March Minutes were approved

Business:

Jeff introduced our guests and indicated that they may be interested in joining the committee. Tom gave a brief history of the focus of the Futurist Committee.

The Bow Tree survey was approved and Jeff will work with Jason to implement. We agreed to give a short 1 to 2 week duration for survey responses. We discussed several possible connectors and crossings across 352 and Boot Road to connect neighborhoods to the park and trail. We agreed that the short term focus would be on the 2 Bow Tree connector options mentioned in the survey and would plan to schedule a review with the BOS following our next meeting in May. Dave presented a couple of potential grant possibilities for funding.

We had discussion on developing a plan for commercial growth and stability as significant Township revenue comes from EIT. Jeff voiced a concern that more people are working from home and that this might impact negatively on EIT going forward. Dave agreed to furnish the breakdown of EIT revenue for review at the May meeting.

The meeting was adjourned at 8:00
