From: Susan D'Amore

Re: Annual Planning Session

The Annual Planning Session will be held on Tuesday, January 26, 2021 at 6:30 PM.

At that meeting each ABC will be able to provide a summary of their accomplishments in 2020 as well as their goals for 2021.

In preparation of this meeting, please provide to me your accomplishments and goals by January 22, 2021 to be included in the agenda packet.

Outlined below are the goals provided from each ABC that attended the 2020 Planning Session on January 28, 2020.

Conservancy Board

- Keep East Goshen Beautiful Day on April 18, 2020. Comp Plan Objective 11.4
- Continue maintenance of the blue bird houses in Applebrook
- Continue maintaining Clymer's Woods replacing dead trees and reapplying wood chips around the trees.
- Maintain the riparian buffer along the creeks **Comp Plan Objective 11.1**
- Continue invasive species control. Comp Plan Objective 11.6
- Continue assisting with the pond restoration projects as needed.

Futurist Committee

- Community outreach meetings and resident communications to gather feedback on what residents want to see or not see in East Goshen.
- Business Park Strategic Plan Comp Plan Objective 7.3 & 7.5
- Revisit the Futurist Committee Vision statement with the Board of Supervisors to ensure alignment.

Historical Commission

- Invite local scouting troops for a tour of Blacksmith Shop. Comp Plan Objective 13.1
- Have a blacksmith challenge to see who could win the title making an 18th century knife or tool. Comp Plan Objective 13.1
- Interact with other historical groups. **Comp Plan Objective 13.1**
- Do "The Battle of the Clouds" presentation again. **Comp Plan Objective 13.1**
- Connect the Blacksmith Shop with the Paoli Pike Trail. Comp Plan Objective
 6.2 & 8.6
- Reorganize the HC office in the township building.
- Coordinate our activities with are other events in the area. **Comp Plan Objective 13.1**

Municipal Authority

- Continue to monitor the upgrades at West Goshen Sewer Treatment Plant and Westtown Way Pump Station. **Comp Plan Objective 10.1**
- Continue to implement the Inflow and Infiltration Plan for the Sewer System **Comp Plan Objective 10.1**
- Continue to operate the Sewer Treatment Plant in compliance with PADEP permit requirements. **Comp Plan Objective 10.1**
- Implement Planned Projects Program:
 - Ridley Creek Sewer Treatment Plant
 - Emergency Generator Replacement
 - Caustic Soda Project
 - Pump Stations
 - Hershey's Mill Pump Station Generator replacement
 - Hunt Country Pump Station Mag Meter replacement
 - Hunt Country Pump Station Muffin Monster replacement
 - Hunt Country Pump Station Bypass Pump
 - o Sewer System
 - Two (2) new Ridley Creek Sewer System Permanent Flow Meters

Park and Recreation Commission

- Develop marketing, programming and trail rules for the Paoli Pike Trail. Comp Plan Objective 8.6
- Develop plan for 2021 Full Day summer camp program at East Goshen Elementary. **Comp Plan Objective 9.4**

- Finalize design elements for the amphitheater band shell in preparation for 2021 grant applications. **Comp Plan Objective 9.3**
- Offer nature and art focused programming. **Comp Plan Objective 9.4**
- Host West Chester University's Carnival of Ruin. Comp Plan Objective 9.4

Pipeline Task Force

- Review and assess regulatory and technical aspects of pipeline infrastructure projects. **Comp Plan Objective 10.6**
- Provide comments to BOS on relevant pipeline legislation (State and Federal) and regulatory documentation (PUC, FERC, PHMSA, DEP). Comp Plan Objective 10.6
- Advise BOS regarding pipeline incidents such as inadvertent returns during drilling, sinkhole formation, ground water issues, noise ordinance violations, spills, leaks and any other environmental violations.
- Recommend securing services of a licensed professional geologist for consultation on relevant documentation, legislation and issues.
- Address questions and concerns from residents regarding pipeline activities.
- Provide input to BOS on communications (i.e. Newsletters, Constant Contact Notifications) to residents regarding pipeline issues and activities.
- Continue investigation of Boot Road Geophysical Survey Reports.
- Provide recommendations to BOS and Planning Commission regarding pipeline setbacks and consultation zones for zoning ordinances. Comp Plan Objective 6.4
- Fill vacancy on Task Force.
- Meet with state representatives, state senators, and county commissioners on pipeline issues.
- Provide input to Chester County Pipeline Safety Advisory Board. Contribute to development of an emergency response plan.
- Continue investigation of air quality monitoring and leak detection systems for areas surrounding pipelines.
- Continue investigation of dust monitoring and dust control measures at pipeline construction areas.
- Interact with the Sustainability Advisory Committee.

Planning Commission

- Continue support for following Comprehensive Plan implementing strategies:
 - Objective 6.1 & 6.2 to develop the Town Center and Paoli Pike Corridor
 - Objective 6.3 transforming the West Chester Pike Corridor into a more functional and attractive artery.
 - Objective 7.2 promoting the enhancement of business opportunities along the West Chester Pike Corridor.

- Objective 9.1 maintaining and expanding the Open Space, Recreation, and Trails Network.
- Objective 9.2 developing the Paoli Pike Trail to create the linkage between West Chester and Malvern through East Goshen from West Goshen to Willistown.
- Business Park Vitalization review BP ordinance for possible enhancements to promote Business Park Longevity Comp Plan Objective 7.3 & 7.5
- Support BOS request for any review of Zoning Ordinance to support Pipeline Safety Comp Plan Objective 6.4
- Support BOS request to review existing township Zoning Ordinances for possible revision and updates. **Comp Plan Objective 6.4**

Sustainability Advisory Committee

- Work with the Boy and Girl Scouts to help our youngest residents become future environmentalists.
- Charging stations for current owners of electric and hybrid vehicles is a goal of our committee. **Comp Plan Objective 12.2**
- Work on a proposal for an East Goshen Community Garden which would lead to a home grown Farmer's Market in 2021. A special component of this will be a designated section of plots for children and teens with training sessions to help them.
- A parallel program of educational modules for elementary students at our 2 schools is another work in progress. These will be offered as in classroom opportunities, before and after school programs, and assembly presentations.
- In March, we are offering at least 4 educational sessions.
 - The first will focus on Solar and Geothermal options for homeowners and businesses. **Comp Plan Objective 10.5**
 - The second will provide information on composting, pesticide free lawns and gardens and advice on buying organic products and produce. **Comp Plan Objective 10.5**
 - The third subject will concentrate on water management, to cover storm drains, watering lawns and gardens sustainably, and the purchase and utilization of rain barrels. **Comp Plan Objective 10.5**
 - The fourth presentation will cover how to recycle everything we possibly can to responsibly help protect our environment. Comp Plan Objective 10.2
- Collaboration with other East Goshen ABCs on potential joint projects.
- Once we have a number of workshops under our belts for young people in our elementary schools and park, we aim for a joint program with adjacent townships for the junior and high schools in our area.
- Work with other Environmental and Sustainability Advisory Committees from nearby municipalities.

Re: November 2020 Monthly Report

At last month's meeting I reported that it was a quiet month with little to no problems to report. Well, this month was quite opposite.

Monthly Flows: The average daily flow to West Goshen was 707,000 per day.

