## AGENDA EAST GOSHEN TOWNSHIP BOARD OF SUPERVISORS Tuesday, March 5, 2019 7:00 PM

6:00 PM Executive Session - Personnel Matter and Police Labor Matter

- 1. Call to Order (7:00 PM)
- 2. Pledge of Allegiance
- 3. Moment of Silence Supervisor Carmen Battavio
- 4. Announce that the meeting is being livestreamed
- Chairman's Report (7:05 PM to 7:10 PM)
   a. The Board met in executive session for a personnel matter and a police labor matter prior to tonight's meeting.
- 6. Public Comment on non-agenda items 30 minutes (7:10 PM to 7:40 PM)
- 7. Emergency Services Reports (7:40 PM to 7:40 PM)
  - a. WEGO-none
  - b. Goshen Fire Co none
  - c. Malvern Fire Co none
  - d. Good Fellowship none
  - e. Fire Marshal none
- 8. Financial Report none
- 9. Approval of Minutes and Treasurer's Report (7:40 PM to 7:50 PM)
  - a. Minutes January 12, 2019

February 19, 2019

- b. Treasurers Report February 28, 2019
- 10. Public Hearings None
- 11. Old Business None
- 12. New Business
  - a. Consider recommendation on Community Day Activities (7:50 PM to 7:55 PM)
  - b. Consider recommendation on WCACOG Energy Transition Plan (8:00 PM to 8:05 PM)
  - c. Consider recommendation on Trailer Purchase (8:05 PM to 8:10 PM)
  - d. Consider authorizing matching funds for East Goshen Milltown Dam Park Renovation,
  - DEP Mariner 2 Grant Program(8:10 PM to 8:15 PM)
- 13. Any Other Matter
- 14. Continued Public Comment on non-agenda items if necessary
- 15. Liaison Reports none
- 16. Correspondence, Reports of Interest (8:15 PM to 8:20 PM)
  - February 27, 2019 Note of Appreciation

March 1, 2019 – 1,000 foot letter for a communications equipment building at North Chester Road and Wineberry Lane.

17. Adjournment (8:20 PM)

AGENDA

### **Meetings & Dates of Importance**

Mar 05, 2019	Board of Supervisors	07:00pm
Mar 06, 2019	Planning Commission	07:00pm
Mar 07, 2019	Park and Rec Commission	07:00pm
Mar 07, 2019	Marydell Pond Committee	07:00pm
Mar 11, 2019	Municipal Authority	07:00pm
Mar 13, 2019	Conservancy Board	07:00pm
Mar 14, 2019	Historical Commission	07:00pm
Mar 19, 2019	Board of Supervisors	07:00pm
Mar 25, 2019	Futurist Committee	07:00pm
Mar 25, 2019	Sustainability Advisory Committee	07:00pm
Mar 28, 2019	Pipeline Task Force	05:00pm

Newsletter Deadline for Summer of 2019: May 1st

The Chairperson, in his or her sole discretion, shall have the authority to rearrange the agenda accommodate the needs of other board members, the public or an applicant.

**Public Comment** – Pursuant to Section 710.1 of the Sunshine Act the Township is required to include an opportunity for public comment agenda which is intended to allow residents and/or taxpayers to comment on matters of concern, official action or deliberation which are or may be before the Board of Supervisors. Matters of concern which merit additional research will be placed on the agenda for the next meeting. The Board of Supervisors will allocate a maximum of 30 minutes for public comment at the beginning of each meeting. If necessary there will be a second period for public comment prior to the end of the meeting.

**Constant Contact** - Want more information about the latest news in the Township and surrounding area? East Goshen Township and Chester County offer two valuable resources to stay informed about important local issues. East Goshen communicates information by email about all Township news through Constant Contact. To sign up, go to <u>www.eastgoshen.org</u>, and click the "E-notification & Emergency Alert" button on the left side of the homepage.

**ReadyChesco** - Chester County offers an emergency notification system called ReadyChesco, which notifies residents about public safety emergencies in the area via text, email and cell phone call. Signing up is a great way to keep you and your loved ones safe when disaster strikes. Visit <u>www.readychesco.org</u> to sign up today!

Smart 911 – Smart 911 is a new service in Chester County that allows you to create a Safety Profile at <u>www.smart911.com</u> that includes details you want the 9-1-1 center and public safety response teams to know about your household in an emergency. When you dial 9-1-1, from a phone associated with your Safety Profile that information automatically displays to the 9-1-1 call taker allowing them to send responders based on up-to-date location and emergency information. With your Safety Profile, responders can arrive aware of many details they would not otherwise know. Fire crews can arrive knowing exactly how many people live in your home

AGENDA

March 5, 2019

and where the bedrooms are located. EMS personnel can know family members' allergies or specific medical conditions. And police can access a photo of a missing family member in seconds rather than minutes or hours, helping the search start faster.

1 2 3	ANNUAL PLAN	EN TOWNSHIP NNING SESSION NUARY 12, 2019			
4					
5 6 7 8	The East Goshen Township Board of Supe on Saturday, January 12, 2019 at the Tow	ervisors held the Annual Planning Session nship Building. Those in attendance were:			
9	Board of Supervisors	Municipal Authority			
10	Janet Emanuel, Chairman	Kevin Cummings, Chairman			
11	Martin Shane, Vice Chairman	Jack Yahraes			
12	Carmen Battavio				
13	David Shuey	Park & Recreation Commission			
14	Michael Lynch	Daniel Leicht, Chairman			
15	, in the second s	Deborah Snyder			
16	<u>Conservancy Board</u>				
17	Erich Meyer, Chairman	<u>Pipeline Task Force</u>			
18	Walter Wujick	Judy DiFonzo			
19					
20	<u>Futurist Committee</u>	Planning Commission			
21	Thomas Kilburn	Brad Giresi, Chairman			
22		Ernest Harkness			
23	<u>Historic Commission</u>				
24	Ted Roberts, Chairman	<u>Sustainability Committee</u>			
25		Monica Close			
26	Township Staff	Christi Supple			
27	Rick Smith, Township Manager				
28	Jon Altshul, Asst. Township Manager & CFO				
29	Mark Gordon , Township Zoning Officer				
30	Jason Lang, Director of Parks and Recreation	ion			
31					
32	Janet Emanuel opened the meeting at 8:15	am. She welcomed everyone and			
33	thanked them for coming.				
34	Concompany Roand				
35 36	<u>Conservancy Board</u>	the Concernancy Reard is to preserve the			
30 37	natural resources in East Goshen Townsh	the Conservancy Board is to preserve the

2 restoration of the Marydell Pond. 3 4. In December we finished the spreading of wood chips around the bases of 4 the trees in Clymer's Woods to help control weed growth and to keep lawn 5 equipment away from the tree trunks to prevent damage to the bark. 5. Continued invasive species control. 6 7 6. The blue bird houses in Applebrook were cleaned out and maintained. 8 Their goals for 2019 are: 9 1. Keep East Goshen Beautiful Day will be on April 13, 2019. 10 2. Continue maintenance of the blue bird houses in Applebrook. 3. Continue maintaining Clymer's Woods by replacing dead trees and 11 reapplying wood chips around trees. 12 4. Maintain the riparian buffer along the creeks. 13 5. Continue invasive species control. 14 6. Continue assisting with the pond restoration projects as needed. 15 Mike commented about KEGBD, since the township has the trash along the roads 16 17 picked up on a regular basis now, has the CB considered doing specific areas instead of along the roads. Erich answered that there is always clean up to be done. Mike 18 19 asked David if the Sustainability Committee will override what the CB does. David explained that the Sustainability Committee will be involved in all aspects of the 20 21 Township; such as environmental, sewer, financial, etc. It will also overlap other 22 ABCs. 23 Erich mentioned that the Board needs 2 more members. 24 25 Futurist Commission 26 Tom Kilburn mentioned the other members of the Commission. Rod Vaughn has been an integral part of the committee since its inception nearly 5 years ago and 27 brings much business and community leadership experience. Brad Giresi joined 3 28 29 years ago. In addition to his leadership role as Chairman of the Planning Commission, he has provided great insight into the future of community planning. 30 Luann Petrelis is no longer a member of our committee due to other commitments 31 32 but made significant contributions to our committee during her 4 ½ year tenure. 33 As we continue to look to the future, our committee has spent the last several 34 years researching and evaluating trends in forward thinking about communities with attributes similar to ours. We have found much research by experts regarding 35 what communities need to do to prepare for the changes in technology, lifestyles 36 37 and demographics that we will likely experience over the next 10-20 years. In 38 addition to this broad based research, this summer we utilized an age-friendly 39 checklist provided by the Delaware Valley Regional Planning Commission (DVRPC) to evaluate the age-friendliness of EG. We will be using the results of this 40 preliminary evaluation to make recommendations to the BOS for possible future 41 42 projects. All of this research makes one issue clear. Technological change is moving so much faster than most people's ability to adapt to these changes. Lifestyles are 43 undergoing changes as significant technologies take hold and provide us with ever 44 changing ways to communicate, work, shop and travel. Last year we celebrated the 45

3. Worked with the Township and the Marydell Pond Committee on the

1 11<sup>th</sup> anniversary of the I-Phone introduction in 2007! Many of us can't imagine how we could get along without one of these mini computers/cameras/phones. The year 2 3 2007 was also a year when managing large quantities of data became enough faster to enable significant improvements in technologies requiring this capability such as 4 driverless cars. Think how much data needs to be handled in nano seconds for these 5 6 cars to be safe. New technology is allowing workers more flexibility as they can 7 work from nearly anywhere. More people can work from home where they have less personal interaction than in the traditional workplace. Our children are 8 spending more time indoors on lifelike video games. We text or email rather than 9 10 pick up the phone. Our research indicates these trends brought about by new technologies are moving us away as a society from human interaction in our daily 11 routines. As a result, we need to find that human interaction in other ways. 12

I took advantage of a beautiful New Year's day to ride my bike through East 13 14 Goshen park and further west starting from Line Road It was great to see everyone out walking with family and friends, enjoying our beautiful park on the first day of 15 the New Year. They were enjoying some of that human interaction we all need to 16 thrive. I could really feel the sense of community that exists here in East Goshen. I 17 kept riding along Paoli Pike to where the existing trail ends. I tried to imagine what 18 it will be like when the new Paoli Pike Trail is in place and we will be able to ride the 19 entire distance across our beautiful Township. Perhaps we will be able to meet with 20 friends from other neighborhoods for a cruise through our Township. Connecting 21 neighborhoods with the trail is an important longer term vision that has been laid 22 out in the Paoli Pike Master Plan. Perhaps we will be able to stop for a bite of lunch 23 at one of the new or improved eateries we hope will be attracted to our Town 24 Center when the streetscape in the Town Center is more inviting than today with 25 new trees and attractive lights and colorful banners welcoming visitors. Maybe 26 there will be a pop up art exhibit along the trail to lure us in for a second look or we 27 can take a break at one of the mini parks planned. Many communities already have 28 these types of amenities that add value to their resident's lives and property. 29

