Approved Appliances with FREON REMOVED

In order for these items to be accepted, the Freon must be removed by a certified technician. The technician will have to put an approval sticker on the item. Click [here](#) to view a listing, provided by the Chester County Solid Waste Authority, of Freon recovery service companies.

- Air conditioners
- Freezers
- Humidifiers/Dehumidifiers
- Refrigerators

*** FREON RECOVERY INFORMATION ***

The Clean Air Act of 1990 requires recapture, recycling, and safe disposal of chlorofluorocarbons (CFCs) and hydro chlorofluorocarbons (HCFCs) used in air conditioners, refrigerators, and freezers as coolant. Under the Act, no one may accept an item containing CFCs and HCFCs for recycling or disposal unless the Freon contained within it is properly removed and the owner/hauler/appliance company can show proof of proper removal. It is also unlawful for any person to knowingly release or vent CFCs or HCFCs into the air. The EPA requires certification for all technicians removing Freon as of 11/14/94. For more information, call the EPA's Stratospheric Protection Hotline at 800-296-1996.
