

Attention East Goshen Township Residents and Property Owners:

East Goshen Township is currently conducting a Master Plan for the Paoli Pike Corridor. This planning effort is being done to identify the following along the entire length of Paoli Pike in East Goshen: Neighborhood connections to the Paoli Pike Trail, traffic calming, intersection improvements, streetscape improvements, as well as a land use analysis and an economic analysis of the corridor.

The Paoli Pike Corridor Master Plan Committee cordially invites you to attend an Open House event on **Tuesday April 4, 2017 at 6:00 PM** to solicit community input for the Paoli Pike Corridor Master Plan. During The public input session you can review the current planning that has been done, offer your suggestions and ask questions of the Township Board of Supervisors, Township staff and our consultant team. Following the input session our Planning Consultant Natasha Manbeck from McMahon Associates will give a short presentation to the Board of Supervisors on the current status of the plan.

Please plan to join the Paoli Pike Corridor Master Plan Committee on April 4th at 6:00 PM at the Township Building, 1580 Paoli Pike to contribute your ideas and concerns for the corridor so we can incorporate them into the Paoli Pike Corridor Master Plan. You can also visit our website to review the materials prior to the open house by using the following link. <https://eastgoshen.org/boards/paoli-pike-corridor-master-plan-committee>

If you have questions please contact me.

Thank you,
-Mark
