Siemens Representative to introduce new set points into the system in an effort to solve the problem. Additionally, during the month of June, some problems were found and corrected in the system's program. These corrections have allowed sludge wasting to be accomplished in a more controlled manner. Dissolved oxygen graphing/trending, although not provided as part of our package, would be

very helpful in continuously monitoring dissolved oxygen levels throughout all the phases in each SBR to visually see when and where levels are too low.

The disc filters were in service continuously throughout the month of June. Some alarms were triggered due to the level of water being too low for backwashing. These alarms were reset and the systems were returned to normal service without problems. The valve change outs and the high level float adjustments made last month have allowed the filters to work extremely well with less than perfect water quality and changing flow rates.

The ultraviolet light disinfection system operated normally during the month of June. There were only a few low intensity alarms, which were caused by poor water quality. These alarms were reset and the unit was easily returned to normal operations.

During the month of June, the plant did experience one (1) major electrical failure in the blower #3 control panel. The failure was identified by Clinger Electric and General Electric is scheduled to inspect/repair the damaged components. As a result of the failure the plant operator was required to place the spare blower into service in the #3 position. This was done but an additional power surge on June 24th caused the control computer to drop the blower out of position resulting in SBR #3 not being aerated for approximately thirty six (36) hours and going septic. Once the problem was identified and corrected, the plant released a septic odor for another day and treatment in SBR #3 was negatively affected. To date, the plant operator is still working to restore water quality in SBR #3 back to normal.

Work on Phase 2 construction continued during the month. The DAVCO rehabilitation and the centrifuge building construction are proceeding well. Additional work around the plant is proceeding as well. One (1) area of concern is the alum feed system to the SBR's, which is not getting completed as quickly as the operator would like to allow for more control of water quality leaving the SBR units.

Results of influent and final effluent samples collected during the month indicate compliance with the existing final effluent permit limitations.

Should you have any questions, please do not hesitate to contact me.

Sincerely,

Tom Horrex

Treatment Plant Operator

C Mr. Evan Andrews – Pennoni Associates

BOARD OF SUPERVISORS

CHESTER COUNTY 1580 PAOLI PIKE, WEST CHESTER, PA 19380-6199

June 22, 2010

Dear Property Owner:

The purpose of this letter is to inform you that Schaffer Properties, LLC and The Food Source International, Inc. has submitted a Conditional Use application with the Township for the property at 734 N. Chester Rd., (The Tory Inne). The applicant is applying to adaptively reuse the existing building as a business office, in accordance with §240-38.5.A(3) of the Township Code.

Pursuant to Township policy, all property owners within 1000 feet of the subject property are notified of these types of applications. The tentative dates and times upon which this application will be discussed are as follows; and are subject to change.

July 6, 2010 - Board of Supervisors meeting @ 8:00 pm (workshop @ 7 pm) The Board of Supervisors will consider a request from the applicant for a waiver from the Historic Impact Study requirement of the Township Code.

July 7, 2010 - Planning Commission meeting @ 7:30 pm (workshop @ 7 pm) (Applicant's presentation)

July 8, 2010 - Historic Commission meeting @ 7:30 pm

July 21, 2010 - Planning Commission workshop session @ 7:30

August 3, 2010 - Board of Supervisors meeting @ 8:00 pm (workshop @ 7 pm) (Conditional Use Hearing)

All meetings and workshops are held at the Township Building and are open to the public. The Conditional Use application is available for review during normal business hours. Please give me a call at 610-692-7171 if you have any questions or need additional information.

