

Demystifying hospice care for loved ones

When: October 15th, 7pm—8pm (via Zoom)

Program Description: Hospice care is a special kind of care that focuses on the quality of life for people and their caregivers who are experiencing an advanced, life-limiting illness. Hospice care provides compassionate care for people in the last phases of incurable disease so that they may live as fully and comfortably as possible.

In this event, we'll provide an overview of hospice care and answer questions from the audience. The class will be on Zoom. Please email EGT Parks and Recreation Director Jason Lang at jlang@eastgoshen.org to register. The Zoom link will be shared before the event.

About the Instructors:

Debbie Basarab is an East Goshen Township resident and has been a Hospice Care Consultant for over 6 years, working with Compassus. She is passionate about educating patients and families on the true meaning of Hospice-focusing on Quality of life.

Carla Suny believes every person should fully understand their prognosis and never be misled by the medical community. Living with dignity and respect means directing your own health care needs all throughout your life and especially during end of life. Her goal is to educate the community to improve access for those who qualify for their hospice benefit, alleviating the burdens that often accompany end of life and ensuring that each person has access to all of the benefits and services available to them and their loved ones.