30 East Goshen is fortunate to have numerous assets that position us favorably for the future when compared to our neighboring communities. We have attractive 31 neighborhoods offering varied housing types over a wide price range. We are well 32 situated geographically. We are located an easy commute to may job opportunities 33 and are not bisected by a major freeway. We have a vibrant business park that 34 provides many jobs for area residents. We have an amazing recreational park and 35 36 programs that provide many active opportunities for residents of all ages. We have a rich history with several restored historical sites. We will soon have a pedestrian 37 and bike cross-township paved trail that will tie many of the above mentioned areas 38 39 together. This will allow individuals to walk or bike from one area or neighborhood to another without relying on a car. In addition, the Paoli Pike Master Plan has 40 additional trails planned. These trails will tie in even more neighborhoods creating 41 a network of trails throughout the township all connected to the main artery, Paoli 42 Pike, which bisects our community. Our research tells us the pedestrian and bike 43 trails are key to providing the foundation for a healthy lifestyle, which is becoming 44 more and more important to families across America. 45

1 What we lack and what would set us apart from many other communities in 2 our area is an attractive and vibrant Town Center - a place that would provide a 3 strong sense of identity and a place for people to gather. The Paoli Pike Master Plan provides us a vision of what this Town Center could look like and sets out steps 4 5 needed to achieve this vision. Our research indicates that as we adapt to the rapid 6 technological changes around us, it is all the more important to promote a sense of 7 community. I think all of you in this room value community or you wouldn't be here 8 this morning. People are using new technologies to communicate and work 9 remotely but we still need that availability for human interaction. A Town Center 10 would provide much of that need for a "gathering place". It would include small shops, restaurants, specialty food stores and micro-businesses just to name a few. It 11 would be an attractive area that would include green spaces and public plazas. This 12 area would be an extension of our beautiful park and be an added centerpiece for 13 community events and gatherings offering a new level of personal interaction in the 14 heart of our community. In addition, the vision for a Town Center lays out plans to 15 16 add street trees and landscaping that would be as appealing as what we have in our neighborhoods, bringing beauty to our center. Efficient, attractive lighting would 17 add a warm evening glow differentiating the EG Town Center from neighboring 18 communities. With careful planning we can maintain the bucolic setting of our 19 20 township while embracing architectural innovation and technology. We have our vision. The Paoli Pike Mater Plan lays it out nicely and some progress has already 21 been made. The Planning Commission began working early last year to develop a 22 new zoning plan. This plan will ensure that new development or redevelopment of 23 the Town Center area aligns with our long term vision. This is important because 24 25 we expect that construction of the Paoli Pike Trail which is expected to start later this year, will attract interest in new development or redevelopment in the town 26 Center area. I believe this zoning plan is targeted for BOS approval in the first 27 quarter. I applaud their timely work on this very important and difficult task. 28 Another key milestone was achieved last year when township residents 29 overwhelmingly approved allowing alcohol sales in the township in a referendum. 30 When we consulted with several restaurateurs and commercial realtors the ability 31 to offer alcohol sales was a key ingredient in their interest in developing new dining 32 33 options for the Town Center, a key to a vibrant center.

As I mentioned, the PPMP lays out a vision for the future of a Town Center that will provide a community identity and a place for people to gather. It would be an attractive area that would be as appealing as our neighborhoods and parks. In addition, this Town Center would add value to the investment in our homes as East Goshen becomes a more attractive place. It is important for the Township to add amenities so that it can compete with neighboring communities that attract new buyers because they offer new homes.

Implementation of the Town Center plan and the overall PPMP is estimated to be expensive. Therefore, spending will need to be spread out over a number of years. With the other projects already underway, we feel that a 10 year capital plan needs to be developed to address long term spending. Our committee will need broader input to develop this plan so we will be seeking ideas from the BOS and township staff as well as other ABC's. Additionally some shorter term lower cost,

impact spending needs to be identified that will kick start community interest in our 1 2 plan. One potential idea is to add street lighting and landscaping only in front of the Township Administration Building. This would provide the community a visual 3 preview of what is envisioned for the entire Town Center area. I know the Planning 4 5 Commission also has some interesting ideas on how to move forward on development and redevelopment opportunities with the Town Center. We have also 6 7 begun to research how other communities move these types of projects forward and 8 will be sharing the results of this work in the future. We also believe that gaining a 9 competitive advantage over other West Chester area townships will require a significant marketing effort. The desirability of our neighborhoods, parks and 10 11 homes along with envisioned new trails and revitalized Town Center is a story that 12 needs telling. Ideas and help to make a vibrant and attractive Town Center a reality 13 are always welcome. We look forward to working with everyone here in making EGT an even better place to call home. 14 15 Comments: Marty attended some meetings in the past week including the Futurist Committee. He was at the Chamber meeting and they brought up alternative energy 16 and what it means in transportation. Skip Brion said we have to begin thinking 17 about zoning which is important in this respect. We have given no thought to what 18 vehicles will be like as far as needing electrical plugs. Biking will be widely used. 19 West Goshen stands between us and West Chester. There has been talk of 20 21 expanding the Trail. There are issues with the width of Paoli Pike into West Chester. 22 In the future we will be able to bike from here to Philly or Harrisburg. Zoning needs 23 to be in place. Landscapes 3 is done. Marty encouraged the ABCs to look at it so they know how changes will effect us. What we have done with the Master Plan 24 25 now is good. Begin thinking in zoning mode about what will be needed. 26 Mike feels the FC sees the future vision for the Town Center and thanked Tom and 27 the Committee members for helping bring him along into the future. 28 David mentioned that Hankin is building an apartment building with garages on the 29 1<sup>st</sup> floor that can be converted to living space when we don't use cars. Also there 30 will be electric bikes. So we need to think about the trail and separating the bikes 31 from people. 32 33 **Historical Commission** 

39 40

41

42

- 34 Ted Roberts introduced himself. Mike mentioned that Ted lives in the historic Three
- 35 Tuns Tavern at the intersection of Rte. 352 and King Road. He is glad the HC has
- 36 been revived. They still need some members.
- Ted gave a review of 2018: 37 38
  - 1. They have established regular meeting schedule
  - 2. Increased Commission membership
  - 3. Analyzed structure and role of the Historical Commission
    - 4. Initiated a Christmas ornament project
  - 5. Identified goals for future study and implementation

Ted mentioned that an ornament for 2018 of the Blacksmith Shop was designed and 43

- is being sold at the Township Building. 300 were made for this first ornament. As 44 new people move into EG, they will be able to purchase past ornaments. We want to
- 45 show the history that has been preserved so well. Property owners have a passion 46

for the historic building. We want to get them involved. Sullivan House (in Hershey 1 Mill) was taken off the historic list many years ago. We are going to work to get it 2 3 back on the list. Ted wants to start a plaque program for the historic properties. They have considered having them hand made in the Blacksmith Shop. He 4 mentioned Commission member Ed Lendrat who has done so much to record the 5 township history. Ted suggested that Ed be named the Township Historian. 6 7 The Commission's Goals for 2019 are: 1. Working with owners of properties on the historic inventory list 8 9 a. Send a questionnaire to the property owners b. Meeting/social gathering with owners to explore goals and new 10 11 ideas. 12 2. Add Sullivan House (Hershey's Mill) to the property list 3. Schedule meetings with Historical Commissions in other townships 13 4. Schedule meeting with former board members, re-enactment 14 participants, Chester County Historical Society representative, Board of Supervisor 15 Liaison and property owners 16 5. Implement "official" Township plaque identifying historic properties 17 6. Develop new identity and mission statement for the Historical 18 19 Commission. 20 Ted mentioned that the HC considered having an article in the newsletter "Did You Know?" which would have data about the history of the Township. 21 Ion mentioned that articles for the next newsletter have to be submitted to him by 22 23 February 1<sup>st</sup>. 24 25 Municipal Authority Jack Yahraes, 2018 Chairman, introduced Kevin Cummings, 2019 Chairman. Jack 26 27 commented that in 1945 after World War II, there were a lot of infrastructure problems in PA. They created authorities to have an independent authority oversee 28 29 local areas. In 1967 East Goshen started their own Municipal Authority. Today there are 6,000 units on line. There are still 500 that have on site systems. It is costly to 30 maintain onsite systems. We have an agreement with West Goshen, which allows us 31 to send 1 million gallons per day to that plant. We have 80 miles of sewer and 1,000 32 manholes. We send 80,000 gallons of treated water per day to Applebrook to spray 33 34 the golf course. It costs \$3,000,000/year to operate the sewer system. We bought the plant from a developer for \$1 and have spent \$10 million to expand and update 35 36 it. 37 Kevin commented that their goal is to run the plant under state compliance through 38 the DEP. In 2018 the plant ran very well. We have a good crew working there. We are doing more to make the plant as reliable as possible. West Goshen has a 39 capacity of 7 million gallons. They are currently upgrading. We had a bond offering 40 to pay our 1/7<sup>th</sup> of the cost. Mark Miller and his crew have done a good job of 41 42 keeping unwanted water from getting into our system. We used to send 1.2 million gallons/day to West Goshen. Now we send 700-800,000/day because of their work. 43 Talmadge Dr. sewer is being upgraded. East Goshen is below average as to what the 44 residents pay for sewer. 2018 was very wet and our plant was able to handle the 45 inflow of water that doesn't need to be treated. 46

1 2 Park & Recreation Commission 3 Jason Lang mentioned that when he came here there were 7 members on the 4 Commission. Now there are 9. Past Chairmen were Joe Zulli and Christine 5 Taraborelli. The new Chairman is Dan Leicht. 2018 accomplishments were: 6 1. All Park Commission accomplishments were shared with the Public Works 7 Department. They work early, late and tirelessly in support of park operations. 8 2. East Goshen Township Park playground renovation was completed June 30, 2018, becoming the first state funded nature play area in Pennsylvania. 9 10 3. Renovated the basketball court area with full size, clear acrylic 11 backboards. 12 4. Secured \$980,000 in grants from PA DCNR, DCED and DEP to develop 13 Milltown Dam and Hershey's Mill Parks. This brings the department's three year total to \$5.6M in grant funding for the Paoli Pike Trail, EGT Park destination 14 playground and Milltown Dam Park capital projects. 15 5. East Goshen Township was designated a Gold Level Sustainable 16 17 Community by the PA Sustainable Community Certified Program, the first in Chester County. 18 19 6. EGPR's Mid-Atlantic Camp Dance became the template for NRPA's National summer Camp Dance. In total, over 50,000 campers across the country 20 21 took part, dancing to EGPR moves!! 7. New events in 2018: Escape the Blacksmith Shop and Teen Awesome 22 23 FEST. Both were very successful. Dan mentioned that he retired in 2014 as a police detective. He and his wife went 24 25 around the east coast and came to the East Goshen Farmers Market. The park was a 26 draw so they moved here. A position came open on the PRC so he joined. The Goals for 2019 are: 27 28 1. The picnic grove park improvement will be completed by the end of 29 spring. 30 2. A cricket pitch will be constructed on the soccer fields to meet the growing 31 demand for the sport. 32 3. Complete construction of the Paoli Pike Trail Segments F-G and continue 33 work on other funded segments. 4. Offer nature and art focused programming. Examples include butterfly 34 35 garden discussions, Ridley Creek excursions, painting in the park, and Kid's chalk art 36 projects. 37 5. Develop a formal volunteer plan focusing on skilled volunteers and 38 volunteer base. 39 6. Investigating the addition of a beer/wine garden to the Food Truck and 40 Music Festival in August. 41 Comments: 42 Marty feels that Jason has become a grant expert in writing and follow through. He also thanked Jon and his staff for getting low interest rates. 43 lason mentioned that in 2019 there will be a Filmmakers event at the movie theater 44 45 in Exton for teens.