- Meters: The meters were been read on a daily basis. The flows are high due to the significant rain events. I noticed a problem with the Ashbridge pump station, the meter was reading low. John Laidly was called to come out to make the repair. The portable meters were read as well, we had Allied Control come out to trouble shoot all four of the meters. They were all put back in service.
- **C.C. Collection:** The stations were visited on a daily basis. We had a problem at Hunt Country with multiple high flow alarms. We found the FOG rod level sensor was dislodged. This caused the rod to give false alarms, the rod was set back into position and returned to normal condition. The pumps were pulled and sent out to Deckmens. We had all the stations washed down and vacuumed out.

We received some odor complaints in White Chimneys Development, we installed a few charcoal filters in the manholes to help with reducing the odors.

We were notified on Thanksgiving Day of a possible sewer blockage at Dutts Mill Town Homes, upon arrival I found sewage seeping out of the embankment. We poked around and located a blocked lateral line. The blockage was cleared. I explained to the HOA President that this was not our responsibility and recommended that they have the sewer lines cleaned and televised. They have contracted with Pipe Data View to perform the work. **R.C. Collection:** The stations were visited on a daily basis, wet wells were cleaned and vacuumed. All pumps were pulled and switched out and sent to Deckmens. The fencing for the generator at Hershey Mill has been completed. The new safety hand rail was completed, I would add that the railing was fabricated in house.

On Saturday December 5th at 7:30 I was checking my e-mails when I found an e-mail from a resident stating he had a sewer blockage. I called him immediately to see what had happened. He told me he had sewage backing up into his home. I contacted the on call men who responded and after several attempts to plunge it they made the decision to run the jetter up the main which solved the problem. They decided the run the root cutter down the lateral which cleared the clog. They televised the line and found that the lateral was broken 4' off the main. We excavated the main and repaired 25' of the lateral.

Aqua Water will be replacing the water lines in Ashbridge Farms so we located the Force Main in eight locations. We also cleaned and televised the sewer lines and marked out all the laterals.

<u>R.C. Plant:</u> Minor maintenance was performed.

<u>Alarms:</u> We responded to 24 alarms for November.

PA 1 Calls: We responded to over 77 PA One Calls for the month of November.

Monthly Rainfall: 5.75 inches for the month of November.

Lateral Caps: We replaced 4 lateral caps.

RE: Hershey Mill Trunk Line

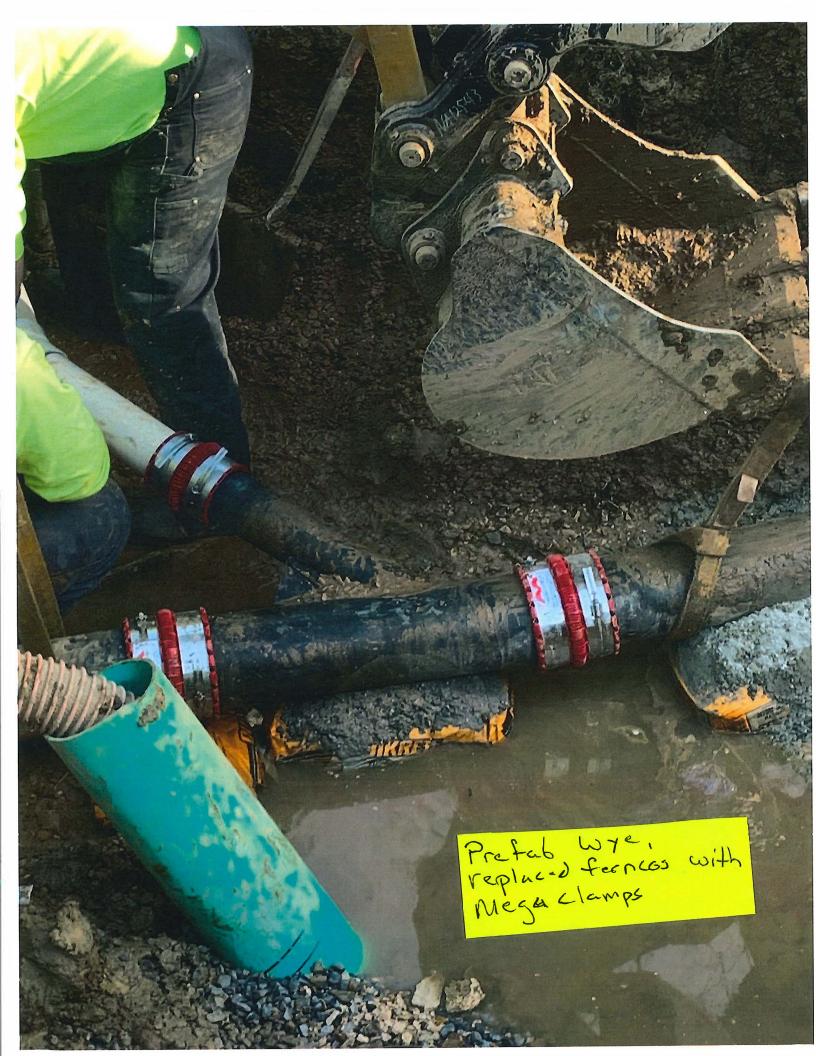

On Saturday December 5th 2020 I received an e-mail from a resident at 1556 Tanglewood Drive. He stated that sewage was backing up into his home. I contacted the men that were on call, they responded and plunged the lateral but could not clear the line. The Public Works men brought in additional manpower to jet the sewer main. They were finally able to clear the lateral however, after televising the lateral we found that the pipe appeared to have dropped. We excavated on Monday and found that the whole sewer main had dropped and the line was so low that we had a heavy build up.

We slipped line this section of pipe approximately 20 years ago. Once they slipped line the cement pipe they came back and cut the wye's in however, they did not support the pipe therefore allowing the wye to drop. We undercut the pipe by hand and placed bags of concrete under the wye and main pipe. (Photos attached) We then connected the sewer lateral which was easier said than done!

We cleaned the main again and removed 5 buckets of grease. Our camera will not fit into the slip lined pipe so Pipe Data was used to clean and televise the entire truck line on December 15th and 16th.

I can e-mail you on December 16th to explain our findings. With what I saw yesterday I would recommend we have Mike Ellis get started on designing to replace the line from Manhole R84 to R82. There are several hurdles to figure out, the first one is heavy ground water and the stream which is over top of the sewer line.

EAST GOSHEN MUNICIPAL AUTHORITY ENGINEER'S REPORT December 11, 2020

Invoices

• Invoices with summaries are provided under separate cover.

Ridley Creek Sewage Treatment Plant (RCSTP)

• Caustic Soda Conversion – No activity. We will initiate design work upon confirmation of the grant approval from PA DCED.

Tallmadge Drive Sewer Main Replacement

• The 2-year maintenance bond period ends March 21, 2021.

1&I Support and Reporting

• We reviewed meter data from the new portable meter locations in the Ridley Creek collection system.

<u>Ridley Creek Collection System Permanent Meters</u>

- No activity since our last report. We will perform construction phase assistance for the Hibberd Lane permanent meter and manhole if needed.
- Design will be prepared for a new RCSTP influent metering manhole in 2021.

