

Playground Renovat on Update Decvember 12th, 2017

I know everyone is anxiously waiting for the new playground to open—so I wanted to send a project update. Things are

moving along nicely. All of the playground pieces are installed, including the gigantic 5-12 ages and 2-5 ages play structures, the zip line, the pyramid rope climber, the shade sails and the pavilion. The paver labyrinth has been installed by Eagle Scout Dylan Golden and the base pathway installed. Unfortunately, we are in a standing pattern for the poured in place surfacing. It requires installation in 40 degrees and rising weather, so the project will likely conclude shortly after March 1st.

In the mean time—we are still selecting folks for the Play Ambassador volunteer experience, if interested send me an email!
