Dear Landowner:

The purpose of this letter is to inform you that Texas Eastern Transmission, LP (TETLP) has work scheduled within its existing easement on your property. The scope of this work will involve accessing and mowing the easement area. In addition, any trees within the maintained easement area or overhanging branches may be removed. Work is scheduled to begin the week of September 21, 2015 and be completed by November. Access to these areas will be in accordance with the rights granted within the existing right of way agreement which may include existing road ways and/or farm lanes. Please rest assured that the disturbed areas will be cleaned up upon completion of these maintenance activities.

In addition should there be a loss of annual crop production as a result of this work I will be happy to meet with you to discuss compensation.

Should you be aware of or have any special concerns prior to entry such as live stock fencing, underground water lines, etc. please do not hesitate to contact me directly. I look forward to working with you to make this a positive experience.

Sincerely,

William C. Savage