AC Pipe Repairs

- Supplee Valley We began analyzing sewer inspection videos of the Supplee Valley neighborhood sewer system to develop a scope and cost estimate for cured-in-place pipe lining and any other needed repairs to the asbestos cement pipes. A portion of the Supplee Valley sewer system was lined and repaired in 2018, and this evaluation will develop a program for the remainder of the system.
- Tanglewood Drive We met with Mark for an initial site visit due to apparent sewer settlement and pipe deficiencies. We provided a budgetary cost estimate to replace the entirety of the ±3,100 LF sewer mains and 17 manholes between Tanglewood Drive and the Hershey's Mill Pump Station. The need and extent of repairs or replacement will be determined following TV inspection of the sewers.

New Connections

• We reviewed a plan and financial security cost estimate for on-site private sanitary sewer upgrades and a grinder pump station for the JABIL Finishing Plant expansion at 1303 Goshen Parkway.

Act 537 Planning

• As discussed at the May MA meeting, the need for an Act 537 Plan Update will be revisited in early 2021.

Westtown Way Pump Station

• No activity since our last report.

END OF REPORT

Executive Summary

The Ridley Creek sewage treatment plant outfall 001 achieved compliance with the permit discharge limitations for the month of October 2020. Discharge to the Applebrook irrigation lagoon remained on line. Chemical usage utilized for pH and total alkalinity remained consistent with previous months. No significant mechanical or operational issues were observed during operation of sludge dewatering equipment or SBR treatment process. There were no reported odor complaints during the month.

Treatment Process Operation

Table 1 illustrates the final effluent composite sample data reported for outfall 001 for the October 2020 DMR.

Table 1

Compliance with the NPDES discharge permit was achieved. The monthly average total phosphorus was reported as 0.18 mg/L as compared to the permit limitation of 0.5 mg/L. The TSS samples were consistently in single digits and well below the weekly maximum of 15 mg/L. The monthly average TSS was reported

BIG FISH ENVIRONMENTAL SERVICES, INC. 1554 Paoli Pike #262, West Chester PA 19380-6102

as 9 mg/L as compared to the discharge limitation of 10 mg/L. The TSS weekly averages are presented below in Table 2.

	Table 2				
September 2020 Final Effluent Weekly TSS					
A	Averages				
Week 1	5 mg/L				
Week 2	6 mg/L				
Week 3	4 mg/L				
Week 4	5 mg/L				

The final effluent test results demonstrate that the biological treatment process performed well during September and October. Sequencing batch reactors (SBRs) numbered 1, 2 and 3 were in service during September and October. SBR 4 remained out of service. Process monitoring of each SBR included ammonia as N, nitrite as N, Nitrate as N, COD, SSV, MLSS and total phosphorus. Daily analysis of the final effluent flow equalization grab sample for total phosphorus is ongoing. Sample collection and analysis of the influent wastewater collected at the influent pump station wet well is ongoing.

Discharge to the Applebrook irrigation lagoon, outfall 002, continues to remain on line. Table 3 illustrates the Applebrook sample data reported for outfall 002 for the September 2020 DMR.

The influent wastewater pollutant concentrations and loading entering the wastewater treatment facility remained within the design concentration and organic loading values. The monthly average weekly concentrations were generally observed to be less than the design parameters for the treatment process.

Table 4 presents the available pollutant data for the influent wastewater collected at the doghouse manhole during October 2020.

Table 4

The foam on the SBR surface remains at approximately 70 to 100% coverage of the surface area. The foam thickness is approximately 3 to 4 inches with a light to medium brown color. These conditions may contribute to a decrease in clarity within the final effluent post flow equalization basins; however, the clarity is improved after passing through the disc filters. The operation strategy is to lower the MLSS to maintain a F:M ratio of 0.06 while ensuring the ammonia effluent discharge concentration remains within the seasonal limit of 7.0 mg/L.

Table 5 illustrates the available data for the final effluent composite sample data reported for outfall 001 for use with the November 2020 DMR.

Table 7 presents the available pollutant data for the influent wastewater collected at the doghouse manhole during November 2020. The influent wastewater pollutant loadings remain within the design criteria for the treatment process and equipment.

PA DEP

Bill Collins from PADEP conducted an inspection on November 10, 2020. A copy of the inspection report is attached. The facility, equipment and final effluent water quality were acceptable. The inspection did note some missing supplemental forms which are included with the eDMR submission. A NOV letter was received on November 12, 2020 requesting the missing forms to be filed electronically through the eDMR system within 60 days of the letter. The missing forms are In the process of being submitted and will be completed by the January 11, 2021 date.

Significant Rainfall

During November, there were eight (8) days when rainfall occurred. Three (3) storm events resulting in a daily precipitation amount equal to or greater than 0.50 inches. These events occurred on:

November 12 th	1.55 inches
November 23 rd	0.65 inches
November 30 th	3.13 inches

Significant Consecutive Storm events included:

November 12th through 13th for a total of 1.76 inches

A total of 6.50 inches of rainfall measured during the month.

Plant operations were adjusted to manage the precipitation to prevent exceedances of the permitted discharge limitations for Outfalls 001 and 002. Adjustments included reducing aeration minutes per cycle, extending decant minutes per cycle and reducing settling times.

Minor Preventative Maintenance

Flushed chemical feed lines to the SBRs. Cleaned final effluent weir trough daily Skimmed surface of disc filters daily Drained and cleaned disc filters bi-weekly Cleaned buildings and laboratory

Chemical Usage:

November 2020						
Chemical	Daily Average	Total Monthly				
Soda Ash	300	9.600				
Aluminum Sulfate solution	81.4	2,442				

Flow data:			/
	Novembe	er 2020	
Flow Meter Location	Total Volume for Month, MG	Average Daily Flow, gpd	Daily Maximum Flow, gpd
Influent Wastewater to Screening Building*	15.349	511,649	1,317,660
Influent Wastewater to SBRs*	13.883	460,757	971,904
Internal Recycle**	0	0	0
Treated Effluent to Disc Filters	13.598		834,716
Final Effluent Discharge	7.221	240,700	570,000
Applebrook Golf Course	4.267	142,220	189,488

During November, the average monthly influent wastewater flow measured at the "field" flow meter was 511,649 gallons//day as compared to the influent flow into the SBRs as 460,757 gallon/day. The difference was 50,892 gallons/day. It is expected that the "field" flow volume would be lower than that of the flow volume into the SBRs as a result of the exclusion of internal recycle flows.

The field flow meter, influent flow channel, grinder and fine screen are inspected routinely for any noticeable signs (blinding of screens) that may contribute to increased head losses through the channel. During the routine inspection, the brush for the fine screen auger was determined to be scheduled for replacement in January 2021. The depth of grit in the channel prior to the fine grinder is also monitored for depth and for scheduling cleaning of the channel.

SBR 4

- The sludge waste and motive pump were removed on the 24th.
- Replaced all 16 decant valves
- Replaced 2 air relief valves

Figure 1SBR 4 decant Valves

Lenni Electric working on New Emergency Generator

• On December 8, the centrifuge was wired to the new generator.

Fine Screen

 Inspected the brush on the fine screen on the 21st. The brush condition is showing signs of wear and replacement will be scheduled for January 2021.

