From The Chairman...

Hello Neighbors!

Spring has sprung, summer is shortly upon us, and the township looks terrific thanks to our fantastic public works department! While this “letter” will be short, the newsletter is jam packed with tons of information.

This past month we said goodbye to our amazing administrative secretary, Susan D’Amore. Her retirement leaves a hole in our team, but we are happy she has finally begun her retirement! If you or you know of someone who is qualified for this position, please see details on the website and apply!

June brings another challenge, as we see Mark Gordon, our Zoning Officer /Director of Codes, end his more than 22 years with the township. Join us in wishing Mark great success in his next endeavor! Which brings us to another opening that one of you or someone you know may be interested in helping us fill. Please see the website for details on applying for this position as well.

The summer is packed with opportunities for everyone to enjoy through the Parks and Recreation program, along with a new addition to our team, Jess Wilhelmy. When you see her at the park or at one of the programs, be sure to introduce yourself, she is a great addition to our family!

Lastly, I am pleased to introduce a new feature to the newsletter. As a result of the online survey that was taken in April, there were countless comments made. This was intentional. We wanted the residents to have a chance to give us their thoughts without limiting them. The comments ranged from “thanks for doing a great job” to “don’t know”, and a great deal in between. Most of the comments were related to open space (both for and against) and trail amenities (for and against). To be perfectly honest, this survey was presented to the BOS at the 5/24 meeting, and the Board is still reading the comments and collating them into categories. We will be addressing these comments in meetings as well as a new feature called...Heard it From a Neighbor! We will attempt to explain some of the decisions the Board has made, or previous Boards have made, and why we can or cannot do some of the things that residents have suggested. Some residents do not have the history to understand why some decisions have been made, so we will attempt to give you that history.

Please remember, school will be out soon! Slow down in neighborhoods as children start to play outside again. And those who bike (or skate/scooter), please wear your helmets for

East Goshen Township...a great place to work, live and play.

A fun addition to the park will be a brand-new Bocce Ball court, thanks to Ryan Gianfriddo's Eagle Scout Project! Look for Community Day reminders for June 25th (food trucks, music, activities for kids of all ages, and fireworks!) and be safe, wear sunscreen!

Wishing you all a healthy and safe summer,

Join the Township in welcoming our newest staff!

About our Recreation Program Coordinator, Jess Wilhelmy:

Q: What aspect of your job are you most looking forward to?

Building relationships with the community through programs and events.

Q: What was your most recent position?

Treasurer/Secretary/Parks and Recreation at Douglass Township, Berks County

Q: What are your personal interests?

I would consider myself a jack of all trades master of none. I enjoy being creative and spend a lot of my time in my craft room, kitchen or woodshop. I'm also always on the look out for a good trail or park to take my RC Cars too.

Q: Are you from the area?

I am not from the area but did work for the Borough of West Chester for five years as the Program Coordinator for their Parks and Recreation Department.

Looking for new program ideas!

Do you have an idea for a new program? Or do you have a skill/talent you want to teach others?

POLICE UNITY TOUR VISITS GOSHEN

On Monday May 9th, we had the pleasure of serving as a rest stop for riders on the Police Unity Tour. Law enforcement officers cycled to Washington DC with the purpose of raising awareness of officers who have died in the line of duty and to raise funds for the National Law Enforcement Officer's Memorial and Museum. WEGO's own Officer Ted Cam was among the participants.

NEVER STOP TRAINING

Goshen recently held a joint training exercise on vehicle rescue with Edgmont Fire Company. Fire and EMS crews trained on rescue tools, stabilization techniques, and patient extrication. Thanks to Abel Brothers for bringing cars for us to practice with.

Our Fire, EMS and Fire Police divisions always welcome new volunteers; training and equipment is provided at no cost to you! Have a special skill you can share with us? We also need volunteers to help with marketing, administration, finance, fund raising and special events. Go to www.goshenfireco.org for information on how you can join us. Follow us on Facebook at Goshen Fire Company.