Jason mentioned that the Friends of East Goshen raises funds for park events. They 1

- 2 need 3 new members. They have daytime meetings.
- 3
- Paoli Pike Trail Update

4 5 Mark Gordon reported that segments A & B are in the engineering phase. They 6 received a grant for \$483,000 for segment A which covers Airport Road to Ellis Lane. Segment B has a 400 foot bridge to be built. Segments CDEF&G to Line Road 7 are in submission to DEP for permits. PennDOT permits are next. Segments F&G 8 9 will be done in house. It will take 2  $\frac{1}{2}$  years to build the trail. When all permits are 10 received, everything will go to the DCNR for final approval. Also, we received approval for a traffic light at Paoli Pike and Hibberd Lane at the entrance to the Park. 11 12 13 Pipeline Task Force (PTF) 14 David Shuey reported that in May 2018 EGT assembled an ad hoc public meeting to answer the question, "What can EGT do to assure the health and safety of its 15 residents in the context of existing and future pipeline activity?" This meeting 16 resulted in 13 recommendations, one of which was to form an EGT Pipeline 17 committee. The BOS passed a resolution (2018-78) on July 17th that establishes the 18 19 EGT Pipeline Task Force (PTF). The stated duties and responsibilities of the task 20 force are: 21 1. Promote the public interest in the work of the task force. 22 2. Undertake review and assessment of the regulatory and technical aspects of pipeline infrastructure affecting EGT. 23 3. Advise the BOS and make recommendations on pipeline legislation (state 24 25 and federal) and regulatory (PUC, FERC, PHMSA, DEP) matters. 4. Cultivate relationships and network with other municipal governments 26 27 and citizen interest groups. 5. Perform other such duties as may be delegated to the PTF from time to 28 29 time by the BOS. 30 6. Prepare objective information releases about pipelines for public 31 dissemination. 32 In 2018 the PTF held 3 meetings (Nov 12 and 27 and Dec 20). BOS member, David 33 Shuey, has acted as meeting facilitator until the group feels comfortable electing officers. There are 5 members. 34 35 The PTF categorized its future work into 4 overarching topics: 1. Resident preparedness and communications 36 37 2. Pipeline monitoring (exploration and inspection) 3. Legislation (PA and Federal) 38 4. Regulatory issues 39 40 In 2018 the PTF has begun to address a number of issues within its objectives 41 including but not limited to: 42 1. Holding a special meeting with Chester Co. Dept. of Emergency Services to explore resident disaster readiness 43 2. Support for currently proposed PA legislation regulating pipeline activity 44 3. Explore pipeline air quality monitoring 45 4. Explore public emergency notification infrastructure 46

1	5. Consider filing as an intervener on complaints filed with the PUC or DEP
2	regarding pipeline safety issues.
3	6. Consider filing an EGT complaint
4	7. Consider submitting a Chapter 5 PUC request regarding non-preempted
5	State pipeline regulations.
6 7	Rick Smith gave an update on the Sunoco pipeline. They have been out surveying and should be back in the Spring to continue drilling. He mentioned that there is an
8	environmental report on EGT website and residents have until February 3, 5:00 pm
9	to ask questions. There will be a public meeting on January 31, 7:00 pm at East High
10	School with PA commission members.
11	Marty thanked Rick for the time he has taken to learn and understand pipelines.
12	Marty mandea Mexilor die time ne has taken to fearli and that stand pipennes.
13	Planning Commission
14	Brad Giresi acknowledged the other members of the Commission and thanked Mark
15	Gordon for all of the support he gives them.
16	2018 Goals and Accomplishments
17	Goals: 1. General – Review and recommend SD/LD/CU/V applications.
18	2. Review and recommend zoning code amendments from Master Plan,
19	Trail, PPCMPC, etc.
20	a. Goshenville TND Zoning
21	b. Residential (Open Space) Development –there will be a public
22	meeting on January 22, 7:00 pm at East High School.
23	Accomplishments:
24	1. PC, Staff and all involved – thank you for your commitment to working
25	through a multitude of regular meetings, ad hoc meetings and workshop.
26	2. Applications
27	a. Malvern Institute (V, SE)
28	b. East Goshen Elementary School (LD)
29	c. Various Residential Applications (SD,LD,CU)
30	d. Child Daycare on Wilson Drive (CU)
31	3. Zoning Code Amendments
32	a. Residential (Open Space) Development – gave recommendation
33	b. Goshenville TND Zoning – ongoing effort
34	c. Keeping of Fowl – provided recommendation
35	d. Incubator Uses – provided recommendation. This was introduced
36	by Jon Altshul. It provides co-working spaces for start up entrepreneurs.
37	e. Zoning Variance Time Limit – provided recommendation
38	f. (Temporary) Fireworks Sales – provided recommendation
39 40	<ol> <li>Adopt-A-Highway Cleanup (Strasburg Road) – Completed.</li> <li>2019 Goals</li> </ol>
40 41	1. Goshenville TND Zoning
41	2. Goshenville TND Design Guidelines – streetscape.
42 43	3. Sustainability Committee coordination
43 44	Brad encouoraged people to attend the PC meetings
45	Drau encouoragea people to attend the r o meetings.

## 1 RECAP & CLOSING REMARKS

2 Ianet commented that we are all a team. Obviously the ABCs have been working very hard and their efforts are greatly appreciated. Our staff also has an important 3 role in our success led by Rick, Jon, The 2 Marks and Jason. I'd like to specially 4 5 mention Jon Altshul who has taken on a variety of roles this year including Assistant 6 Township Manager, CFO and recording secretary for the BOS meetings and Jason 7 Lang, who in addition to Park & Recreation is our grant writer extraordinaire. The pipelines continue to be a major concern. In218 we dealt with both Sunoco and 8 9 Adelphia Gateway. Sunoco is an intra-state pipeline under PUC regulation but Adelphia is inter-state which answers to FERC. We have cited Sunoco for noise 10 ordinance violations but since Sunoco has been designated a Public Utility, the PUC 11 has ultimate authority on issues. We have been in communication with our state 12 legislators, the governor and the PUC to try to get them to address our concerns and 13 initiate changes in regulations and responsibilities. We supported the Del-Chesco 14 15 United risk assessment project and have become parties and intervenors in several PUC complaints. We are supporting Chester Co. Assoc. of Township Officials in their 16 efforts, have met with local residents, citizen's groups and other organizations 17 concerned about safety issues. Last but certainly not least the BOS created our own 18 19 Pipeline Task Force to advise us on the ever-changing situation. 20 The Township has been awarded several grants this year thanks to our superb grant 21 writers. In 2018 we were awarded \$630,000 for the Hershey's Mill Dam Park, \$350,000 for the Milltown Dam Park (in addition to \$565,000 awarded in 2017) and 22 \$32,309 for the Barkway Pump Station Muffin Monster. (It grinds solids so pumps 23 24 don't get clogged and the wastewater can be processed by the headworks). We have 25 received \$475,000 for the wonderful destination playground which was completed this spring. In all, since 2016 we have been awarded \$5,438,309 for the above 26 mentioned projects and segments of the Paoli Pike Trail. 27 Following a study by Natural Lands Trust, it was determined that 6 ponds owned by 28 29 the Township needed remedial work. Based on current water quality, project complexity and pond visibility, Marydell Pond was chosen to go first. Working with 30 the Marydell Pond Committee, we are in the last stages of developing a landscaping 31 plan with abundant native plants and grasses for the area around the pond. 32 Unfortunately, due to so many rainy days, work on dredging the pond, which needs 33 to be complete before planting can begin, is behind schedule. If Mother Nature 34 cooperates, we hope to be at planting stage in late 2019. To avoid losing time, 35 permitting for Bow Tree 1 pond has already begun and we plan to form a Bow Tree 36 37 Pond Committee for landscaping there as well. Thanks to Mark Miller and his Public 38 Works crew for all their hard work. 39 The same rainy weather as well as a slower than expected permitting process, has postponed work on the Paoli Pike Trail segments F and G, which we hoped would 40 begin in 2018. Better luck in 2019. Besides engineering, work continues to get the 41 42 necessary rights-of-way for the rest of the trail. The inter-municipal contract between East Goshen and Westtown which authorizes 43 the WEGO Police Commission expired at the end of 2018. Also expiring were the 44 contract between WEGO and Thornbury Township and the contract between WEGO 45

46 and the Police Union. East Goshen and Westtown have signed a new 5 year contract

1	and Thornbury will continue to contract with WEGO for police services for another
2	5 years. Despite efforts by Scott Yaw of Westtown, Mike Lynch and me to reach
3	agreement with the Union, the Police contract will go to arbitration in June.
4	East Goshen was recognized as a Gold Level sustainable community by the PA
5	Municipal League, on our first try. Sustainability encompasses community design
6	and land use, energy efficiency, health and wellness, intergovernmental cooperation,
7	recycling and waste reduction, fiscal controls, and internal management and
8	operations. Thanks to everyone involved in completing the multi-page application.
9	There is one level above gold and our new Sustainability Committee is aiming
10	toward Platinum.
11	Obviously most of the projects I mentioned are not completed so they will continue
12	into 2019. In addition we plan a new vehicle Wash Bay to comply with state storm
13	water requirements and we will be upgrading the entrance to the Township
14	Building.
15	Thanks again to everyone and lets have a great 2019!
16	
17	The meeting was adjourned at 10:40 a.m.
18	
19	Respectfully Submitted
20	
21	
22	
23	Ruth Kiefer, Recording Secretary
24