Sludge Dewatering System

- Replaced packing on gland seal on centrifuge transfer conveyor shaft
- Rebuilt the mechanical seal for the sludge feed pump

BIG FISH ENVIRONMENTAL SERVICES, INC. 1554 Paoli Pike #262, West Chester PA 19380-6102 Page 8 of 9

Centrifuge Sludge Discharge Chute

• Replaced the sludge chute. The chute was worn and torn from normal wear and tear.

Figure 2 Centrifuge Chute

Is a Copy of the permit(s)	on-site?				Yes	_
Has the interviewed opera	ator/person review	ed the facility's permit(s)?	2			Yes
Comments						
This CEI was conducted alc Influent headworks appeare 3 of 4 SBRs were online. Th No issues were observed w UV appeared to be function Sludge holding tanks were i Final effluent appeared clear Participants:	ed in good condition ne 3 online SBRs ap rith the disc filters. ing properly. in good condition.	. Both the muffin monster a		nechanical scre	een appeared to be funct	ioning properly.

fluent Sa	ampling	
MRR-1	Is influent monitoring required by the permit?	Yes
MRR-2	Are influent samples collected?	Yes
MRR-3	Is the influent sampling location prior to all treatment? Notes: Samples collected from mh prior to headworks	Yes
MRR-4	Is the influent sampling location prior to all return flows?	Yes
MRR-5	Are representative influent samples collected?	Yes
ffluent S	ampling	
MRR-6	Is the effluent sample collected at the location identified in the permit?	Yes
MRR-7	Where is the effluent sample collection location?	End of UV
MRR-8	Is the effluent sample location after all treatment?	Yes
MRR-9	Are representative effluent samples collected?	Yes
Sample Co	ollection	
MRR-10	Are samples collected as required by the permit?	Yes
MRR-11	Is proper sampling equipment / containers used during collection?	Not Observed
MRR-12	Are the proper type of samples collected in accordance with the permit?	Yes
MRR-13	Are the samples collected at the frequency in accordance with the permit?	Yes
MRR-14	Is the proper sample size (minimum aliquot 100 mL) collected?	Yes
MRR-15	Is proper temperature control provided during collection, storage and shipping?	Not Observed
MRR-16	Is the temperature of the sampler or storage refrigerator monitored using an NIST traceable thermometer and recorded?	Yes
MRR-17	Is the sample storage temperature <=6 °C ?	Yes
MRR-18	What is the sample storage temperature?	5 C
On-site La	b Accreditation-by-Rule	
MRR-19	Does the facility analyze accredited-by-rule parameters only?	Yes
MRR-20	Which accredited-by-rule parameters are analyzed by the on-site lab?	pH DO
MRR-21	Is the on-site lab registered?	Yes
MRR-22	Laboratory Registration ID	15-05032

/IRR-23	Does the on-site laboratory analyze permit parameters?	No
MRR-29	Are permit parameters analyzed by a contract lab?	Yes
MRR-30	Contract Lab Name, City, Phone	See notes
	Notes: ALS Environmental 34 Dogwood Ln Middletown, PA 17057 717-944-5541	
MRR-31	Contract Laboratory Accreditation ID	22-00293
MRR-32	Is the contract lab accredited for those permit parameters?	Yes
MRR-33	Have any changes occurred with the accredited-by-rule or the accredited parameters or labs?	No
nalysis		
MRR-35	Are approved test methods (per 40 CFR Part 136 or others) used for permit parameters?	Not Observed
MRR-36	Are the methods used sufficiently sensitive for permit parameters?	Not Observed
MRR-37	Are the samples analyzed within the required holding time?	Not Observed
MRR-38	Are laboratory equipment/meters calibrated in accordance with the manufacturers' specifications?	Not Observed
MRR-39	Are laboratory meters operated and maintained in accordance with the manufacturers' specifications?	Not Observed
MRR-40	Are pH buffers and other reagent standards current?	Yes
lecords		
MRR-41	Are sampling, calibration, laboratory results, chain-of-custody and other required records readily available for review and complete?	Not Observed
MRR-42	Do the sampling records include collector, date/time, location information?	Not Observed
MRR-43	Do the analysis records include the analyst's name, the analysis date and time, the test method used, the quantitation limits, and the results?	Not Observed
MRR-44	Are the required facility records retained for a minimum of 3 years?	Not Observed
MRR-45	Are the required sludge use and disposal records retained for a minimum of 5 years?	Not Observed
MRR-46	Was access provided to information or to facility records upon request?	Not Applicable
eports		1.5
MRR-47	Identify the month/year of the DMRs and supporting data reviewed.	2020
MRR-48	Are the reviewed DMRs and supplemental reports properly completed?	No
MRR-49	Are the reviewed bench sheets/lab reports consistent with the reported data?	Not Observed
MRR-50	Are samples collected more frequently than required in the permit?	Yes
	Are additional sample results incorporated into the DMR calculations?	Yes

1		1	1
MRR-52	Are DMRs submitted on time?	Yes	
MRR-53	Are the required supplemental reports submitted?	No	1
MRR-54	Is the facility using the eDMR system, if required?	Yes	
2 Flow Me	asurement: 00007247 - SBR PLANT		
Flow Meas	surement		
Q-2	If influent flows are measured, are they measured before all return lines and after hauled-in waste?	Not Applicable	
Q-3	Is a flume present?	No	
Q-6	Is a weir present?	Yes	
Q-7	Are weirs clean with a visible air space below nappe?	Yes	
Q-8	What is the max flow that can be measured at the primary device (flume or weir)?	3.0 MGD	
Meter & R	ecorder		
Q-9	Does the permit require continuous flow monitoring and recording?	Yes	
Q-10	Does the facility have the required flow monitoring and recording capabilities?	Yes	
Q-11	What type of flow meter is used?	Ultrasonic	
Q-12	What type of flow recorder is used?	Totalizer 7-day Chart	
Q-13	Are the meter and recorder operable and operating?	Yes	
Q-14	What is the date of the most recent flow meter calibration?	9/'20	
Q-15	What is the calibration range of the flow meter?	Unknown	
Q-16	What is the flow range of the recorder?	0-3000 gpm	
Q-17	What is the current flow meter reading (MGD or gpm)?	66 gpm	
High Flow	s		
Q-18	Does the permit require a High Flow Management Plan?	No	
3 TP Treat	ment Plant: 00007247 - SBR PLANT		
Treatment	Units		
TP-1	Are all treatment units operable?	Yes	
TP-2	Are the treatment units/equipment as described in the WQM permit(s) or in the previous inspection report?	Yes	
			-

