Discussion continued on the potential path forward for Paoli Pike Trail(PPT)/ neighborhood connector options. Tom updated the group on his meeting and tour with Mark Miller on the various phase 1 and 2 options. They also met with Nate Cline, Township Engineer, to review options connecting Bow Tree, New Kent and Marydell neighborhoods to the PPT. Mark Miller will provide estimates for these options with direction from Nate on Penndot issues. Other options being considered are Colonial to PPT connector, Line Road from PPT to Applebrook and Linden Lane to the Business Park via CDT. The committee discussed timing for a possible phase one recommendation to the BOS, likely in January, as well as trail surface options and strategy. Longer term potential connections from the southern part of the Township were also identified and discussed briefly. The next meeting is scheduled for November 17, 7PM.

The meeting was adjourned at 8:10 PM.