1	EAST GOSHEN TOWNSHIP
2	BOARD OF SUPERVISORS MEETING
3	1580 PAOLI PIKE
4 5	TUESDAY, FEBRUARY 19, 2019
5	DRAFT MINUTES
6	
7	Present: Chairwoman Janet Emanuel; Vice-Chairman Marty Shane; Members
8	Carmen Battavio and Mike Lynch; Township Manager Rick Smith; Assistant
9	Township Manager and Finance Director Jon Altshul; Ryan Jennings, Esq. (Township
10	Solicitor); Police Chief Brenda Bernot; Erich Meyer (Conservancy Board); and
11	Caroline Hughes (Pipeline Task Force)
12	
13	<u>Call to Order &amp; Pledge of Allegiance</u>
14 15	Janet called the meeting to order at 7:00 p.m. and led the pledge of allegiance.
16	Moment of Silence
17	Carmen called for a moment of silence to honor our troops and first responders.
18	
19	Recording
20	The meeting was livestreamed on the Township's YouTube page.
21	
22	WEGO Police Report
23	Chief Bernot encouraged residents to sign up for CRIMEWATCH. She also stated that
24	WEGO will do a push to get more residents to sign up for ReadyChesco next month.
25	Carmen and Mike brainstormed ways for the Township to assist with this effort.
26	Janet inquired about recent solicitation activity and suggested that the Township
27	remind residents about our solicitation ordinance.
28	
29	<u>Chairman's Report</u>
30	Janet reported that the Board met in Executive Session prior to tonight's meeting to
31	discuss a personnel matter; that the Township did not receive a Growing Greener
32	grant for the Milltown Dam and that FERC has reopened the public comment period
33	of the Adelphia Gateway project until March 1, 2019, on account of the recent
34	government shutdown.
35	
36	Public Comment
37	Bernie Greenberg, 894 Jefferson Way, asked about the time limit on temporary
38	pipeline easements. Rick indicated that they are all different and that disputes
39	would need to be settled in court. Mr. Greenberg also asked about the status of the
40	Mariner 2 project. Rick stated that the only new pipes in the ground that the
41	Township knows about are in front of Wellington and Giant and a small section in
42	front of Bow Tree, which collectively total about 10% of the total project in East
43	Goshen.

- 44
- Marty spoke at length about pipelines and stated that the Township would convene a public hearing in the event that Sunoco asks for permission to drill 24 hours a day. 45
- 46

- 1
- 2 Caroline observed that Sunoco is supposed to have completed Mariner 2 by 2020.
- 3 She also noted that Sunoco had butane leaks at its Marcus Hook facility recently and
- 4 that the leaks were first reported on Marcus Hook Borough's Facebook page, rather
- 5 than by Sunoco or a regulatory agency. She also quoted two passages from a PUC
- brief to the Commonwealth Court highlighting the "catastrophic" risk to public 6
- safety that Mariner 2 presents. Mike observed that the PUC has evolved in its 7
- 8 position on the Mariner East project.
- 9

#### 10 **Fire Company Reports**

Carmen reported that in January the Goshen Fire Company responded to 34 fire calls, 15 11 12 Fire Police calls and 183 EMS calls in East Goshen; that the Malvern Fire Company 13 responded to 28 calls, including 26 Advanced Life Support calls in East Goshen; and that

14 Good Fellowship responded to 57 calls in East Goshen.

15

#### 16 **Financial Report**

17 Jon provided the January 2019 financial report. He noted that the Township had a deficit of \$883,153 as of January 31st, which is not unusual at this time of the year, as we front 18 load many expenses and do not receive much tax revenue until February. 19

20

#### 21 Approval of Minutes of February 5, 2019, and Treasurer's Report of February 14, 22 2019

#### 23 Carmen made a motion to approve the minutes of February 5, 2019, as amended. Mike

seconded. The motion passed 4-0. Carmen made a motion to accept the Treasurer's 24

- Report of February 14, 2019. Mike seconded. The motion passed 4-0. 25
- 26

#### 27 **Public Hearing-Consider Amendment Allowing for the Keeping of**

#### 28 **Domesticated Chickens**

- The Board held a public hearing on an amendment to the Zoning Ordinance allowing 29 for the keeping of domesticated chickens. Mike made a motion to adopt the Zoning 30
- 31 Ordinance amendment for Domesticated Chickens. Carmen seconded. The motion
- passed 4-0. A court reporter was present and will provide a full transcript of the 32
- hearing. A copy of the transcript will be appended to the minutes of this meeting 33
- when the decision becomes "final, binding and nonappealable." 34
- 35

#### 36 **Consider Recommendation on Westtown Township Comprehensive Plan**

- Rick observed that most of the two-mile border between East Goshen and Westtown 37
- is fully developed, but that staff has developed three recommendations. Janet made 38
- 39 a motion to direct staff to send a letter to the Westtown Board of Supervisors
- highlighting its three recommendations. Mike seconded. Mike suggested that the 40
- East Goshen and Westtown Planning Commissions meet to discuss the Route 3 41
- corridor. Janet noted that we already do this through the West Chester Pike 42
- 43 Coalition. The motion passed 4-0.
- 44

#### 45 **Consider Recommendation for Community Day**

1 Rick summarized Jason Lang's memo recommending that Community Day be held

- 2 on Saturday, June 29, with a rain date of June 30. He added that Jason plans to have
- 3 two escape rooms to attract more young teenagers. Marty asked about the funding
- 4 for the event. Jon stated that Friends of East Goshen was planning to raise funds.
- 5 Marty also raised concerns about whether June 29th was the best day for the event
- 6 given that many residents are on vacation then for the July 4th holiday. Carmen
- 7 stated that the date had been discussed at length by the Parks and Recreation
- 8 Commission and that the Board should defer to Jason and the Commission. Carmen
- 9 made a motion to hold Community Day on Saturday, June 29th. Mike seconded. The
- 10 motion passed 4-0.
- 11

# 12 Consider Payment Portal for Sewer/Refuse Bills

- 13 Jon summarized his memo recommending that the Township implement a payment
- 14 portal for sewer/refuse payments, with the Township absorbing the cost of the
- 15 transaction fee. He noted that the Township incurs expenses regardless of how
- 16 payments are made, and that the cost of the portal, or approximately \$9,200
- 17 annually and \$850 one-time, is in line with the cost of the existing Lockbox. He
- 18 added that the payment portal will also result in fewer customer service calls to the
- 19 Township and that payments will be processed overnight, or much faster than
- 20 through regular on-line banking.
- 21

Mike suggested that the Township include a service fee line in the portal, with \$0.00
listed next to it for now, just as PECO does, so that the Township could charge a
service fee in the future. Marty indicated that he had evolved in his thinking on this
issue and is now supportive of the Township absorbing the fee in order to

- 26 encourage more residents to use the portal.
- 27

Carmen made a motion to authorize the Assistant Township Manager to enter into a
contract with Paymentus for a payment portal for sewer and refuse accounts. Mike
seconded.

31

Joe Buonanno, 1606 Herron Lane, asked how quickly payments through the portalwould be processed. Jon replied that the upload occurs nightly.

- 34
- 35 Michelle Truitt, 1430 Grand Oak Lane, asked about security on the payment portal.
- 36 Jon explained that the vendor would need to provide the appropriate security
- 37 certifications during implementation and that he would be working with both the
- 38 Township's IT consultant and the Township's financial software vendor to ensure
- 39 that security is as strong as possible.
- 40
- Brian Sweet, 646 Meadow Drive, stated that he is supportive of the portal and had
  questions about the expected utilization rate.
- 43

44 The motion passed 4-0.

<ul> <li><u>Consider Recommendation for Verizon Franchise Fee Agreement</u></li> <li>Jon explained that a number of Chester County municipalities were banding together to</li> <li>renegotiate their franchise agreements with Verizon prior to their expiration in either</li> <li>2021 or 2022 with the assistance of the Cohen Law Group, a boutique law firm in</li> <li>Pittsburgh that specializes in cable franchise agreements. He noted that since the</li> <li>agreements were first signed in 2006, the business model of cable providers has changed</li> <li>whereby more people are watching streaming videos, a service that was not envisioned</li> <li>13 years ago. Jon stated that the expected cost of the contract would be \$5,950, compared</li> <li>to \$450,000 that the Township budgets annually for franchise fee revenue. Mike and</li> <li>Marty expressed their support of the proposal. Marty made a motion to engage the Cohen</li> <li>Law group to renegotiate the Township's franchise agreement with Verizon and appoint</li> <li>Jon to oversee this process. Carmen seconded.</li> <li>Mr. Buonanno asked if any new franchise agreement would cover wireless</li> <li>communications. Jon stated that this issue was likely to be discussed with Cohen.</li> <li>The motion passed 4-0.</li> </ul>

18
19 <u>Consider Resolution Regarding PA One Call</u>
20 Mike made a motion to adopt Resolution 2019-185. Carmen seconded. The motion
21 was made to heighten awareness of the state requirement to call 811 before you dig
22 at your property. The motion passed 4-0.
23
24 <u>Consider Construction Easement for Hershey's Mill Dam</u>
25 Rick explained that he has been in contact with Bank of New York Mellon, which
26 owns the mill house property on the corner of Greenhill Road and Hershey's Mill
27 Road regarding a temporary construction easement. Carmen made a motion to
28 authorize payment of \$4,000 to the Bank of New York Mellon and authorize the
29 Chairman to execute the temporary construction easement with the Bank of New
30 York Mellon. Mike seconded. The motion passed 4-0.
32 <u>Consider PennDOT Mowing Agreement</u> 33 <u>Miles made a matien to adopt Baselution 2010 58 that outhorized the Chairmanner to</u>
<ul> <li>Mike made a motion to adopt Resolution 2019-58 that authorizes the Chairwoman to</li> <li>execute the mowing agreement with PennDOT. Carmen seconded. The motion passed 4-</li> </ul>

42 maintaining them. Janet expressed delight that the school district was implementing 43 the Township's recommendation about traffic calming improvements. Mike made a
<ul> <li>43 the rownship's recommendation about traine caming improvements. Mike made a</li> <li>44 motion to adopt Resolution 2019-186. Carmen seconded.</li> </ul>
45

- 1 Ms. Truitt asked whether the lights could be solar powered. Mike expressed concern
- 2 about the reliability of solar powered lights during overcast weather.
- 3 4

The motion passed 4-0.