SEWAGE INSPECTION REPORT

TP-7	Is stand-by power provided?	Yes
TP-8	Type of Stand-by Power	Emergency generator
TP-9	How often is the stand-by power unit maintained?	Quarterly
TP-10	How often is the stand-by power unit exercised?	Weekly
TP-11	Is the stand-by power unit exercised under load? Notes: Under load when maintenance is performed	Yes
TP-12	Is the stand-by power system operable and maintained?	Yes
Alarms		
TP-13	Is an alarm system available?	Yes
TP-14	Type of Alarm	Auto Dialer
TP-15	How often is the alarm system tested?	Weekly
TP-16	What conditions trigger an alarm? Select all that apply.	Power failure High level Pump faults Pump failure
TP-17	Is the alarm system(s) operable?	Yes
Chemical	s and a second secon	
TP-18	Are chemicals used for treatment or otherwise added to the waste stream?	Yes
TP-19	Which chemicals are added? Notes: Soda ash Alum Polymer	See notes
TP-20	What is the purpose of the chemical addition? Notes: pH adjustment Phos removal Coagulation	See notes
TP-21	Where are the chemicals added? Notes: SBR SBR Centrifuge	See notes
TP-22	Are chemicals properly handled and stored to prevent a pollution incident?	Yes
Bypasses		
TP-23	Did a treatment plant bypass occur since the last inspection?	No
Planned C	Changes	
TP-35	Have any changes (new pollutants, different or increased volume or loadings) to the waste stream from industrial or hauled-in wastes occurred since the last inspection?	No

SEWAGE INSPECTION REPORT

4 O&M: 00007247 - SBR PLANT

M			
OM -1		O&M Manual As-built drawings Maintenance schedule Equipment Manuals	
OM-2	Is a daily operations log on-site?	Yes	
OM-3	Is the daily operations log up to date?	Yes	
OM-4	Which operational conditions/actions are recorded in the log?	Dbservations Process adjustments Problems or Concerns	
OM-5	Are process control parameters monitored? (Record the monitoring frequency and current results)	Yes	
OM-6	Is an influent/process control supplemental report form completed and submitted with the DMR?	No	
OM-7	Does the daily operations log include maintenance and repair records?	No	
OM-8	Is a routine preventative maintenance (PM) schedule and log maintained?	Yes	
OM-9	Is a repair log on-site?	Yes	Γ
OM-10	Are the PM and repair logs up to date?	Yes	Γ
OM-11	Were major equipment repairs/replacements done since the last inspection? Notes: SBR valves- decant and effluent	Yes	
OM-12	Is a spare parts inventory, either written or electronic, maintained?	Yes	
OM-13	Are spare parts and equipment (pumps, motors) maintained on-site or readily available?	Yes	Γ
olids Ma	nagement		
OM-14	What is the sludge storage capacity?	Unknown	
OM-15	How much sludge was removed from the facility in the past year?	Unknown	Γ
OM-16	How does the facility determine how much sludge to waste?	MLSS results	Ī
OM-17	Is sludge/biosolids production & disposal information submitted on the applicable supplemental report form with the DMR?	No	1
OM-18	Does the facility test the removed sludge for %TS?	Yes	
OM-19	Who provides sludge hauling/disposal/land application?	Charles Blosenski	
ОМ-20	Where is the sludge disposal/biosolids application location? Notes: Chester County Landfill	See notes	
OM-21	How and where are other solid materials, such as collected screenings and grit, disposed?	Dumpster	T

OM-22	Has the facility obtained or assured that contracted agents have the necessary permits and approvals for the disposal of solid materials?	Yes
OM-23	Are solid materials handled and disposed of in compliance with a disposal permit and requirements?	Yes
OM-24	Is the facility in compliance with all other Part C Special Conditions regarding Solids Management?	Yes
Hauled in	Wastes	
OM-25	Does the facility accept hauled-in wastes?	No
Stormwate	er	6 V (2 4
OM-37	Does the permit include a special condition or other requirements regarding stormwater management?	No
Special Co		
OM-42	Is the facility subject to industrial pretreatment requirements, or does the permit include a Part C Special Condition regarding Industrial Pretreatment?	No
OM-45	Does the permit contain a condition regarding whole effluent toxicity (WET) tests?	No
OM-48	Are any other special conditions in the permit not covered in this inspection report?	No
5 DP Disch	narge Point: 00007247 - SBR PLANT	
Outfall		
DP-1	Outfall Observations	See photo
DP-2

NOTICE OF VIOLATION

Mr. Louis F. Smith Township Manager 1580 Paoli Pike West Chester, PA 19380

> Re: Clean Water/Operations/Sewage NPDES Permit No. PA0050504 Ridley Creek STP East Goshen Township Chester County

Dear Mr. Smith:

On November 10, 2020, I conducted an inspection at the Ridley Creek STP. In addition to this inspection, I conducted an administrative review of your eDMR data and supplemental reports. The administrative review indicated that many supplemental reports, as required by your permit, were not submitted. Below is a summary of the missing reports.

Daily Effluent Monitoring

2017 – October

- 2018 January, February and October
- 2019 January, September through December
- 2020 May, July and August

Influent and Process Control

- 2017 September and October
- 2018 January through March, July and October
- 2019 January, September through December

2020 - April through September

Sewage Sludge/Biosolids Production and Disposal

This supplemental has not been submitted at all since the current permit went into effect on May 1, 2017.

Mr. Louis Smith

Please be advised that failure to comply with the terms and conditions of a DEP permit constitutes a violation of Sections 201 and 202 of the Clean Streams Law, the Act of June 22, 1937, P.L. 1987, <u>as amended</u>, 35 P.S. §§ 691.1 - 691.1001 (the Clean Streams Law). Such violations also constitute unlawful conduct under Section 611 of the Clean Streams Law, 35 P.S. § 691.611, and are subject to the enforcement provisions of Section 605 of the Clean Streams Law, 35 P.S. § 691.605 which includes the assessment of civil penalties.

We request that all missing supplemental reports be uploaded to the eDMR system within 60 days of the date of this letter.

This Notice of Violation is neither an order nor any other final action of DEP. It neither imposes nor waives any enforcement action available to DEP under any of its statutes. If DEP determines that an enforcement action is appropriate, you will be notified of the action.

If you have any questions, please contact me at 484-250-5139 or by email at wilcollins@pa.gov.

Sincerely,

Will late

William Collins Water Quality Specialist Clean Water

DRAFT EAST GOSHEN TOWNSHIP MUNICIPAL AUTHORITY MEETING MINUTES November 9, 2020

The East Goshen Township Municipal Authority held their regular meeting on Monday, November 9, 2020 at 7:00 pm. Due to restrictions caused by the COVID-19 virus, the meeting was held via electronic conferencing Zoom. Members in attendance were: Chairman Phil Mayer, Jack Yahraes, Kevin Cummings, Dana Pizarro and Walter Wujcik. Also in attendance were: Mark Miller (Director of Public Works), Chris Boylan (Interim Finance Dir.) Brian Miller (Pennoni), Patrick McKenna (Gawthrop), Michael Lynch (Township Supervisor) and Scott Towler (Plant Operator).

COMMON ACRONYMS:

BFES – Big Fish Environmental Services BOS – Board of Supervisors CB – Conservancy Board DEP – Department of Environmental Protection EPA – Environmental protection Agency HC – Historical Commission I&I – Inflow & Infiltration LCSTP – Lockwood Chase Sewer Treatment Plant MA- Municipal Authority NPDES – National Pollutant Discharge Elimination System PC – Planning Commission PM – Prevention Maintenance PR – Park & Recreation Board RCSTP – Ridley Creek Sewer Treatment Plant SBR – Sequencing Batch Reactor SSO – Sanitary System Overflow WAS – Waste Activated Sludge

Call to Order & Pledge of Allegiance

Phil called the meeting to order at 7:05 pm and led those present in the Pledge of Allegiance. There was a moment of silence to remember our medical and healthcare staffs, troops, veterans, first responders and new government officials. Phil asked if anyone would be recording the meeting. There was no response.

