Ribbon-cutting ceremony held for Pat King Memorial Butterfly Pollinator Garden

Staff Report

EAST GOSHEN » The weather could not have been more glorious for the Pat King Memorial Butterfly Polli-

nator Garden dedication and ribbon-cutting ceremony June 18 in East Goshen Township Park.

This project, 15 months in the making, provides a

natural habitat for important pollinators, such as butterflies and bees, and environmental education opportunities for children.

This project was funded

in part by a PECO Green Region Open Space Program Grant.

The dedication was well attended and included state Rep. Dan Truitt, R-156, of

East Goshen; Rick Tralies, of the Natural Lands Trust; township officials and the many local volunteers who've made the project a success.