Sincerely,

Mark A. Gordon

Township Zoning Officer

TO: PMAA Member Authorities

FROM: Douglas E. Bilheimer

Executive Director

DATE: June 28, 2010

The PMAA Board of Directors' voted April 18, 1994, to implement, by its resolution, certain administrative recommendations set forth by the PMAA By-Law Revision Committee. These do not require prior amendment of the By-Laws because, the existing By-Laws (Article IX, Sections 1 and 2) do provide the basic authorization for voting at meetings: one vote per active member to be cast by a delegate chosen by its own board of directors. The procedures approved by the Board are as follows:

- Fifteen days before the meeting, each member authority will notify the Executive Director of the name of its official voting at the meeting and also the name of an alternate delegate, both of whom have been approved by the members' Board of Directors. The delegates shall either be an elected or an appointed official of the applicable authority.
- 2. As part of the registration procedure at the Annual Meeting, the named delegate shall be handed a "card", which he or she may hold up to cast the vote of that authority. It shall be the responsibility of each delegate, in the event he or she is not on the floor, to hand the card to the appropriate alternate delegate.
- 3. The presiding officer at the Annual Meeting shall have the discretion in each vote to designate voting by voice, by a show of delegate cards, or by written ballot, unless upon motion duly made and adopted the Body itself votes to require written ballots.
- 4. In pursuance of the powers of the presiding officer, the President may designate a time limit for floor remarks by each person speaking, which shall be stated by the presiding officer at the opening of the meeting.

Please note, this form **does not** need returned to our office if no one from your authority is attending the conference.

DEB/kaw Attachment

Notification of Voting Delegate & Alternate

Our Authority's Board of Directors hereby name the following individuals to serve as Voting Delegate and Alternate Delegate:

Voting Delegate			
Name:			
Title:			
Alternate Delegate			
Name:			
Title:			
Authority submitting this in	formation:		
Authority:			
Address:	•		
City:	State:	Zip:	

Designated Voting Delegate or Alternate Delegate will receive an identification card at the Registration Booth at the PMAA Annual Conference.

Please note this form must be returned to the PMAA office by Friday, August 27, 2010.

Operator Day

at PMAA's 68th Annual Conference & Trade Show

Hilton Pittsburgh

Tuesday, September 21, 2010 8:00 am — 3:30 pm

Includes breakfast, lunch, up to 4 contact hours, and access to the largest industry trade show in Pennsylvania, all at one low price!

Courses Offered Include:

TASTE & ODOR CONTROL Course ID #422

9:30 – 11:30 am

Presented by: Dan Guss & John Mazich
Uni-Tec Consulting Engineers

For operators, managers, and board members the main purpose of this basic thru intermediate course is to teach them how to search for and identify the causes and sources of taste and odor problems and how to implement the various treatment options. Also upon completion, operators should be able to develop, operate, and maintain a taste and odor control strategy.

Approved for 2 Contact Hours for Operators Certified in Water.

Chlorine Safety Course ID #1358

1:30 - 3:00 pm

Presented by: Scott C. Morrison, UNIVAR,
Technical Services Specialist-Operations

Chlorine gas can be very dangerous if it isn't handled and used correctly. This course provides a basic understanding of chlorine gas safety as it relates to use in the treatment of water and wastewater.

Course content includes information on chlorine cylinders, transportation, storage, and handling.

Also included is a review of piping/feed systems, connecting and unloading to the system and structural concerns. This course concludes with employment training, safety and personal protection equipment, emergency handling and first aid discussions.

Approved for 1.5 Contact Hours for Operators Certified in Water and/or Wastewater

Introduction to Wastewater Course ID #2412

9:30 - 11:30 am & 1:30 - 3:30pm

Presented by: Dave Brown, Community College
of Allegheny County's (CCAC)

Center for Professional Development

This four-hour course covers the role of the treatment plant operator including duties and responsibilities. Also to be addressed are characteristics of wastewater, its' contaminants and different solids, effects of wastewater discharges and natural cycles in the receiving waters. Basic water treatment processes including the collection and conveyance of wastewater, treatment processes and functions and effluent disposal will be discussed. The course concludes with a review of pertinent State and Federal regulations. This course is part of a 28-hour certificate of completion program given by CCAC.

Approved for 2 Contact Hours for Operators Certified in Wastewater

Professional Development

REGISTRATION FORM FOR OPERATORS' DAY PMAA's 68TH ANNUAL CONFERENCE & TRADE SHOW

Hilton Pittsburgh Tuesday, September 21, 2010