Chairman's Report

1. Phil reported that he did not attend the West Goshen meeting last week. However, the 10 year capital improvement plan will be sent to Phil and the East Goshen office. Their attorney Ross Unruh is retiring. West Goshen spoke to West Chester Borough about providing sewer treatment.

Sewer Reports

1. Director of Public Works, Mark Miller's report for October 2020

Monthly Flows: The average daily flow to West Goshen was 706,000 per day.

<u>Meters:</u> The meters were read on a daily basis. The portable meters were read every week. Allied Control is coming to fix portable meters.

<u>CC Collection</u>: The stations were visited on a daily basis. We had no problems for the month. The generators were all serviced for the winter; oil samples were taken and sent out for testing. We did receive a lateral complaint at 1335 Mark Drive. We televised the resident's lateral; however, we found no problems. We completed the paving in the Goshen Corporate Park. All the manhole castings were sealed. We were notified that Aqua would be replacing the water lines in Ash Bridge Farms so we started locating the 6" force main. We also checked

Page 2

on the bedding around the pipe. We also televised the system and marked all of the sewer laterals.

<u>R.C. Collection</u>: The stations were visited on a daily basis. The generator was serviced.

<u>R.C.Plant:</u> Minor maintenance was performed.

<u>Alarms:</u> We responded to 16 alarms in October. <u>PA One Calls:</u> We responded to over 80 PA One Calls for the month of October. <u>Rainfall:</u> 7.61 inches for the month of October. <u>Lateral Caps:</u> We replaced 10 lateral caps.

Ridley Creek and Hershey Mill generators are ok. Landscaping in Hershey Mill has started.

2. Pennoni Engineer's Report for October dated November 6, 2020 Invoices

• Invoices with summaries are provided under separate cover.

Ridley Creek Sewage Treatment Plant (RCSTP)

- Generator Replacement We responded to questions from the contractor about connecting the centrifuge and additional circuits to the new generator.
- SBR #3 Assessment We submitted the conditions assessment report on October 16, 2020.
- Caustic Soda Conversion No activity. We will initiate design work upon confirmation of the grant approval from PA DCED.

Tallmadge Drive Sewer Main Replacement

• The 2-year maintenance bond period ends March 21, 2021.

I&I Support and Reporting

• We reviewed the weekly meter data from the new portable meter locations in the Ridley Creek collection system.

Ridley Creek Collection System Permanent Meters

• No activity since our last report. We will perform construction phase assistance for the Hibberd Lane permanent meter and manhole if needed.

New Connections

• No activity since our last report.

Act 537 Planning

• As discussed at the May MA meeting, the need for an Act 537 Plan Update will be revisited in early 2021.

Westtown Way Pump Station

•—No activity since our last report.

1

- 3

4 3. Big Fish Environmental Services -

Scott's report showed that the Ridley Creek sewage treatment plant outfall 001 achieved compliance 5 with the permit discharge limitations for the month of September 2020. The plant has been in 6 7 compliance for 12 consecutive months as of October 31, 2020. Discharge to the Applebrook 8 irrigation lagoon remained online. Chemical usage utilized for pH and total alkalinity remained 9 consistent with previous months. No significant mechanical or operational issues were observed 10 during operation of sludge dewatering equipment or SBR treatment process. There were no odor complaints during the month. SBR#1 will be offline during the winter. Ammonia is 7 now. 11 Ammonia goes up to 7 in the winter. They are replacing disc filters and media as needed. Scott spoke 12 about water management during heavy rains. The PA DEP inspector will be at the plant tomorrow. 13

14 Scott explained what the inspection covers. He does not anticipate any problems.

15 16

24

17 Approval of Minutes

Jack moved to approve the October 12, 2020 minutes as amended. Walter seconded the motion. The
motion passed unanimously.

21 Approval of Invoices

Walter moved to approve payment of the 9 invoices totaling \$21,151.23 as listed on the agenda.
Jack seconded the motion. There was no discussion. The motion passed unanimously.

25 Liaison Reports

- Board of Supervisors Mike Lynch commented that they are advertising for public comment on
 the 2021 budget. He pointed out equity funding is being used to make the budget balance. Overall,
 the Township is in good shape. They are looking for a new Financial Director. Working with a
 professional to get interviews for the position.
- 30 2. <u>Conservancy Board –</u> Walter mentioned that the Clymers Woods maintence will be done in
- 31 December. Jason Lang made contact with a scout group to assist with this.
- 32

33 Financial Reports

- 34 Jon Altshul provided the following written report:
- 35 In October, the Municipal Authority recorded \$23,213 in revenues (from transfers) and \$22,828 in
- 36 expenses for a positive variance of \$385. As of October 31, the fund balance was \$5,766.
- Jon mentioned that this was his 103rd and final financial report for the Municipal Authority. Chris
 reviewed the report.
- 39 Phil mentioned that Mark Miller and Rick Smith will try to meet with West Goshen. They should
- 40 have information about a credit next month.41

42 Goals

- 43 Goals for 2020 were reviewed. The goals for 2021 will be discussed at the December meeting.
- 44

45 Old Business

1 None

2

3 4

5 **New Business**

- 6 1. 2021 Proposed MA Budget – The proposed budget was reviewed. Mark explained the projects.
- 7 Jack made the following motion: Mr. Chairman I move that we approve the 2021 Municipal
- 8 Authority Proposed Budget as proposed. Dana seconded the motion. The motion passed 9
- unanimously.
- 10 2. Upper Chichester – Mark explained that Upper Chichester has made a request for the old
- 11 generator. Jack moved to sell the old generator for \$1.00 to Upper Chichester. Walter seconded the 12 motion. The motion passed unanimously.
- 13

14 Any Other Matter

- 15 1. Lot in Hunt Country – Mark explained that a new house is planned. The plan shows possible
- 16 building in the right-of-way. Patrick commented that the property owner is prohibited from
- 17 construction in the easement. Mark commented that the builder knows he can't build in the
- 18 easement. Mark wants them to understand that the Township is not responsible for any damage, if
- 19 the Township has to work in the easement. Patrick advised the use of the full easement agreement.
- 20 Kevin moved to have the Municipal Authority enforce the easement agreement and plan for Lot 59 without alterations. Walter seconded the motion. The motion passed unanimously. Mark will
- 21 22 prepare a letter to the property owner and provide a copy to the MA members before he sends it.
- 23 2. Officer Rotation – Jack gave the rotation for officers for 2021:
- 24 Chairman -- Dana Pizarro
- 25 Co-Chairman – Jack Yahraes
- 26 Secretary – Walter Wujcik
- 27 Treasurer – Kevin Cummings
- 28 Secretary/Treasurer -- Phil Mayer 29

30 Adjournment

- 31 There being no further business Kevin moved to adjourn the meeting. Jack seconded the motion.
- 32 The motion passed unanimously. The meeting was adjourned at 8:15 pm.
- 33 The next regular meeting will be held on Monday, December 14, 2020 at 7:00 pm. 34
- 35 Respectfully submitted,
- 36
- 37
- 38 Ruth Kiefer, Recording Secretary

Planned Ridley Creek Sewer Treatment Plant Upgrade

The Ridley Creek Sewer Treatment Plant (RCSTP) is East Goshen's township sewer treatment plant. It was upgraded in 2008 to a maximum of 750,000 gallons/day, with a typical effluent of 200,000-300,000 gallons/day. With a full-time staff and oversight by the EG Public Works Department and the EG Municipal Authority (EGMA), it is important to maintain safe and efficient plant operations. This is a highly regulated environment and industry, and all of the components of the plant are continually monitored to maintain its effectiveness in meeting discharge limits set by the Pennsylvania Department of Environmental Protection and the United States Environmental Protection Agency.