WEGO PD would like to congratulate Sergeant James Renegar and Detective David Hale for attaining their master's degree in Legal Studies.

On Saturday May 7, 2022, Sgt. Renegar is married to his lovely wife Lori and has 3 beautiful boys. Benjamin who is 11, Max who is 7 and Detective David and Matthew who is 5. Sgt. Renegar attained his bachelor's degree in Criminal Justice from Widener University in 2002. Though this process was not easy by any stretch of imagination, I have no doubt that it was worth it. With 3 small children at home my wife and I constantly try to impress upon them the importance of asking questions and learning every single day. This point is driven home so often that one day my oldest son said that it wasn't fair that he had to go to school every day and all I had to do was go to work. I told him that he was right. I enrolled the very next day. It was my hope that my boys understand that learning never stops. As Albert Einstein said, "Intellectual growth should commence at birth and cease only at death." It is my ultimate hope that armed with an increased knowledge and understanding of the law, I will be able to better serve the residents of Westtown East Goshen and Thornbury. I want to specifically thank the D SQUAD, my teammates and brothers in arms, Officers Lang, Warner and Hale (Before he became the hot shot detective) for believing in me and always being up for a chat about the week's assignment. I am eternally grateful to Chief Bernot, Lt. Leahy, Lt. Stafford and Cpl. Large for their guidance and patience while going through this entire process. As for the future? I guess I am going to need to learn how to spell Doctor IT.

and a half years of hard work and dedication to their academic pursuit, all the while working a normal rotation at the police department which includes shift work along with Nights, weekends, and holidays.

Biographies:

Detective Hale is married to his lovely wife Amanda. He has 3 children as well. Warren 4, Eliot 2, and Madeline 6 months. Detective Hale is a graduate of West Chester University class of 2010 where he also attained his bachelor's degree in Criminal Justice.

Det. Hale believes that the law enforcement profession is ever changing, more complex with higher demands and expectations. Education is fundamental in keeping with the times. It is Det. Hale's hope that by continuing his knowledge in the field will further aid The Westtown-East Goshen Regional Police Department in providing the communities we serve with the highest level of service.

Face to the Sun

Face to the east in the morning.
 Face arching west by afternoon.
 Feeding ladybugs and beetles
 from florets in her flower head.
 By morning bending east again
 For finches and chickadees to feast.

The flower of choice for healing,
 Extracting uranium from water and soil,
 strontium-90 after Chernobyl
 and the Fukushima Daiichi disaster.
 Converting poisons to potassium,
 magnesium and calcium.
 The Sunflower a Transformer Star!

The queen of any garden, from 3 feet
 to 30, a saffron globe of generosity.
 A stand out of a stand in for the sun.
 Nourishing, cleansing, inspiring,
 and tilting, always tilting toward the light.
 Ambassador of service to all
 that crawls and walks and flies.
 Reviving our planet, one toxin at a time.

Always Looking into the Future

Thank you to all who participated in our Second Resident Survey recently and to the many who took the time to share additional thoughts on life in East Goshen Township. Your feedback is important and was shared with the Board of Supervisors at their monthly meeting on May 24. The survey was meant as a short follow up to our first survey last year. The questions contained in this survey are meant to provide input for long range planning purposes. None of the projects covered are currently budgeted or funded. Any initiatives the Board of Supervisors deem beneficial to goals for the Township will go through the normal budgetary processes with opportunities for public input before any funding is allocated.

This survey focused on three main topics: **Potential Amenities for the Central Business District, Connector Trails Between Neighborhoods and the Paoli Pike Trail and Open Space.**

The success of the survey was excellent with over 550 responses. These responses were representative of the entire Township population across key demographics when compared to recent available census data.