5

# 6 <u>Consider Recommendation for King Road and North Chester Road/Sproul</u>

# 7 Road Intersection

- 8 Rick explained that the Township met with East Whiteland Township and McMahon
- 9 Associates regarding potential improvements at the King Road and North Chester
- 10 Road intersection, including a roundabout and traditional intersection
- 11 improvements. In order to proceed with the project and potentially apply for grants,
- 12 McMahon would need to developed detailed conceptual plans for a roundabout at a
- 13 cost of \$7,500 shared between East Whiteland and East Goshen. Marty spoke at
- 14 length about the benefits of roundabouts. Both Janet and Mike expressed support
- 15 for making improvements at that intersection.
- 16
- 17 Carmen made a motion to accept the February 5 proposal from McMahon Associates

18 in the amount of \$7,500 and commit for funding 50% of the cost. Marty seconded.

- 19 The motion passed 4-0.
- 20

# 21 Consider Recommendation on Radio Booster Ordinance

- 22 Rick recommended sending a letter to the business community inviting them to a
- 23 public meeting on March 27<sup>th</sup> at 7pm to discuss the proposed radio booster
- ordinance. Jon observed that this topic would probably also be broached at the
- 25 upcoming business breakfast meetings. The Board was supportive of Rick sending
- 26 out the letter. Mike suggested that someone with technical expertise about radio
- 27 boosters be invited as well.
- 28

# 29 Consider Update on Hershey's Mill Dam

- 30 Rick explained that it is the position of the Army Corps of Engineers that the Hershey's
- 31 Mill Dam is a wetland and not a body of water. As a result, we need to shrink the
- 32 parking area, elevate the trails on boardwalks, and haul off any excess fill. Marty raised
- 33 concerns about whether these changes would impact our grant eligibility. Rick indicated
- that he did not think it would, but that he would check with Jason Lang.
- 35

# 36 <u>Consider Replacement of Pipe Camera and Trailer</u>

- The Township received two COSTARS price quotes for a replacement sewer camera and
- trailer, as summarized below.

Vendor	Price
H.A. DeHart & Sons	\$140,937
Cues Mainline Inspection Systems	\$149,755

- 41 Carmen made a motion to purchase the RST Camera and Controls and Trailer from H.A.
- 42 DeHart and Sons for \$140,937 and to authorize staff to sell the existing camera and trailer
- 43 on Municibid to the highest bidder. Mike seconded. The motion passed 4-0.

1

# 2 Any Other Matter

3 Mike made a motion to release \$33,910 in escrow for 1662 E. Boot Road (Lot 3);

4 \$19,031.25 for 1664 E. Boot Road (Lot 2); and \$7,298.60 for 1420 E. Strasburg Road.

5 Carmen seconded. The motion passed 4-0.

6

Jon explained that the Goshen Fire Company and its labor union had reached a tentative

agreement on amending the pension benefits for paid firefighters, including increasing
the multiplier from 1.25% to 2%, capping the maximum benefit at 50% of average final

10 salary, and eliminating the non-service disability provision. He explained that while the

11 Township traditionally takes no position on labor negotiations between the Fire Company

12 and its union, as the plan sponsor of the paid firefighters pension plan, we would need to

13 amend the Township ordinance authorizing the changes. Carmen made a motion to

schedule a public hearing on an ordinance amending the paid firefighters pension plan on

15 March 19<sup>th</sup>. Mike seconded. The motion passed 4-0.

16

Carmen made a motion to appoint Christina Morley to the Pipeline Task Force and John
Stipe to the Planning Commission. Mike seconded. The motion passed 4-0.

19

22

23

24

# 20 Correspondence, Reports of Interest

21 Janet acknowledged receipt of the following correspondence and reports:

• A February 1, 2019 letter from Senator Killion regarding Resolution 291

• A February 12, 2019 1,000' letter for a conditional use application for a medical marijuana dispensary at 1261 West Chester Pike (West Goshen Township)

25 26

# 27 Adjournment

- 28 Mike made a motion to adjourn at 9:00. Carmen seconded. The motion passed 4-0.
- 29
- 30 Respectfully submitted,
- 31 Jon Altshul
- 32 Recording Secretary
- 33
- 34 Attached: February 14, 2019 Treasurer's Report

## EAST GOSHEN TOWNSHIP MEMORANDUM

то:	BOARD OF SUPERVISORS
FROM:	JON ALTSHUL
SUBJECT:	PROPOSED PAYMENTS OF BILLS
DATE:	FEBRUARY 28, 2019

Attached please find the Treasurer's Report for the weeks of February 15 – February 28, 2019.

Note that the payment for the new trailer is technically being made to M&T Bank, because the vendor, Pro-Line Trailers, has requested a bank check. Also, note that Batch 1 contains a mailbox reimbursement for \$354.04, rather than the normal \$25 that was authorized pursuant to Resolution 2009-36. The reason for this proposed payment is that one of our Public Works operators lost control of his vehicle during a recent storm event and directly crashed into this mailbox on Eldridge Drive.

Note also that the 2019 State Liquid Fuel Funds allocation was received after the Treasurer's Report was prepared.

**Recommended motion:** Mr. Chairman, I move that we graciously accept the receipts and approve the expenditures as presented in the Expenditure Register and as summarized in the Treasurer's Report.

# Memo

To: Board of SupervisorsFrom: Park and Recreation CommissionRe: Community Day ActivitiesDate: February 25th, 2019

**Community Day** has been scheduled for Saturday, June 29th with a rain date of Sunday, June 30th. Per Township procurement standards; the Director of Parks and Recreation has received the following price quotes with accompanying recommendations. Quotes were for the exact type, quality and quantity of service. It is important to note, the Friends of East Goshen 501c3 anticipates financially supporting the event in its entirety.

Name	Service Provided	Service Fee	
International Fireworks	Fireworks Demonstration	\$8750	
Sky Shooter Displays	Fireworks Demonstration	\$9000	
Celebration Fireworks	Fireworks Demonstration	\$12000	
D & M Fireworks	Fireworks Demonstration	\$12250	

Name	Service Provided	Service Fee
One Stop Party Shop	Inflatables and Carnival Games	\$3452
Bette's Bounces	Inflatables and Carnival Games	\$3552
Circus Time	Inflatables and Carnival Games	\$6180

After reviewing the above price quotes, the Park Commission recommends selecting International Fireworks and One Stop Party Shop for Community Day.

International Fireworks is the fireworks recommendation because:

- Price quote is the lowest.
- International Fireworks has provided Community Day displays (first year 2016) and can provide a top notch show. We would request a condensed display of 15-16 minutes, in keeping with the much lauded performances from 2017-18.
- Price variations listed above were discussed with the potential vendors. International is very
  interested in creating our show again, and is willing to absorb industry wide increases in shell
  costs.

**One Stop Party Shop** is the inflatables recommendation because:

- Price quote is the lowest
- Customer service (determined at events) has been among the best for the above vendors.
- One Stop Party Shop will provide staff for the trackless train and gas; additional Township cost savings

#### Motion:

I move to select International Fireworks and One Stop Party Shop for the above listed Community Day services.

Computer/H:/East Goshen Township/Budget

### **Show Proposal**

### A Custom Proposal Designed by International Fireworks Manufacturing Company

For:

Applebrook Golf Club

### Dates:

Program Date: 6/29/2019

Rain Date: 6/30/2019

# **Show Proposal Details**

#### Summary:

This Custom Designed Show for East Goshen Community Day is summarized to have approximately 5337 Total Shots.

Program Cost: \$8,750

Mr. Jason Lang Email to: jlang@eastgoshen.org Re: 6-29-19 East Goshen Township Community Day

Hi Jason --

Following is our quote/statement of work for a grand fireworks display to be presented at the East Goshen Community Day on Saturday June 29th, 2019 (Rain date TBD). Please review and if it's ok, please sign a copy of this Display Agreement and return it to our office along with a 25% deposit check for \$3,000.

#### QUOTE SUMMARY

• The total fee for the display is \$12,000.

• The display will be fired digitally using our advanced computerized system. Nothing will be fired by hand and the crew will be located in front of the audience at our control station greatly adding to the overall safety of the event.

- The duration of the display will be approximately 20 to 25 minutes.
- \$10 million of liability insurance will be provided and additional insureds may be named as needed.

#### BACKGROUND—CELEBRATION FIREWORKS, INC.

Since our inception in 2001, Celebration Fireworks choreographs every display that we perform using state-of-the-art computerized firing equipment. For a given budget, our approach produces much more magnificent displays than the common hand-fired displays that most people are familiar with. Our mission and passion is to provide our clients with truly unique and uncommon fireworks entertainment – at every budget level.

#### **DISPLAY DATE and LOCATION**

We'll plan the display for Saturday June 29th, 2019. We will arrive in the morning to begin setup at the display site.

#### **BALANCE DUE**

Our total fee for this display is \$12,000. After your deposit of \$3,000, the balance due of \$9,000 is most appreciated on the date of the display - check or cash accepted.

#### DISPLAY CHOREOGRAPHY AND DURATION

Your display will begin with an intense opening, followed by a main body, followed by a powerful finale – but with lots of variation in intensity and surprises throughout. Our display launching equipment is capable of safely firing devices at angles from -20 to +20 degrees about vertical, in 5 deg. increments. So we will deploy "fan-shaped" effects throughout every section of the display. It will add substantially to the beauty and power of the display since, compared with ordinary displays, we will routinely use a much wider swath of the night sky as our canvas.

#### **DISPLAY FIREWORKS MATERIAL**

We purchase only the highest quality material from sources in Spain, Italy, the US and China. Our approach has always been to use only the highest quality material available since no choreography or firing equipment can make up for washed-out color, inconsistent altitude, poor symmetry, safety issues, and other problems associated with low-priced display material. Below is an estimate of the material that we plan to use for your display:

		Qty	Total
Device	# Shots	devices	shots
Cakes-straight	100	10	1000
Cakes-fan	150	10	1500
Cakes- fan 1-row	13	10	130
3" shells	1	120	120
4" shells	1	96	96
5" shells	1	75	75
6" shells	1	60	60
2 1/2" finale shells	1	100	100
3" finale shells	1	200	200
Total Shots			3281

#### INSURANCE

We provide the event with \$10 million of commercial liability insurance protection.

#### FIRE PROTECTION REQUIRED ON-SITE

We will schedule the fire company to provide the required standby truck.

#### IN THE EVENT OF RAIN

If the forecast is for non-stop and heavy rain throughout the day, and it has begun by noontime or so, we <u>may</u> request that the display be cancelled or moved to the rain date due to the difficulty of setup under these conditions. Some amount of rain generally will not interfere since the display elements can be protected from water. Potential cancellation depends on the <u>severity</u> of the weather. We will make every effort to go forward with the display. If we have to cancel due to weather, we will retain your deposit only to compensate for our display design, permitting and preparation work.

You will have the option to cancel the display at any time, for any reason, up to 3 days before. In this case, we will retain only your deposit.