As part of the normal operations of the RCSTP, caustic soda (strongly basic sodium hydroxide) is added to the sequencing batch reactors (SBRs) as part of the wastewater treatment. These SBRs are a major part of the process to remove ammonia and phosphorus, adjust pH, biologically aerate the wastewater, and eventually discharge the final effluent. Currently, large bags of caustic soda are manually carried up many steps and transferred into the top of the large SBRs, into the liquid suspension. This step is lacking in some safety considerations and also does not allow a closer titration of the caustic soda needed at any time. Therefore, the EGMA is replacing the current caustic soda operation with a safer, more efficient caustic soda storage and feed configuration.

The new storage and chemical feed configuration will include a double-walled storage tank of 3000 gallons and four chemical feed pumps to convey the caustic soda solution (25% sodium hydroxide) directly into the separate SBRs at the plant. Providing the solution of caustic soda in a hands off manner will be a safer alternative to the current process and also brings a cost savings to this component of plant operations. Construction of the storage tank, pumps and piping is not a simple matter and requires site location, structural, mechanical and electrical considerations. The EG Public Works Department will perform the construction with the EGMA Engineer, Pennoni Associates, assisting with the design and permitting of the project.

The total costs for the project are estimated at \$190,000. However, the EGMA has obtained a large \$152,980 grant from the Pennsylvania Department of Community and Economic Development to offset much of these costs. In summary, the EGMA will be able to upgrade the RCSTP plant in a more safe and efficient manner, and at a 80% discount with grant award. This new construction will commence in the spring of 2021.

East Goshen Municipal Authority Attn: Rick Smith, Township Manager 1580 Paoli Pike West Chester, PA 19380

RE: Fee Schedule for Year 2021 and Annual Services East Goshen Municipal Authority

Dear Rick:

Pennoni is proud to serve East Goshen Municipal Authority, and we look forward to working with you again in 2021. We respectfully request reappointment as Authority Engineer for 2021.

Our rates for 2021 are listed below, reflecting an average increase of 2.5%. The same rates will be utilized for our Township Engineer services.

Authority/Township Engineer	\$137/hr
Senior Professional	\$129/hr
Project Professional	\$114/hr
Staff Professional	
Associate Professional	\$100/hr
Senior Engineering Technician	\$99/hr
Graduate Professional	\$91/hr
Engineering Technician	\$85/hr
Survey Crew (2-Person)	

While our company has many employee classifications, these are the classifications most frequently utilized in performing tasks for our municipal clients. We assign the most appropriate level staff competent to perform the work effort requested.

As part of our responsibilities to the Authority as the appointed Engineer, we will continue to provide the following professional services:

- Participation in monthly meetings of the Authority Board
- Preparation of semi-annual sewer system status reports
- Support in I&I reduction with periodic sewer meter data analysis upon request
- Preparation of the annual Chapter 94 Municipal Wasteload Management Reports
- Visual structural inspections of the RCSTP SBR tanks and coatings as tanks are taken offline for service
- Consultation on issues on behalf of the Authority

The estimated total fee for these typical annual services is \$49,000 (same as estimated for 2020), to be billed on an hourly basis at the above rates, and allocated as follows:

General Consultation and monthly meeti	ngs \$30,000
--	--------------

- I&I support and semi-annual reports......\$11,000
- Chapter 94 reports.....\$8,000

The estimated fees are based upon the actual level of effort for each activity over the past few years with a similar level of effort projected for 2021. Similar to previous years, we will establish separate accounts for each project listed above, and each project will be invoiced separately.

Other projects outside of general services, as requested, will be proposed separately, such as the following projects that are planned for 2021 in the 5-Year Sewer System Capital Improvement Plan:

- Hunt Country Pump Station Metering, Muffin Monster, and Bypass System
- Asbestos Cement Sewer and Brick Manhole Lining

Engineering for the RCSTP Caustic Soda Treatment Conversion project was previously authorized and will also occur in 2021.

If you have any questions, please do not hesitate to contact me.

Sincerely,

PENNONI ASSOCIATES INC.

Michael J. Ellis, PE Authority Engineer

NOTICE OF VIOLATION

Mr. Louis F. Smith Township Manager 1580 Paoli Pike West Chester, PA 19380

> Re: Clean Water/Operations/Sewage NPDES Permit No. PA0050504 Ridley Creek STP East Goshen Township Chester County

Dear Mr. Smith:

On November 10, 2020, I conducted an inspection at the Ridley Creek STP. In addition to this inspection, I conducted an administrative review of your eDMR data and supplemental reports. The administrative review indicated that many supplemental reports, as required by your permit, were not submitted. Below is a summary of the missing reports.

Daily Effluent Monitoring

2017 – October
2018 – January, February and October
2019 – January, September through December
2020 – May, July and August

Influent and Process Control

- 2017 September and October
- 2018 January through March, July and October
- 2019 January, September through December

2020 - April through September

Sewage Sludge/Biosolids Production and Disposal

This supplemental has not been submitted at all since the current permit went into effect on May 1, 2017.

Mr. Louis Smith

- 2 -

Please be advised that failure to comply with the terms and conditions of a DEP permit constitutes a violation of Sections 201 and 202 of the Clean Streams Law, the Act of June 22, 1937, P.L. 1987, <u>as amended</u>, 35 P.S. §§ 691.1 - 691.1001 (the Clean Streams Law). Such violations also constitute unlawful conduct under Section 611 of the Clean Streams Law, 35 P.S. § 691.611, and are subject to the enforcement provisions of Section 605 of the Clean Streams Law, 35 P.S. § 691.605 which includes the assessment of civil penalties.

We request that all missing supplemental reports be uploaded to the eDMR system within 60 days of the date of this letter.

This Notice of Violation is neither an order nor any other final action of DEP. It neither imposes nor waives any enforcement action available to DEP under any of its statutes. If DEP determines that an enforcement action is appropriate, you will be notified of the action.

If you have any questions, please contact me at 484-250-5139 or by email at wilcollins@pa.gov.

Sincerely,

Will lell's

William Collins Water Quality Specialist Clean Water

Re: 2021 Fees For Legal Services

Dear Rick:

Attached is our engagement letter setting forth the terms of our engagement for 2021. Please be advised that for 2021, Gawthrop Greenwood has no plans to change the rates or the terms of engagement under which we currently service East Goshen Municipal Authority.

The firm is pleased to have the continuing opportunity to provide legal services to the Municipal Authority in 2021 at our current rate of \$200 per hour. I highly value our long-standing relationship with East Goshen Township and its officials and staff. I would expect that for purposes of budgeting you would be safe in assuming that our experience in 2021 will be similar to the amount of work we did in 2020.