The key findings of the survey were:

- **72% of residents surveyed support the addition of Connector Trails Between Neighborhoods and the Paoli Pike Trail and 47% would be willing to pay higher taxes to help fund.**
- **64% of residents surveyed support adding street trees to the Central Business Area and 59% support adding lighting. 51% would be willing to pay higher taxes to help fund.**
- **46% of residents surveyed support maintaining or increasing the percent of Township open space and are willing to pay higher taxes to help fund.**

Many respondents indicated an appreciation for the opportunity to express their interest in ongoing Township activities. The information was gathered for future planning purposes and shared with the BOS for their consideration. If you aren't already subscribed to the Township email list please sign up on the East Goshen website so you will be sure to hear about any future surveys. You can provide any feedback to us at futurists@eastgoshen.org.

The Futurist Committee

Futurist Committee Seeking New Members

The Township's Futurist Committee is seeking new members to join their committee. The Futurist Committee's mission is to explore possible future endeavors of the Township and explore ways to assist other Authorities, Boards and Committees (ABC's) with future needs. The "ABC Volunteer Form" can be found by clicking on the "Forms and Applications" tab on the left-hand side of the website homepage. Please attach resume and scan and email to ddavis@eastgoshen.org or mail form to Township Office.

Conservancy Board Update

Keep East Goshen Beautiful Day was held on Saturday April 23, 2022 throughout the township. In a coordinated effort, volunteers picked up trash and debris along paths and roadways. The type of trash picked up varies from soda cans to old tires, but the most common items are the plastic drink cups and plastic bags. Volunteers' efforts made a noticeable impact enhancing the views around the township. Thank you volunteers! Everyday is Keep East Goshen Beautiful Day when trash is dropped in the trash can and not on the ground.

Arbor Day is a holiday celebrating the planting, upkeep and preservation of trees. Arbor Day was first celebrated on April 10, 1872 in Nebraska City and became a national holiday in 1970. East Goshen Township most recently celebrated Arbor Day on April 23, 2022 with a tree planting in Applebrook Park. A black gum tree was planted followed by reading of the Arbor Day proclamation read by Michele Truitt. Thanks to Mark Gordon, EGCB Liason for coordinating the tree planting and Eunice Alexander, Goshen Tree Tenders, for input on suitable tree species. This years celebration of Arbor Day also moves East Goshen Township closer to recognition as a "Tree City USA" by the Arbor Day Foundation, anticipated sometime in 2023. A "Tree City USA" designation is a public declaration of the importance of trees in our community and a source of pride for all residents.

East Goshen Arbor Day April 23, 2022 – Tree Planting: (L to R) Michele Truitt, BOS Chair, Eric Meyer, EGCB, Sandy Snyder, EGCB Chair, Walt Wujcik, EGCB past Chair, Dan Flynn, EGCB, Mark Gordon, EGT-Liason.

East Goshen Conservancy Board (EGCB) recently reached out to the Willistown Conservation Trust (WCT) to walk the Ashbridge Preserve to discuss the restoration work ongoing in the preserve. The interface of people and property to the waterways of East Goshen is fragile. The Ashbridge Preserve is more hiking than walking. The paths are dirt or wood planks. Stepping stones enable crossing of the Ridley Creek. At the Streamside Buffer Demonstration Area, a portion of the stream side, passing through what was a former farm pond, is receiving new plantings of native trees and bushes. There are varieties of native fruit trees planted as much to educate the public as to retain the streamside soil. Water monitoring stations in Ridley Creek provide real time water quality data available for public review online at wctrust.org. Following an analysis of three years of data, the following conclusion was offered by WCT: "...we believe it is important to reduce water temperature and conductivity in local streams to improve habitat and increase biodiversity. One of the most effective ways to accomplish this goal is by planting native plants along streams in riparian areas, the land that borders waterways. Streamside trees and shrubs provide shade, reducing water temperature and increasing dissolved oxygen. Native plants slow and absorb runoff, limiting the amount of pollutants like nutrients and salts that reach the stream, which reduces conductivity. While large scale plantings are important, you do not need to have acres of property to benefit local streams and rivers! Adding native plants to lawns, fields, and gardens goes a long way to improve water quality, even if you do not live alongside a stream."

For more info on the study and native trees and shrubs go to www.wctrust.org. Also, the Penn State Extension has robust info on native plants and trees, start online at: extension.psu.edu.