If it is raining at the time of the display, and the display has been completely set up, we will proceed with the display. We will consult with you to see if you would like to delay a bit to wait for a letup in the weather. Or you may wish to have your guests view from inside, or bring along umbrellas, etc. to protect them during viewing.

#### **DISPLAY AGREEMENT and DEPOSIT**

In order to book with us, please sign below and return a copy to us along with an \$3,000 deposit, and with these we will lock the date in for you.

We plan to help make your wedding reception an event that you and your guests will always remember!

With Best Regards -

JH Kemps

Hi Jason,

To produce the display quoting the same numbers you sent me you would be looking at \$12,250. Unfortunately, shell prices have really gone up this year. Let me know what you think. If needed, I can also gladly put a proposal together for any other budget level.

Thanks, Dave

Due \$3,452.00

A few tips and reminders: (PLEASE READ BELOW)

1) We accept cash and most credit cards (not AmEx). If paying with cash, please note that our drivers don't carry change. Payment is due at time of set up. Due to the number of returned checks we no longer accept checks as a form of payment.

2) Please call our office if you have stairs or a tiered backyard, so we can discuss setup options.

3) We can set up on most surfaces but not rocks or sticker patches of any kind If this type of topography is all you have, please rent "tarping 3 thick" under concessions and add-ons and/or tarp 3 thick before our delivery/setup. Please call us if you are unsure.

4) All inflatable units MUST be staked in the ground for safety. If this is not possible, you will need to select jumper placement to be around secure items that we can tie off to, i.e. telephone poles, fence posts, etc. The unit must be secured on atleast 3 corners. Sandbags are not safe for most setups and as a result we do not use them.

5) We will call you the day before your event with a set up time (we sometimes have to arrive very early to get all of the jumps out on time but we do not charge for the extra time)

6) Please call as early as possible if you need to cancel for weather or any other reason. Once we've set up, we do not give refunds for any reason including weather. Please see the FAQ and Policies pages on our web site.

7) If your event will be at a park. Please tell us. It affects our scheduling and your pricing. You will need to either provide electricity within 50' or rent a generator which we can provide at an additional cost.

We want your party to go as smoothly as possible. Please call if you have any questions. Thanks!

RENTAL AGREEMENT, RELEASE AND ASSUMPTION OF RISKS

#### TERMS AND CONDITIONS/WARRANTY

1. By accepting delivery of rented items, customer agrees to all terms and conditions shown on this rental contract. Customer acknowledges the s/he has received in good order all rented items and other goods listed on the contract.

2. Customer assumes full responsibility for all rented items, including their safe and proper use, operation, maintenance, and return to Bette's Bounces. Customer is responsible for all loss, damage or repair.

3. Retaking of Equipment: If customer fails to return all rented items upon agreed time, customer agrees to pay for all additional charges. If customer refuses to return rented items, the customer agrees that Bette's Bounces and its agents may take all reasonable actions necessary to recover rented items without prior notice or legal process.

#### RELEASE OF LIABILITY

4. Duty of Participants: It is recognized that some activities conducted by Bette's Bounces are hazardous to participants regardless of all feasible safety measures which we can take. All participants have a duty to act as a reasonable prudent person when engaging in the recreational activities which are offered by Bette's Bounces. I hereby covenant and agree not to:

A. Act in any way which shall interfere with the running or operation of Bette's Bounces when such activities conform to the rules and regulations of the State of Pennsylvania.

B. Engage in any harmful conduct or willfully or negligently engage in any type of conduct which contributes to or causes injury to any person.

C. To embark in any self initiated activity without first informing Bette's Bounces of my intentions and receiving permission from Bette's Bounces to engage in such self initiated activity.

5. I understand and acknowledge that the activity which I am about to voluntarily engage in as a participant bears certain known risks and unanticipated risks. those risks include, but are not limited to falling, slipping, crashing and colliding and could result in injury, illness, disease, emotional distress, death and/or property damage to myself or my guests and invitees.

6. In consideration of the services and or property provided, I for myself and any minor children for which I am the parent, legal guardian or otherwise responsible, any heirs, personal representatives or assign, do hereby release Bette's Bounces, it's principals', directors, officers, agents, employees and volunteers from any liability and waive any claim for damages arising from any cause whatsoever (except that which is gross negligence).

7, Rules: Lessee agrees to supervise both the equipment and its use at all times said equipment is in the possession of the lessee. Accompanying this contract is a set of directions for use and safety rules that I agree to follow and utilize at all times during the operation and use of the interactive inflatable game. Lessee Initial Here I have been explained the following: Water Slides that have a pool liner attached shall not be removed. By removing this liner, it creates an unsafe ride, therefore Bette's Bounces & Carnival Attractions and it's employee's will not be responsible for any injuries occurring. HARMLESS PROVISIONS

8. Lessee agrees to indemnify and hold lessor harmless from any and all claims, actions, suits, proceeding costs, expenses, damages and liabilities, including reasonable attorney's fees arising by reason of injury, damage or death to persons or property, in connection with or resulting from the usage of equipment including but not limited to the manufacture, selection, delivery, possession, use, operation, or return of the equipment.

9. Lessee hereby releases and holds harmless lessor from injuries or damages incurred as a result of the use of said equipment unless lessor is operating the equipment and is deemed by a court of law to be negligent in its actions. Lessor cannot under any circumstances be held liable for injuries as a result of acts of God, nature, or other conditions beyond its control or knowledge. Lessee also agrees to indemnify and hold harmless lessor from any loss, damage, theft, or destruction of the equipment during the term of this contract and any extension thereof.

#### DUTY TO MITIGATE

10. In the event of injury, damage or loss due to lessor's negligence, lessee agrees and assumes the duty to mitigate all costs resulting from said injury, damage or loss.

#### DISCLAIMER OF CONSEQUENTAL DAMAGES

11. By signing this contract, lessee agrees to forego seeking any consequential damages in the event of any injury, damage or loss due to lessor's negligence. I acknowledge and certify that I have had sufficient opportunity to read this entire document, that I understand its content and that I execute It freely, intelligently and without duress of any kind and agree to be bound by its terms.

### **Bette's Bounces & Carnival Attractions SAFETY RULES & OPERATING INSTRUCTIONS**

- \* Insure that all safety rules and operating instructions posted on the front of the inflatable are followed.
- \* A trained operator(s) must be on duty at all times. \* In case of high winds or storms, have all persons exit the inflatable and then unplug the unit and let it deflate.
- \* Remove all sharp or pointed objects from pockets
- \* No Silly String is to come in contact with the inside or outside of the unit
- \* No food, drinks or gum chewing allowed
- \* Remove shoes, eveglasses and jewelry
- \* No flips, somersaults, rough play, piling on or wrestling
- \* Do not bounce against sides or near the front entrance way. Do not bounce into corner posts.
- \* Do not climb on side walls or nets
- \* Keep a safe distance between kids bouncing in the inflatable
- \* No jumping or sitting on the entrance ramp
- \* Only allow similar sized riders in the inflatable at once
- Follow the maximum number of riders guidelines as posted on the inflatable
- \* Follow the maximum weight limit as posted on the inflatable
- \* Do not let the inflatable rub up against any surface
- \* Do not move the bounce from the location where set up
- \* Individuals with head, neck or back injuries or disabilities, pregnant women, small infants, and others who may be susceptible to injury from falls, bumps, or

bouncing are not permitted in the unit at any time.

- \* Water hoses or water must not be used in the inflatable unless specifically manufactured for use with water.
- \* If the inflatable starts to deflate, have all riders exit immediately and then check for one of the following conditions:

\* the blower motor has stopped; in which case check the power cord connection at the outlet to make sure that it has not been unplugged. If not, check to make sure a circuit breaker was not tripped.

\* If blower motor continues to run; check for blockage of air intake screen on the side of the blower unit. Also check all air tubes on the back of the inflatable for snugness and tighten ties if necessary.

\* If either of these steps corrects the problem, fully re-inflate the unit prior to permitting anyone to use it.

\* If you cannot correct the problem, call our office at 610.358.4772

#### ADDITIONAL SAFETY RULES FOR SLIDES

- \* Participants must sit down at the top of the slide before sliding down.
- \* Do not run, jump, bounce, or horseplay at the top of the slide.
- \* Only one person (per sliding lane) is permitted to be at the top of the slide at a time.
- Participants must slide down the slide feet first on their bottom.
- \* Only one person (per sliding lane) is permitted to go down the slide at a time.
- \* Participants must wait until the previous ride is off of the bottom of the slide/landing area before they go down the slide.
- DO NOT apply any lubricant or any other substance to the sliding surface that will cause riders to travel down the slide at a higher speed.
- \* Slide liners are not to be removed from the inflatable
- \* Going down the slide on your knees WILL RESULT IN INJURY. DO NOT go down the slide on your knees.

Rain/Weather Cancellations: We don't charge for cancellations due to weather. You must cancel by 8am the morning of the event in order to be refunded. Deposits: Are non refundable, but transferable for a one year period of time.

# Memo

Date:February 28, 2019To:Board of SupervisorsFrom:Rick Smith, Township ManagerRe:Energy Transition Plan

**Background -** In November 2018, the WCACOG approved the issuance of a RFP for Renewable Energy Planning services under which the consultant would prepare an Energy Transition Plan to achieve 100% renewable electricity by 2035 and 100% renewable energy for all uses in the West Chester Area by 2050.

At their meeting on February 21, the WCACOG accepted the proposal from Cadmus Group LCC in the amount of \$75,000, with the cost to be apportioned based on population.

The WCACOG is comprised of an elected official from each of seven municipalities in the West Chester region. Under the terms of the inter-municipal agreement that created the WCACOG, the governing body of each of member municipality must specifically approve participation in any WCACOG project. The next WCACOG meeting is scheduled for April 25, 2019.

I have provided a copy of the attached memo from the WCACOG to the Sustainability Advisory Committee for their review and comment. I expect they will make a recommendation at their upcoming meeting on March 25<sup>th</sup>.

**Recommendation** - I would suggest that you table action on this until your meeting on April  $2^{nd}$  so that you will have the benefit of their recommendation.

F:\Data\Shared Data\ABC'S\WCACOG\Clean Energy\Responses to RFP\Memo to BOS re RFP 022819.doc

# Memo

Date: February 22, 2019

To: East Bradford Township Board of Supervisors East Goshen Township Board of Supervisors West Goshen Township Board of Supervisors West Whiteland Township Board of Supervisors Westtown Township Board of Supervisors West Chester Borough Council

From: Rick Smith, East Goshen Township Manager

Re: Energy Transition Plan

By way of background, in November 2018, the WCACOG approved the issuance of a RFP for Renewable Energy Planning services. The RFP was a request for a consultant to develop an Energy Transition Plan to achieve 100% renewable electricity by 2035 and 100% renewable energy for all uses by 2050.