Very truly yours,

tatath M. Mcken

Louis F. Smith, Jr., Manager East Goshen Township 1580 Paoli Pike West Chester, PA 19380-6199

RE: Solicitorship – East Goshen Township Municipal Authority

Dear Rick,

We are pleased to have been engaged to serve as legal counsel to the East Goshen Township Municipal Authority. Our representation is limited to the matter as described below. To the extent you wish to engage our firm to represent you regarding other matters, you will be required to sign a separate engagement agreement describing the scope of that representation prior to our initiation of services. It is our policy to confirm in writing the nature of the engagement and the terms of our legal representation. If you do not understand all of the terms or language in this engagement agreement, please contact Patrick M. McKenna, Esquire prior to signing this engagement agreement.

Identification of Parties: This Engagement Agreement is made between Gawthrop Greenwood, PC, hereinafter to as "Law Firm," or "We" or "Our" or "Us" and East Goshen Township Municipal Authority hereinafter referred to as "You" or "Client(s)." Moreover, Law Firm represents only you and represents no other individual or entity in this matter. Furthermore, there are no intended third-party beneficiaries to the relationship between our law firm and you.

Scope of Representation: We have been engaged to represent East Goshen Township Municipal Authority as general counsel or Solicitor to handle all matters of representation, except as we may later agree should be handled separately or by outside legal counsel. Limited Scope of Representation: The scope of our representation does not include advice or services regarding accounting, tax, personal financial matters or business management, and related non-legal matters and advice. If you wish for us to consult with other professionals retained by you regarding this matter, we will communicate with you in writing to confirm the scope of such consultations prior to initiating same.

Legal Fees and Billing Statements: We will submit a bill to you every thirty days. Expenses will be separately stated on the bill and our fees will be charged as indicated below. Our billing statements are due and payable upon presentation, and are overdue if not paid by the due date set forth on the statements.

You are responsible for payment of all legal fees, expenses, and disbursements, regardless of whether or not any money is recovered on your behalf through a settlement or judgment. Please see the "Expenses" provision and "Late Payment and Failure to Pay" provisions of this agreement for further information. To the extent we are successful in recovering a settlement or judgment on your behalf, all legal fees, costs and expenses not previously paid by you will be deducted from the gross amount recovered in the settlement or judgment. We will provide you with a summary statement listing these deductions at the time of any payment to you from a settlement or judgment.

On the basis of our time, charges are as follows: \$200 per hour for the services of partners; \$200 per hour for the services of associates; and \$125 per hour for the services of paralegals.

From time to time, it is necessary to adjust our hourly rates to compensate for increased experience factors or for inflationary cost increases in our economy. We will, of course, notify you of such adjustments.

I will act as Solicitor and lead counsel for you and will be the principal point of contact. In addition, I will be supported by my partners, Stacey L. Fuller, Esquire and Anthony T. Verwey, Esquire, and my colleague Robert C. Jefferson, IV, who is an associate attorney with the Law Firm. Other individuals

may assist with the case from time to time or even assume the case as lead attorney. The use of junior lawyers, paralegals, and law clerks results in a direct savings to you, since they can more economically perform tasks which do not require the attention of a senior partner. If you have any questions or concerns regarding delegation of responsibilities and work between attorneys, please contact us to discuss these issues.

It is our policy to describe services performed in a detailed manner so that you may be able to understand fully the services and the charges. If there are any questions relating to the services or the charges, we will be pleased to discuss them with you at the earliest possible time after receipt of the billing statement, since the matters will be freshest in our memory at that time. Accordingly, you agree to notify us in writing or email within 30 days of receiving our billing statement if you dispute any entry for legal services or charges on any billing statement. In the absence of any written objections thereto within 30 days of your receipt of a billing statement, you will be deemed to have accepted and acknowledged the billing statement as correct through the period covered by the billing statement.

In addition, if as a result of our engagement, we are required to produce documents or appear as a witness in connection with any governmental or regulatory examination, audit, investigation or other proceeding or any litigation, arbitration, mediation, or dispute involving you or any related persons, you are responsible for costs and expenses reasonably incurred by us (including professional and staff time at then-scheduled hourly rates and reasonable attorneys' fees and costs incurred by us).

Expenses: In the course of rendering legal services to you, it may be necessary for us to incur expenses and administrative fees for items such as filing and recording fees, deposition transcripts, computerized legal research, notary service, overnight or special delivery service, postage, photo-copying, facsimile transmissions, telephone calls, travel, lodging, meals, and overtime for Law Firm administrative and other staff services. The actual expenses and administrative fees incurred will vary depending on the services that we provide to you. Certain expenses and administrative fees in providing the billed service. However, expenses paid entirely to third parties, such as travel and lodging expenses, will be billed to you as our out-of-pocket costs.

Expense items and administrative fees incurred on your behalf will be itemized separately and listed on our billing statements as "disbursements." Third-party expenses may be forwarded directly to you for payment. As is customary, expense disbursements may not be current at the time of final billing. Remaining disbursements, if any, will be billed at a later date.

Late Payment and Failure to Pay: If you fail to pay our statements in full on or before the due date set forth on the statements, we reserve the right to assess you with a monthly service charge equal to 1% of all legal fees, expenses, administrative fees and disbursements that are past due. This monthly service charge will be billed to you at the end of each month in which a late payment occurs. In no event will the service charge be greater than that permitted by any applicable law.

In the event that we are required to file an action or proceeding to collect any late payment or assessed monthly service charge, you will be required to pay for all costs of collection, including without limitation all filing fees, third-party expenses and attorney fees incurred for our efforts in collecting such amounts. If we use our own attorneys or legal assistants to pursue such an action or proceeding, the legal and administrative fees charged shall be calculated on an hourly basis using the applicable hourly rates for the attorneys and legal assistants who perform such work.

File Retention and Destruction: At the conclusion of your matter, this matter will be closed, and we will retain a client file of your matter for a period of seven years. We may store some or all client file materials in a digital format. In the process of digitizing such documents, any original paper documents provided by you will be returned to you. Any copies of paper documents provided by you will not be returned to you unless you request such copies in writing. After any or all paper documents are digitized, we will destroy all paper documents in the client file, subject to the exceptions noted above. At the expiration of the seven-year period, we will destroy all client file materials unless you notify us in writing that you wish to take possession of them. This clause applies to any client file materials being held or stored by a third-party vendor. We reserve the right to charge administrative fees and costs associated with researching, retrieving, copying and delivering such files, as delineated in the Expenses section of the Engagement Agreement. **Client Review of this Agreement:** You have a right to have this engagement agreement reviewed by another Law Firm prior to signing it. Likewise, you have the right to review this engagement agreement outside the presence of this Law Firm and away from the Law Firm's office prior to signing it. You understand that this Law Firm is not retained until the signed original engagement agreement is returned to the Law Firm, including the corresponding retainer.

If you have any questions or concerns about the terms of this engagement agreement, please contact us immediately. On behalf of the Law Firm, we appreciate the opportunity to represent you in this matter.

Very truly yours,

tatath M. Mcken

Patrick M. McKenna

By signing this agreement, I confirm that have I read this engagement agreement, understand its provisions, and agree to abide by it.

ACKNOWLEDGED AND AGREED TO:

Louis F. Smith, Jr. Township Manager Date