EGCB wishes to thank Lauren McGrath, WCT Director of Watershed Protection Program, Andrew Kirkpatrick, Director of Stewardship and Kate Etherington, Executive Director for listening and providing information.

A Clean and Green East Goshen Destination in May

Where could you go in May to see a new Ford Mustang electric car demo, a Tesla EV and an ebike? Sign up for a free home energy survey and view green home products? Consider solar ideas for your home and business? Hear about water protection and conservation? Talk with home owners about their green energy installations?

Learn about composting and better recycling techniques? Explore how to grow a pollinator garden? Return used coffee pods, wine corks and even prom dresses to be recycled? View a costume made entirely of recycled materials from a production of WCU's Carnival of Ruin?

Learn about Chester County's environmental efforts and meet our County's new Sustainability Director? Support East Goshen local businesses who have signed on for our Sustainable Businesses Program?

All this, and more, at East Goshen's inaugural Sustainability Expo last month! We were delighted to see so many residents and guests attend. Our special thanks to our 2 local sponsors for this event: Lavazza and CTDI.

Would love to hear your feedback from this event, to help us decide what would help our community most going forward. Please send us a message at sac@eastgoshen.org.

To build on the information shared at our Expo, we are creating a useful list of links for our EGT website to help you fulfill our collective commitment to a clean and green East Goshen for our children, and for future generations. Below you will find a list of places to recycle items you no longer need, compiled by members of our Sustainability Committee.

A clean, green destiny for East Goshen is our mission!

Heard from a Resident...

Questions from around the Township

1. Why all the potholes on Paoli Pike specifically near CVS?

Answer: Unfortunately, Paoli Pike is a PennDot road for which the Commonwealth is responsible for maintaining. We have been in touch with PennDot and will continue to do so until these issues are corrected.

2. There seems to be a lot of dogs running around off leash in the park as the weather warms up. Is this allowed?

Answer: No. Dogs must be on a 6' leash in public and in all our parks. We will continue to enforce this as we see violations and we appreciate this being brought to our attention.

East Goshen Municipal Authority

The East Goshen Municipal Authority (EGMA) is responsible for the management and disposal of effluent wastewater generated in East Goshen Township. Approximately 30% of that wastewater is handled by our own plant, the Ridley Creek Sewage Treatment Plant, located near Towne Drive in the east end of the township. The remainder is transferred by a series of pumping stations to the West Goshen Wastewater Treatment Plant on South Concord Road, operated by the West Goshen Sewer Authority (WGSA).

The WGSA plant was expanded in 1977 and East Goshen was one of four other townships that entered into agreements with the WGSA for its operations. West Goshen contributes about 60% of the wastewater flow into the plant, with the other townships making up the remaining 40%, therefore distributing the fixed costs among a greater number of users. East Goshen is assessed capital charges based on a reserved flow capacity of one million gallons of wastewater per day, 16.7% of the WGSA plant capacity (six million gallons/day). Operational costs are divided by the five townships based on actual flows for the previous quarter. Residents connected to the EGMA sewer system pay quarterly rates to cover daily operations of WGSA facilities and are also proportionally responsible for capital improvements to the plant.

The WGSA plant has undergone a major renovation to meet current U.S. and Pennsylvania safety and environmental regulations for its plant and sewer systems. These improvements included a new anaerobic digester, enhanced chemical addition processes, improved headworks, advanced water treatment systems, and other repairs; the total estimated project cost is currently \$26.7 million. The EGMA is responsible for 16.7% of the capital project costs, currently \$4.5 million. As expected with such a large project, many of the engineering improvements involved major construction, legal, and permitting issues, and some are sequential in nature. The overall construction effort is substantially complete now, in 2022.

A separate WGSA project that East Goshen is responsible for is the upgrades at the Westtown Way Pumping Station (WWPS). This pumping station had not been upgraded for over 30 years. East Goshen is assessed capital charges at our reserved flow capacity at the WWPS, 54.7% of the total flows through the pump station. The low bid for the upgrades of \$3.38 million was accepted by WGSA in October 2021; East Goshen's share is \$1.85 million. Construction has started and is expected to be complete in early 2023.