The RFP was issued in December and proposals were due on February 4, 2019. The WCACOG received proposals from the following firms:

Amerex Energy - Sugar Land, TX (Office in West Chester) Cadmus Group - Boston, MA Enel X – Boston, MA NEWR Energy - Bethesda, MD (office in Philadelphia) Optimal Energy - Hinesburg, VT Pennoni-Krug – West Chester, PA ProtoGen Energy Aligned - Quakertown, PA Synapse Energy Economics – Cambridge, MA Practical Energy Solutions - West Chester, PA - expressed interest in the project but did not submit a proposal since their Vice President, Dianne Herrin, is also the Mayor of West Chester

Prior to the receipt of proposals, Thornbury Township indicated that they did not want to participate in this project.

A review team consisting of the municipal managers and three representatives from the Chester County Clean Energy Leaders reviewed the proposals and interviewed (via a video conference) three of the firms that submitted proposals.

The review team recommended that the WCACOG accept the proposal from Cadmus Group LCC in the amount of \$75,000. Cadmus has developed an energy transition plan for King County in Washington and is in the process of developing a plan for Buncombe County in North

Carolina, which includes the city of Asheville. They provide technical assistance to the DVRPC for their Solar Ready II project and worked on projects for the U.S. Department of Energy.

At their meeting on February 21, 2019, the WCACOG approved a motion to accept the proposal from Cadmus in the amount of \$75,000, with the cost to be apportioned based on population:

	Population	Percentage	
East Bradford	10,038	9.97%	\$7,475
East Goshen	18,339	18.21%	\$13,656
West Chester B.	19,842	19.70%	\$14,775
West Goshen	23,137	22.97%	\$17,229
West Whiteland	18,450	18.32%	\$13,739
Westtown	10,913	10.84%	\$8,126
Total	100,719	100.00%	\$75,000

The WCACOG is comprised of an elected official from each of seven municipalities in the West Chester region. Under the terms of the inter-municipal agreement that created the WCACOG, the governing body of each of member municipality must specifically approve participation in any WCACOG project. Accordingly, in order for each of your respective municipalities to participate in this project, an affirmative vote of your respective governing body is required.

The next WCACOG meeting is scheduled for April 25, 2019, so we would appreciate receiving your decision by that date.

Attached is a synopsis of the project, along with an excerpt from the proposal from Cadmus.

F:\Data\Shared Data\ABC'S\WCACOG\Clean Energy\Responses to RFP\Memo re RFP 022219.doc

#### **ENERGY TRANSITION PLAN**

This project will result in the creation of an Energy Transition Plan ("the Plan") with a goal of 100% renewable energy electricity by 2035 and 100% renewable energy for all uses by 2050 in a fair and inclusive transition process. It should be noted that this project is intended to not only affect municipal operations, but rather all uses, including residential, commercial, business, industrial, educational, retail, and transportation.

Cadmus has broken the project into five tasks which are summarized below:

Task 1 – A kickoff meeting (via video conference) with members of the WCACOG to provide Cadmus with a better understanding of our objectives, stakeholder engagement, and the schedule for the Plan.

Task 2 - The creation of an advisory group that will include a representative from each municipality, a representative from the DVRPC, other representatives as determined by WCACOG, and eight stakeholders from the West Chester area. Cadmus will interview the stakeholders to obtain their input on how to address their specific needs and challenges. A community visioning session will be held to solicit input from the general public. A website will be created to provide information to the public on the project. A summary of the results will be compiled for use by the advisory group.

Task 3 – Cadmus will compile a list of policies based on the stakeholder interviews and community visioning session, and for each policy, identify and assess the various barriers and opportunities that exist for its implementation. They will then prepare a policy summary matrix that will summarize the above information. Cadmus will also identify up to eight sites that may be suitable for renewable energy or energy storage.

Task 4 – Cadmus will identify the current mix of electric power sources for the West Chester area. A business-as-usual forecast of the electric power mix will be developed for use as a baseline. The impacts of the various policies identified in Task 3 will be modeled to determine the expected energy, financial, and economic impacts on this baseline. The various policies will be analyzed and grouped as appropriate, and Cadmus will prepare a memo summarizing the above information and how it helps to achieve the 100% renewal energy goal.

Task 5 – The final Plan, including short-, medium-, and long-term objectives will be developed. Specific action items will be identified for the short- and medium-term objectives. Generalized steps will be identified for the long-term objectives. Cadmus will present the plan at a public meeting.

## 3. Approach to Project

The following section describes the Cadmus team's approach to accomplishing the tasks laid out by West Chester Area Council of Governments (WCACOG) in its RFP. The West Chester Area Council of Governments, representing West Chester Borough and the townships of East Bradford, West Whiteland, West Goshen, East Goshen, Westtown, and Thornbury, will hereby by referred to as *WCACOG*, and the multi-jurisdictional area it represents will be referred to as *the West Chester Area*.

## Task 1. Kickoff Meeting

At the outset of the project, the team will first conduct a scoping call with WCACOG to further hone the scope of the project together and to better understand the regional vision, objectives, and constraints. The scoping call will include WCACOG's preferences on key aspects of the project including the breadth and depth of the stakeholder engagement process, project schedule, deadlines for key deliverables and the timing of regular check-ins.

Ke	y Deliverables:			
o	Kickoff call with WCACOG			
0	Finalized scope of work			Nellene Mellenen Der
o	Gantt chart			

## Task 2 - Stakeholder and Community Engagement

### Task 2a. Project Advisory Group Formation and Intake Interviews

To obtain feedback from key stakeholders in the West Chester Area, Cadmus will work with WCACOG to assemble an advisory group. This core working group will be comprised of a representative from each city, along with at large representatives from the DVRPC and potential additional members as suggested by WCACOG. The Project Team will call on this advisory group to provide critical input and feedback throughout the Renewable Energy Planning process.

As\_part of its initial outreach, the Project Team will conduct up to eight individual "intake interviews" with these advisory group members. The intake interviews will focus on understanding directly from key stakeholders their priorities, concerns, and preferences for renewable energy implementation. Furthermore, it will allow the Project Team to understand perspectives from members of each of the seven communities. The individualized nature of the interviews will allow for insights to be shared that might not otherwise be discussed at a meeting with additional stakeholders. These conversations can serve to build initial stakeholder support as well as demonstrate inclusion by inviting stakeholders to interview who may not be strong supporters of the renewable energy plan. It can allow stakeholders to air their concerns in a format that will not detract from a larger group discussion. Overall, the intake interviews will inform the development of the materials for the Advisory Group Meeting (Task 2b).

#### Task 2b. Advisory Group Meeting

The Project Team will meet in-person with WCACOG, and selected stakeholders (potentially Advisory Group). This meeting would involve reviewing the agenda for the broader Community Visioning Workshop and to solicit detailed feedback from members on discussion topics in advance of the

Community Visioning Workshop. A key conversation will be confirming WCACOG's energy goals, which will involve defining what methods of generation will count as renewable. The small group meeting will also serve as an initial opportunity for the Project Team to identify preferences and common barriers shared by the seven communities. The small group would discuss topics likely to be raised by attendees at the broader meeting and strategize as to how to frame the conversation most productively. Holding this meeting in advance of the public workshop will allow the Project Team to review material with the advisory group before making a full public presentation and will allow for a more detailed discussion as a small group.

#### Task 2c. Community Visioning Workshop

Later in the day (likely in the evening to allow for greater community attendance), WCACOG and Project Team would hold a launch meeting in a central location with community, and advisory group members. This professionally-facilitated workshop will seek to identify different community perspectives on municipal energy goals and priority, and to discuss the community's specific needs, challenges, and goals for the project. Holding this stakeholder meeting at the outset of the project will ensure the team can best align tasks with goals. Discussion questions and presentation topics will be developed with WCACOG in advance of the meeting.

At the stakeholder workshop, a group visioning exercise will guide the process for establishing a community-wide vision for achieving the WCACOG's Renewable Energy Targets. Preliminarily, discussion topics will include:

- **Priorities:** What are the group's key drivers and priorities for renewable energy implementation? Communities are motivated to transition to 100 percent renewable energy utilization for a variety of reasons. Identifying which one or more of these are key drivers is a critical step in determining the most effective path for implementation of renewable energy for the community. For instance, a few potential priorities may include reducing energy costs, reducing GHG emissions, and strengthening local economic development.
- **Collective Vision of Success:** What tangible changes would be evident in our community if WCACOG were achieved its 100 percent renewable energy goals? This might include increased financial strength (e.g. average reduction in energy bills for households and businesses), greater resilience (fewer power outages during storms), and economic or other co-benefits (local energy jobs).
- **Obstacles:** What have been obstacles to renewable energy implementation thus far? What would mitigate these obstacles? This may include policy constraints, stakeholder opposition, or other challenges. Clarifying these upfront allows the community and Project Team to learn from past pitfalls and focus efforts on moving forward.

Following this round of stakeholder engagement, the Project Team will prepare a memo that summarizes the findings from the intake interviews, Advisory Group Meeting, and Community Visioning Workshop and identify how these outputs will inform later tasks.

#### Task 2d. Ongoing Public Education and Outreach Support

The Project Team will develop a simple project website to house outreach materials and deliverables, which will serve to keep the community updated after the community meeting. Cadmus will make regular updates to this website, describing project progress and posting interim task deliverables.

Members of the Project Team will also be available to call in to public or stakeholder meetings as appropriate to support WCACOG members in updating community members and elected officials on progress.

#### **Key Deliverables:**

- Eight individual intake interviews
- In-person Advisory Group Meeting
- Community Visioning Meeting
- Memo summarizing findings from interviews, Advisory Group Meeting, and Community Visioning Workshop
- Project website and outreach materials

### Task 3. Policy Options and Barriers Analysis

#### Task 3a. Compilation of Policy Options

Based on the initial community visioning workshop with WCACOG, as well as Cadmus' prior work with municipal governments nationwide, the Project Team will compile a list of strategy options that were either directly identified by WCACOG and other relevant stakeholders or are based on best practices that could align with WCACOG's goals.

Based on its *Pathways to 100* report and prior local energy planning projects, Cadmus has developed a preliminary list of more than two dozen actions that may be included in such a roster of potential policy actions across multiple technologies. Actions included may include, for example, direct use of municipal legal authority, use of the city's convening abilities or the creation of community-based programs, partnerships with utility or state organizations to implement innovating tariff, financing, or incentive programs, transportation electrification or demand management strategies, and other emerging local government policy strategies. The Project Team will revise the resulting list based on stakeholder feedback and WCACOG's interests to develop a custom set of policy options for evaluation in this effort.

