Business:

Discussion continued on the potential path forward for the Paoli Pike Trail (PPT) neighborhood connector options. The group considered feedback from Mark Miller on cost estimates for the various connector options. Mark will be asked to revise the cost estimate for the Colonial Dr connector if gravel or wood-chip surface were used instead of asphalt. We are waiting for Mark's feedback on costs and options for Bow Tree connectors. The Committee agreed to measure interest from Bow Tree residents on desire for a connector. The committee is waiting for feedback from Penn-dot via Mark Miller on a potential crosswalk on Boot Road at Barker drive. This is a dangerous crossing today with much adolescent foot and bike traffic. A suggestion was made to consider a strobe like warning system and crosswalk. In general the committee discussed identifying the natural connectors that residents are already using and making them safer.

The meeting was adjourned at 8:00.