The EGMA's share for these projects was part of the larger 2017 East Goshen Township bond issue to cover these costs. When amortized, these plant improvements result in modest increases in the quarterly rates, but are required for safe and effective operation of the WGSA treatment plant. The EGMA actively monitors the construction projects by attending WGSA meetings and through site visits to view the progress. In this manner, the EGMA continues to be good stewards of resident dollars, but also an advocate for environmentally sound operations within the current regulatory oversight.

Any questions may be directed to members of the East Goshen Municipal Authority, which meets monthly on the second Monday of the month at 7:00p.m. in the Township Building.

It's time to party in the park!!!

I hope everyone has had a wonderful spring and is looking forward to a memorable summer! My fellow Park Commission members and I hope you spend a great deal of time in our parks making some of those memories! Speaking of memories, this year has been action packed so far! We kicked off the special event season back in April with an Egg Hunt attended by 1,000 kids, which was amazing!

This past May, Jessica Wilhelmy started as our new Recreation Program Coordinator. She'll be joining Jason in support of current park and recreation programming, but looks forward to adding a ton of new activities in the near future! Look for future communications from Jess regarding new programming you would like to see!

And just a few weeks ago we were named a 2022 AAPRA Gold Medal Finalist community for a fourth year in a row, wow! This basically means your parks, programs, special events and Public Works is considered "top four" in the country in the under 30,000 population category. We had a blast created our Grand Plaque video, and it was amazing to see so many residents take part in the video this year. After all, EGTPR isn't a department of one (or two now)...but truly a department of 18,000!

Summer camp season is upon us and we are busy making final preparations for another awesome year! We have a huge staff of 30+ that can't wait to meet your campers and help them have the best summer camp experience ever! Our traditional summer REC Camp is at capacity, but we do have a few spots available in some of our other camps like tennis, photography and Young Rembrandts.

Do you like fireworks? Of course you do, who doesn't! Community Day will be held on Saturday, June 25 from 5p – fireworks and we hope everyone can join us for our official kickoff to summer! The event will include moon bounces, live music, pony rides, food trucks and more! Really want to have a special Community Day experience? The Friends of East Goshen is sponsoring the "light the fireworks" raffle again this year. You can visit their website today to start purchasing tickets. We'll draw one lucky ticket at 7pm during Community Day, with that person getting to literally hit the button to blast off the first firework in front of 4,000 people!

The SE PA Teen Filmmakers Showcase is in its fourth year and we had 1800+ entries from across the globe. We look forward to partnering with the Movie Tavern Exton and SunCenter Studios again this year to offer an amazing in-person film festival exclusively for local teen filmmakers! New in 2022, you can come watch all these amazingly talented local teen films as well! On Thursday, August 11, we'll have a special Showcase screening for a VIP audience, so that means you! It will include red carpet photography, interviews with our local teen filmmakers and a special guest video. We've partnered with the Ukraine Film Office in Kiev, and net proceeds from the VIP ticket sales will go to Olga Artushevskaya, an international Official Selection for her film *Valera*. There are only fifty tickets available and this will surely be a special night, so come on out and support the local teen artist community!

Ukrainian filmmaker

Olga Artushevskaya Finally, we hope you are ready for a gigantic event in the park September 24, or should we say parks! We held the first Chester County Art Walk in partnership with the Chesco Art Association last fall and had twenty-three artists, which was great! This year, we have, are you ready, eighty-five artists! We are thrilled that the entire Chester County art community will be joining us this year and invite everyone at home to enjoy the event. The Art Walk will truly lean into the "walk" aspect of the name this year. The eighty-five artists will stretch under a sunny fall day from EGT Park, along the Paoli Pike Trail in Applebrook Park and all the way to the Township Building! Food and live music at multiple locations will complete the experience. So mark your calendars, lace up your sneakers, and enjoy some art!