The Project Team will look at options that deploy the hard powers of WCACOG member governments — options to use city resources to act locally and to use city authority to require local action. This will include exploring opportunities for collaboration with other parties to act regionally or statewide, including engagement of county or state government to take steps to allow for greater action, and cooperation with legislators, regulators, or agency staff.

#### Task 3b. Barriers and Opportunities Assessment

For each policy or program option of interest, the Project Team will assess the feasibility and expected impacts of such an effort within Pennsylvania's policy and regulatory structure. The research will be specific to Pennsylvania's energy context, drawing on our extensive experience with state municipalities and utilities, and the regional expertise of the Advisory Staff. The project team will conduct desk research to evaluate relevant barriers and opportunities, consulting regional installation databases, integrated resource plans, and other independent studies where available. Considerations for the barriers and opportunities research may include the type and scale of each action and strategy, and county cost-effectiveness and general effectiveness (low to high) and feasibility of the policy options.

This work will be done in consultation with the project advisory group to provide additional insights related to key barriers, potential existing gaps, and opportunities for continued renewable energy penetration. The Project Team will coordinate with WCACOG to conduct outreach to key stakeholders and will utilize the deep local knowledge of its project partners to ensure that local policy issues are reflected in the assessment of barriers and opportunities.

Based on this assessment, the Project Team will develop a policy summary matrix which provides qualitative descriptions of the feasibility, scalability, and impact of various policy options. The Project Team will share the list of potential strategies and policy matrix with the Advisory Group.

#### Task 3c. Potential Renewable Energy and Energy Storage Site Identification

Informed by stakeholder conversations, the Project Team will identify and compile a short list of potential sites for renewable energy or energy storage site development. The Project Team will conduct high-level pre-feasibility assessments for up to eight sites, taking into account factors such as available land area, proximity to power lines, and other factors informing site feasibility. Given budget constraints, our team anticipates that this study will be high-level. However, our team does provide no-cost technical assistance through the U.S. Department of Energy's SolSmart program. If WCACOG communities are interested in pursuing a more in-depth feasibility analyses solar specifically, our team can provide this type of technical assistance through the SolSmart program.

#### Key Deliverables:

- Memo detailing potential policy options including barriers.
- Strategy analysis matrix comparing the options
- Pre-feasibility assessment of eight sites

### Task 4. Policy Impact Modeling

In Task 4, the Project Team will identify the likely energy and financial impacts of a set of programs of interest to the West Chester Area, as well as a range of scenarios that reflect high concentrations of renewable energy and their associated costs.

The Project Team will first conduct research on the current mix of electric power sources for the West Chester Area, and develop a business-as-usual forecast of likely changes in electric power mix during the planning period.

From this baseline, the Project Team will assess the likely energy impacts (as well as the associated greenhouse gas emissions reductions) of each strategy selected in Task 3 above towards WCACOG's renewable energy goal, as well as the potential direct costs and benefits to the communities associated with each opportunity. The Project Team can draw on its existing database of local government policy impacts, as well as its existing city energy model, to conduct this work efficiently.

Following this analysis, the Project Team will present and discuss these results with the Advisory Group and would develop one or several packages of policy actions items which could be combined to comprise a renewable energy transition plan.

For each policy package, Cadmus will then create a wedge analysis which displays the results of this energy impact assessment and which discussed the contribution that each specific action within a policy

scenario would have in bringing WCACOG toward its renewable energy goals. Cadmus will provide an analysis memo to synthesize the results of this analysis, and characterize the expected energy, and economic impacts of each policy and package.

### Key Deliverables:

 Analysis memo summarizing (1) each community's current energy mix and expected baseline power mix forecast, (2) policy actions and scenarios selected for quantitative impact assessment, (3) expected energy, financial, and economic impacts of various policy actions and scenarios, and (4) wedge analysis demonstrating progress towards 100% renewable energy goal of each policy scenario

### Task 5. Renewable Energy Plan Development

Based on the outcomes of the above research tasks and stakeholder feedback, the Project Team (with the advice and review of the Advisory Group) will develop a roadmap for WCACOG's renewable energy goals. This plan will use the conclusions of the policy research and community planning process to identify actions of broad interest in the West Chester Area and utilize the results of the impact assessment and feasibility study to identify the projected energy impacts, costs, and savings of these actions. The process for input on the plan will have the following major steps:

- High-level plan: The Project Team will identify the strategies from the matrix that best align with local goals. For each strategy selected, the team will identify key steps in execution and produce a summary document that outlines the major strategies and associated action steps.
- Input from City and Community Advisory Group: The Project Team will share the high-level summary document with the Community Advisory Group to ensure that the overall direction aligns with local needs and challenges.
- Full action plan: The Team will make final adjustments to the high-level plan based on input from the Advisory Group and compile a full action-plan for WCACOG's transition to utilizing 100 percent renewable energy will include short-, medium-, and long-term opportunities. Long-term opportunities will summarize high-level steps needed to create the environment to move forward with increasing renewable energy sources (e.g. establishing an on-going commitment from a broadened Advisory Group, passing additional local legislation). The short- and medium-term levels will provide action-steps for the selected strategies such as directed guidance on engaging residents, securing funding, and adjusting program policies.
- <u>Community presentation: Following the completion of the full action plan, the team will deliver an in-person presentation of final results in a public meeting in the West Chester area. The project team will work with WCACOG members and the community advisory group to promote the meeting and invite community participation.</u>

Upon review of the action plan by the WCACOG and key stakeholders, the Project Team will address any feedback and develop a final deliverable. The project will conclude with <u>an in-persona-remote</u> presentation to present the final results and recommendations.

#### Key Deliverables:

- A final Renewable Energy Transition Plan for WCACOG area, including short-, medium-, and long-term goals
- A final public presentation WCACOG and advisory group membersol the full action plan

**Proposal to Provide Renewable Energy Planning Services to West Chester Area Council of Governments** February 19, 2019

### Revised Cost Proposal

The Project Team proposes to deliver the scope of work above for a budget (including labor and expenses) of \$75,000. Cadmus proposes offering each task at a fixed price amount. A budget by task is provided in Table 1 below. The Team proposes for two Cadmus staffers to attend the in-person meetings with WCACOG.

Task	Budget
Task 1: Kickoff Meeting	\$600
Task 2: Stakeholder and Community Engagement	\$22,500
Task 3: Policy Options and Barriers Analysis	\$16,200
Task 4: Policy Impact Modeling	\$12,000
Task 5 Renewable Energy Plan Development (including in-person final presentation)	\$21,600
Travel Expenses (two trips)	\$1,800
Workshop Refreshments and Materials (two trips)	
Total	\$75,000

#### Table 1 Proposed Budget

The set of activities and tasks proposed by the project team do not easily scale with the number of communities that would participate in a community energy planning effort. Therefore, the Project Team proposes the same basic cost structure regardless of the number of participating communities.

## Memo

To:Board of SupervisorsFrom:Jason LangRe:East Goshen Milltown Dam Park Renovation, DEP Mariner 2 Grant ProgramDate:February 28, 2019

East Goshen Township has received a \$350,000 DEP Mariner 2 grant to help fund the development of Milltown Dam Park. The Township has already committed to spending \$313,000 in conjunction with this grant, to fund the below park improvements.

Milltown Dam Park Improvements will include:

- Two Parking Areas (15 total space)
- Fishing Piers, Bridges and Boardwalks
- ADA accessible walkways
- Wood chipped Foot Paths
- Reservoir Road Mixed-Use Trail
- Native species plantings

As a part of DEP's post-grant paperwork process, their staff has requested that East Goshen Township pass a motion formally authorizing the Township match of \$313,000. The name of this project, specific to the DEP grant award, is Dams Transformed into Parks, East Goshen.

Motion: I move to authorize \$313,800 in matching funds to be utilized in conjunction with the \$350,000 DEP Mariner 2 grant, to fund improvements associated with the Dams Transformed into Parks, East Goshen project.

From: Mark Miller

RE: Trailer Purchase

We budgeted \$9,000 in the Capital Reserve Fund to replace our utility trailer. The existing utility trailer is essentially unusable and has no salvage value. I reached out to three vendors to obtain prices. Below are the prices.

Pro-Line Trailers	\$ 6,124.99
TP Trailers	\$10,600.00
Inter-Con Equipment	\$12,364.00

I recommend that we purchase the trailer from Pro-Line Trailers in the amount of \$6,124.99. The reason for the biggest difference in price is that we will be picking it up in Virginia, which resulted in a significant savings.

**Recommended motion:** Madame Chair, I move that we purchase a replacement utility trailer from Pro-Line Trailers in the amount of \$6,124.99

## BOARD OF SUPERVISORS

EAST GOSHEN TOWNSHIP CHESTER COUNTY

1580 PAOLI PIKE, WEST CHESTER, PA 19380-6199

March 1, 2019

**Dear Property Owner:** 

The purpose of this letter is to inform you that East Goshen Township has received a Conditional Use application for the un addressed Hershey's Mill property at the north corner of the intersection of N. Chester Rd. and Wineberry Ln., West Chester PA 19380. Conditional Use approval for a Public Utility Facility was granted for this property in 1997, to PECO Energy Co.

PECO Energy is seeking to modify the Conditional Use approval from 1997 by adding a 10' x 16' building to the site. PECO proposes to upgrade the existing communications equipment for the facility and house it inside this new building.

The property is situated in the R-1, (Low Density Suburban Residential) Zoning District of East Goshen Township. Public Utility Facilities are permitted in the R-1 Zoning District as a Conditional Use.

Pursuant to Township policy, property owners within 1000 feet of the subject property are notified when Conditional use applications are received. The meeting dates for this matter are listed below and subject to change without further written notice:

<u>March 6, 2019 - Planning Commission (7:00 PM)</u> <u>March 13, 2019 - Conservancy Board (7:00 PM)</u> <u>April 3, 2019 - Planning Commission (7:00 PM)</u> <u>April 23, 2019 - Board of Supervisors (7:00 PM – Conditional Use Hearing)</u>

These meetings will be held at the Township Administration Building and will be open to the public. The Application is available for review at the Township building during normal business hours. If any person who wishes to attend the hearing has a disability and/or requires an auxiliary aid, service or other accommodation to observe or participate in the proceedings, he or she should contact East Goshen Township at 610-692-7171 to discuss how those needs may be accommodated.

Sincerely,

Mark A. Gordon

Mark A. Gordon Township Zoning Officer

Would you like more information about the latest news in the Township and surrounding area? East Goshen Township and Chester County offer two valuable resources to stay informed about important local issues. East Goshen communicates information by email about all Township news through Constant Contact. To sign up, go to <u>www.eastgoshen.org</u>, and click the "E-notification & Emergency Alert" button on the left side of the homepage. Chester County offers an emergency notification system called ReadyChesco, which notifies residents about public safety emergencies in the area via text, email and cell phone call.
