5. Chairman’s Report

C. Supple discussed the CADMUS Report and the two community groups that are working alongside it, these consist of representatives from municipalities across the region. West Goshen Township formalized a sustainability committee and will likely reach out to our committee. C. Supple discussed creating a “plastic free plan” that would include single use plastics among other things. T. Kilburn noted that plastics do play a pivotal role in many functions that cannot be replaced. Maybe a title such as “plastic reduction plan” would best describe this plan. M. McCloskey agreed that the intent of something like this would ot reduce plastic usage, not its removal from necessary applications.

1 should focus on doing a smaller number of seminars, but space them out and
 2 increase promotion so the audience grows. K. Markus also discussed
 3 promotion and ensuring past seminars are on the website and promoted to
 4 the public. M. Kruger discussed the October seminar. Topic is waste,

 6 Manager. Follow up needed for date clarification.
